

Remarks on Distance Learning

Ugur Dogrusoz

As we're going to be conducting our lectures (mostly/fully) online, here are some remarks that each student should take into account or prepare for so that their experience is more positive:

- Make sure to use **your School account** to join Zoom meetings so your attendance can be tracked
- You will be considered **absent** in a particular lecture if you were not in the meeting for **more than 5 minutes** according to BCC Zoom logs or **your video was not on all the time**¹
- **Mute your microphone** unless you need to speak
- **Raise your hand** to ask a question or respond to a question
- Always have a few blank pages of size A4 and pen(cil) handy

¹ In case you're worried about your privacy, Zoom allows you to set a [virtual background](#).
