UPCOMING CONTRACTING OPPORTUNITIES UPDATED OCTOBER 12, 2026

No.	Project Name	Procurement Type	Detailed Project Scope	Specific Services	Anticipated Advertisement Timeframe	Contact Information
1.	Information Technology Support Services	Professional Services	Alameda CTC will seek Information Technology Support Services, including remote network hosting and management of the local area network, upgrade and maintenance of the central servers and workstations, implementation of the agency's virtual desktops and remote disaster recovery plan, phone systems support, and on-call IT support services. The resulting contract will be funded with local funds. As such, the Alameda CTC Local Business Contract Equity Program requirements applicable to such contracts will apply.	• Remote network hosting and management of local area network, upgrade and maintenance of servers and workstations, implementation of virtual desktops and remote disaster recovery plan, phone systems support, and on-call IT support services.	October 2026	E.W. Cheng, Assistant Director of Procurement and Information Technology, echeng@alamedactc.org
2.	On-Call Services for Planning and Engineering	Professional Services	Provide multidisciplinary on-call support services for any and all phases of project delivery for Alameda CTC. This may include preliminary planning studies, scoping/project initiation documents, environmental/PA&ED, design/PS&E, design support during construction, public outreach and engagement, staff support, and other architecture and engineering services. Projects will be selected from the Alameda CTC Countywide Transportation Plan and Transportation Expenditure Plan. For locally funded projects Alameda CTC intends to award master consulting agreements to approximately 3 multidisciplinary consulting teams. Work will be assigned to those teams via Task Order when specific needs arise. Teams seeking a master consulting agreement must meet the LBE/SLBE requirements for locally funded work. This procurement will also be used to establish a bench of prequalified consulting firms or teams. For federally funded projects Alameda CTC will issue mini-RFPs to firms on the prequalified bench, who can form teams as needed and submit proposals to compete for federally compliant contracts. Firms seeking to be on the prequalified bench must meet any DBE requirements in place at the time of submission.	• Pre-Project Initiation Document • Project Initiation Document • Project Study Report • Project Approval and Environmental Document • Plans, Specifications and Estimate • Design Services During Construction	October 27, 2026	Farid Javandel, Director of Project Delivery, fjavandel@alamedactc.org
3.	General and Special Legal Counsel Services	Professional Services	Alameda CTC will seek General Legal Counsel Services for the agency, including representation at Committee and Commission meetings, review of contracts and agreements, as well as other general legal matters. It also includes highly specialized legal services such as counseling on personnel-related matters and providing legal representation on ongoing condemnation and eminent domain proceedings, right-of-way activities and other project-related matters. This contract will be federally funded. As such, federal requirements will apply.	• General and Special Legal Counsel Services	November 2026	Seung Cho, Director of Contract Services and Operations, scho@alamedactc.org

4.	Community Mobility Program and Transportation Demand Management	Professional Services	Alameda CTC is seeking professional services to help transition the agency's on-going transportation demand management (TDM) program into a Community Mobility Program. This will involve communications and marketing for the suite of mobility programs that the agency runs including Safe Routes to School, Student Transit Pass and Accessible Transportation. This contract will also include management of the Guaranteed Ride Home reimbursement program, transit use incentive program, development of marketing materials, employer and public outreach, and program promotion.	• Marketing, Communications and Promotion • TDM Program Implementation, Administration, and Evaluation • Large Employer Engagement and Coordination	January 13, 2027	Krystle Pasco, Senior Program Analyst, kpasco@alamedactc.org
5.	Multimodal Travel & Safety Training	Professional Services	Alameda CTC is launching a comprehensive Travel Training Educational Program to help community members travel safely and confidently as cyclists, pedestrians, transit riders, and overall, multimodal travelers. The program is expected to provide practical guidance and training on navigating local and regional transit systems, learning how to be safe cyclists and pedestrians, accessing available countywide and regional transportation resources, and using sustainable travel options, including rideshare programs, carpooling, vanpooling, and express lanes. This program will build upon the agency's Bike Safety Education program and will cover training for all sustainable modes. This procurement will likely be a 1-step RFQ potentially resulting in multiple contracting opportunities for qualified firms and teams.	• Bike Safety and Repair Classes • Transit Travel Training Classes • Pedestrian Safety Classes • For variety of ages and abilities	January 20, 2027	Aleida Andrino-Chavez, Associate Transportation Planner, aandrino-chavez@alamedactc.org
