

FunkyScott47's USB Loader GX

Guide (Wii)

Disclaimer

the **homebrew** channel

This guide is for the **Wii!** Although the process is highly similar to Wii U (vWii), the downloads for the forwarder channel and the custom ios' are different. Please refer to my Wii U modding playlist for vWii guides.

This is a very safe process with an extremely low risk of a brick, however, it is always a good idea to have a NAND Backup just in case. And on that note, if you decide to follow this guide, you are following at your own risk and I suggest you watch the video through fully before starting.

There will be no mention or instructions on obtaining paid software illegally in this video.

As always, HAPPY MODDING!
