

Project Production Report – Mechatronics Engineering – Name: _____

Task Number: _____ Project (EG): Arduino Car : _____ Year Group: _____ Date: _____

Add 6 of the most important stages in your production process. [FIND IMAGES HERE](#)

Production Stage	Image	Description and Success Tips	Safety
EXAMPLE Wiring Joy stick		Wire the Joystick Colour match the pins using the circuit diagram.	None

EXAMPLE Laser cutting parts		Set Laser speed for 3mm wood cutting. Focus Laser – use camera to locate material on the bed.	Wear Safety Glasses as per SOP
Fit motor Mounts		Make sure square- sit flat able tight. Use Nylock nuts - don't slip.	Cordless Drill SOP - safety glasses.
