

Hi <name>,

Nowadays, many businesses offer online courses and memberships. And almost every single one of them, including yours, suffer gigantic losses from social media marketing that either doesn't exist or is of bad quality.

I started looking for brands that already utilize their resources in an efficient way. That's how I found your YT channel and started exploring your content. While looking at your website, your <name of the program> caught my eye. I think it's amazing how it helps people watching you <audience's results, usually 2 or 3>

I think that your brand has what it takes to get the best of my ideas and truly benefit from improved social media marketing.

I understand that you probably got tens of similar messages. I wanted to show that I'm serious, so I put together some Fascinations. I'm confident they will get more traffic on your socials because they are designed to capture the attention of the reader. You can use them as subject lines to your emails or headlines to your articles.

If you like them, shoot me a quick message so we can discuss other ways I can help your business.

Jędrek
