

3 Column Table

BHAG (Big Hairy Audacious Goal) – Overarching Course Goal

Learners will create an Interactive Schedule while also learning how to use Canva.

Learning Goals	Learning Activities	Assessment Activities
Learners will duplicate the course for their own use and communicate within the course.	Learners will view the course and duplicate it Learners will comment on any part that needs further explanation.	Learners will be asked a few minor questions for them to comment their responses on the slide.
Learners will find and manipulate designs.	Learners will Look through the different pre-made designs to find one that will fit their activity or subject then use elements to change it.	Learners will create a page for their interactive schedule using designs and different elements to make it their own
Learners will manipulate text features to fit their design.	Learners will add a text box and see the many different fonts there are to choose from. Learners will experience to hyperlink text.	Learnings will add a text box to a properly hyperlinked video or other resource that they would want students to see.
Learners will upload their own images as well as record a video of themselves.	Learners will search the web or choose a photo of their own to upload into their Canva. Learners will record a video of themselves.	Learners will add a video or image to their project in a frame. Learners will add a video on a separate slide and change its saturation to 0.
Learners will organize their work in folders within Canva.	Learners will create different folders for each subject that is relevant to them.	Learners will create a folder specific to their interactive schedule project.
Learners will collaborate with others.	Learners will share their one page to collaborate with others in the course.	Learners will create a page separate from their interactive schedule to share with others in the group.
