HIGH DOSE VITAMIN C

[High Dose Vitamin C](#)

As an antioxidant, we need vitamin C to form collagen, as well as grow and mend tissues. Vitamin C encourages the immune system to function properly, helping your body to ward off viruses.

This high-dose vitamin C drip may be an option for those with weakened immune systems (immunocompromised). It may be considered for those seeking adjunctive support in their cancer treatments.

For more information on High Dose Vitamin C treatment,
visit or call the clinic at:

Dr. Amauri Caversan ND
1200 Bay Street #1102
