Збірник шахматних камбінацій.

Часть 1

Мар'іна Горка, 2011

ЮНЫМ ЛЮБИТЕЛЯМ ШАХМАТ

Эта книга предназначена для юных любителей шахмат, которые только-только научились играть или делают свои первые шаги в этой мудрой и увлекательной игре. Шахматы – это умственная борьба, в которой наряду с победами случаются и горькие поражения. Побеждает в шахматах более умный, более знающий, более умелый.

Не все из вас достигнут вершин мастерства в шахматах, но, несомненно, занятия шахматами пользу принесут всем. Занятия шахматами разовьют у вас логичность и последовательность мышления, усидчивость, умение анализировать шахматные и жизненные ситуации, а также укрепят характер.

Вам следует помнить, что шахматы – трудный вид спорта, требующий больших усилий ума и воли, а также больших затрат времени. Чтобы научиться хорошо играть, надо изучить теорию дебюта, миттельшпиля и эндшпиля, много играть в соревнованиях. Приступать к изучению теории следует в 10-11 лет, а сначала нужно научиться комбинировать. «Сборник шахматных партий» – шахматный практикум, своего рода школа комбинирования.

Необходимо самостоятельно решить все упражнения без доски или не передвигая фигуры расставленной позиции на доске. За одно занятие рекомендуется решать от 6 до 30 позиций.

Комбинационные примеры расположены по степени возрастания трудности.

Решение всех позиций соответствует уровню третьего разряда.
