

How To Determine How Many PLUs You Have

- Log into **My Learning Plan**
- Click on the **My Info** tab.
- Click on **View by Purpose**
- You will notice that activities are broken into groups. Add up all the totals of each group that contains the header **Professional Learning Unit**
- Then subtract any PLUs that are for PLC and faculty meetings. **PLUs are granted on the basis of an activity providing NEW KNOWLEDGE that aligns to your teaching, best practice.** Faculty meetings are not new knowledge. Also, activities like Blood Borne Pathogens are also exempt as they are considered state mandates.
