

Pioneer Community Council Minutes
October 21st, 2024

Meeting began at 4:00 p.m. In attendance: Brittany Sylvester, Corine Keyonne, Claire Bruce, Grant Bushman, Crystallann Gutierrez, and Senator Karen Kwan

Grant moved to open the meeting, Corine seconded the motion.

First thing that we did was approve last month's meeting minutes. Grant moved to approve with no nays. Then, we discussed how to create a procedure for how and when to replace or remove council members that are unable to remain on the council. We discussed the protocol of when to make this happen and what the procedure for voting and adding a new member will look like. This will be voted on and put into our official procedures during next month's meeting.

Next, we watched our October training videos on additional responsibilities of the council and job descriptions.

Then, we reviewed our academic goals and outcomes from the 23/24 school year. These goals were determined from 22/23 data. We decided to adapt the goals out 24/25 plan to reflect the more recent academic data. The data will advise a goal for the cohort of students, not just the goal of the grade level. Grant moved to update the goals for this school year. Corine seconded the motion.

Then, we went over our academic goals and milestones for the year in reading, math, MLL students, and students with disabilities. This helps keep us aligned on if we are on track to meeting our goals. We also talked about technology and digital citizenship plans. Parents and teachers have expressed that this topic is of importance to go over at school. We decided the information will be best received by students if it is delivered by the classroom teachers using a scripted lesson on the importance of internet safety.

Next, we reviewed the LAND Trust funding and discussed how that money is being spent so far this year. The allocated money is being used for part of a full time teacher as well as the paras we have at our school. We all agreed to continue with that plan of the use of these funds.

Last, PTA gave an update. There was expressed a need for a nominating committee so that they can move forward with plans for this year and next.

Grant moved to close the meeting and Crystallann seconded the motion. Meeting was adjourned.
