Dear World Language students and families,

World Language teachers will continue to post enrichment activities for students to engage with for the next two weeks while classes are suspended. Each teacher has listed below where to find updates and activities. This is also a good opportunity for students to complete missing work. Please continue to read emails coming from World Language teachers, Ms. Schweng and BUSD.

Students who were scheduled to take I.B. or AP exams or who are concerned about other testing issues will be notified as we receive more information. If your student was planning on taking the PLACEMENT EXAM on May 6, we will be providing status updates on that as well.

All essential information regarding how instruction will be provided in upcoming weeks will be communicated via school email.

Wishing everyone good health,

BHS World Language Staff
