

SL: Welcome To The Agent Leaders

Hey [name],

It's Sam, Founder of The Agent Leaders.

Let's get straight to the point.

You're a Real Estate Agent looking to massively increase your GCI.

Now, if you're not an Agent in the first place, please leave this newsletter.

I'll only be revealing the most effective, up-to-date and results guaranteeing methods to turn cold leads into qualified appointments.

It may get boring if you're not in Real Estate 😊

If you are an agent, but you don't want to grow your GCI, please could you also leave this newsletter.

Anyway, if you're still here, you've made a wise choice my friend...

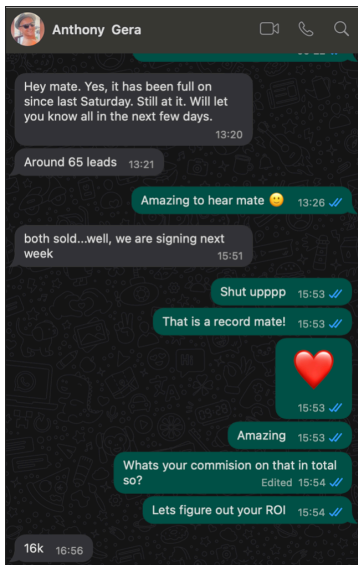

Before I just give you the secrets on how to reliably scale to 6-7 figures as a realtor, I thought it would be best to prove that our systems genuinely work.

After all, we have

- Helped launch and sell **over \$200 million worth of residential projects** into the market.
- Worked on projects with industry leaders such as Zaha Hadid Architect, REMAX, and many more.
- Won multiple international awards and worked on projects all over the world.

Alright, alright, enough of the bragging... I just wanted to give you an idea of who we are and what we have accomplished.

On a serious note though, Anthony, who had zero tech skills, followed our "Make it Rain" systems and made **\$16,000 CGI in the first 30 days** of joining the program.

Don't just take my word for it... If you want to see all the reviews and wins from Agents who were in the exact same spot you're in right now, just take a look for yourself >>> [LINK TO TESTIMONIALS](#)

Now, please keep an eye out for my next emails.

Because in the next few days...

I will send over a bunch of emails that will help you become an unstoppable force in your Real Estate Market.

- From in-depth guides on how to effectively convert cold leads...
- To eye-opening case studies from different clients...
- And even some of the systems my clients are following to 2x, 5x and even 10x the number of leads you generate.

So, when you have the time, make sure to go over them.

You've already done your part by proving how serious you are in your own journey.

The next few emails are nothing more but my commitment to making sure you level up in your career as a realtor.

Until next time,

Sam
