

How do I find precipitation data for a particular place and period of time?

1. Go to the [Rainy Days Report](#) on the CoCoRaHS website.
2. For **Location**, click “ALL COUNTIES” and then click on the county you want data for.

View Data : Rainy Days Report US Units

Search Location and Date Range

Location: USA North Carolina ✓ ALL COUNTIES AL - Alamance AX - Alexander

Date Range: 6/1/2000

3. For Date Range, set the month or season that you want data for. Use the table below to check your start date and end date for each meteorological season.

Meteorological Season	Start Date	End Date
Winter	12/1	2/28 or 2/29
Spring	3/1	5/31
Summer	6/1	8/31
Fall	9/1	11/30

4. Check that the year is correct for the start date and the end date. *When looking up winter data, the start date and end date will be in different years.*
5. Click “Search”
