Abstract:

Abstract [should be strictly within 300 words and under following subheadings. So that article can be easily followed by readers. If abstract quality not satisfactory, it will be returned for revision]

Purpose of the study: In simple words tell to readers about the aim of this study. No discussion, no story only aim of this study [50-60 words]. **Methodology:** Give name, brand, and type of tools, methods, software, review, and survey that has been used to do this study. No discussion or explanation. [50-60 words]. **Main Findings:** Write only main results in few words. No discussion or explanation. [50-60 words]. **Applications of this study:** where this study can be useful, give name of area, disciplines etc [50-60 words]. **Novelty/Originality of this study:** what is new in this study that may benefit readers and how it is advancing the existing knowledge or creating new knowledge in this subject. [50-60 words]

Keywords: 5 to 6 keywords. **Take 2 or 3 from title. Keywords should be commonly Google searchable terms**

Various headings and subheading of the study can be decided by authors. Here we present one sample style. Your headings may be different depending on nature of study. But Red colour instructions are compulsory.

As per new guidelines in APA 7th edition writing Language should be inclusive and bias-free such as gender, age, disability, racial and ethnic identity, and sexual orientation, as well as being sensitive to labels and describing individuals at the appropriate level of specificity.

INTRODUCTION [500-1000 words]

Provide background of the study in easy words. In this section author should discuss the research problem in very clear words. Also discuss the motivation of the study. **Provide in-text references in APA style for all the facts that are presented here.**

LITERATURE REVIEW [1000-1500 words]

Review of literature can be written as per the requirement of your study i.e. argumentative or systematic or methodological related to the work of previous researchers should be presented. For help see the link - <https://libguides.usc.edu/writingguide/literaturereview>

Minimum 15-20 good and recent works should be presented. This section can be merged with the introduction section as well. Here the author can discuss the research gap that this study is going or willing to cover. Provide in-text citation in APA style as follows:

- An earlier study in which X and Y were compared revealed that ... (Smith, 2017).
- Smith (2017) shows how, in the past, research into X was mainly concerned with ...
- In 2017, research was carried out by Smith that indicated that

<https://libguides.usc.edu/writingguide/qualitative>

For the Systematic Review Literature: Clear questions, method of collecting secondary data, nature of review [qualitative, Overviews of Systematic Reviews (OoRs)] and review tool.

The appropriate hypothesis [Research (H_1) or Null (H_0)] should be framed on the basis of the review of literature if appropriate to your study

RESULTS/FINDINGS [500 to 1000 words]

Presents the data, the facts – what you found, calculated, discovered, observed

The caption for the table should be above the table. Table 1:

Table 1: Legend /name

Intersection	Vehicular Volume (PCU/hr)	Pedestrian Volume	Cycle time range (sec)	Average Vehicular delay (sec)	Average Pedestrian Delay (sec)	Number of traffic signal cycles.
Traffic Characteristics of Study Intersection _ Peak Hour Data						
Pattom Intersection	6,134	844	120	51	20	30
Rambagh Intersection	5,686	1432	115 - 180	83	19	26
Traffic Characteristics of Study Intersection _ Four-hour Data						
Pattom Intersection	20,734	3,200	120	49	18	109
Rambagh Intersection	27,849	4,715	115 - 185	90	18	94

Source:Source of table.

[Different table and figure can't be used parallelly in MS word page, they must be sequential with proper table/figure name and number]

DISCUSSION / ANALYSIS[1000 -1500 words]

Provide logical, and scientific analysis of findings of the study. Present evidence to support your analysis by citing the work of earlier researchers or existing theories. [How your results agree to disagree with previous studies, and why]. 5 to 10 citations can be given to support arguments.

CONCLUSION

Conclusion should be written in very clear words. It should explain how the objectives of the study are accomplished.

REFERENCES

- 1. Minimum 30 good quality references required with cross ref DOI.**
- 2. Website, newspaper references, should be limited to no more than 5.**
- 3. All references should be in APA 7th edition and present inside the main body of article. Don't put extra references which are not cited.**
- 4. All references should be cited inside the article at proper place in APA 7th style.**
