 - Message from the District Health & Wellness Committee:

The Chariho Regional School District is looking for parents and guardians who are interested in joining our District Health & Wellness Committee for the 2026–2027 school year.

Our Health & Wellness Committee brings together families, educators, administrators, health professionals, students, and community partners to help strengthen health and wellness across our schools. An important part of this work is ensuring families' voices and perspectives are represented in the conversations and decisions that affect our students.

The committee helps guide the implementation of the District's Health and Wellness Policy and considers a wide range of topics related to student and staff well-being, including mental wellness, physical activity, nutrition, healthy school environments, attendance and engagement, and opportunities to promote wellness throughout our school community.

We are looking for parents and guardians who are passionate about supporting our students' health and well-being and willing to share their perspectives, experiences, and ideas. No particular background or expertise is necessary. We value the perspective that families bring and want our committee to reflect the communities and students we serve.

*The committee will meet from **4:00–5:00 PM** on the following dates:*

- *October 6, 2026*
- *December 1, 2026*
- *March 16, 2027*
- *May 18, 2027*

If you are interested in joining the District Health & Wellness Committee, please let me know. We would be grateful to have additional family voices at the table as we continue working together to promote the health and wellness of students, staff, and our broader school community.

Thank you for considering being part of this important work.
