

Orientation Objectives

Orientation Modules include:

- Welcome to Online Learning
- Reflection on Skills and Expectations for Online Learning
- Genius: What I Need to Know
- Buzz: What I Need to Know
- Preparing for Your Online Course
- Support and Other Tips and Resources

This orientation course will:

- Provide an overview and introduction to an online learning environment.
- Ensure that you know how and where to seek assistance and support whether you have a technology issue, a question about how to log in, a question about course content, etc.
- Introduce you to the tools you will be using as an online learner, as well as an opportunity to use them through short activities that your facilitator will provide feedback on.
- Provide tips for document management and access.
- Ensure that you have the resources you will need for your online course and the opportunity to evaluate the readiness of the technology you will be using.
- Review safe Internet practices, Digital Citizenship, and Netiquette
- Provide the opportunity to reflect on the characteristics and traits of successful online learners.
- Provide some tips and strategies to have a successful online experience.
- Clarify what you can expect in the online learning environment, from your online teacher and your School/Coach/Mentor.
- Clarify what is expected of you as an online student.
