ABOUT THE FESTIVAL

AI FilmFest Serbia is the first festival in Serbia dedicated to films generated using artificial intelligence. This unique event merges art, technology, and interaction, opening doors to the future of cinema.

Festival Goal:

To provide a platform for exploring new cinematic forms enabled by AI technology and to encourage innovation in the film industry.

Who Can Participate?

Filmmakers, tech innovators, students, academics, and anyone exploring AI in creative processes.

Why Participate?

The festival offers an opportunity to present your work to a wider audience, connect with industry leaders, and win valuable awards.

FESTIVAL PROGRAM

- ♦ **Competition Section** – Short original works generated with AI
- ♦ **Showcase Section** – Selected AI films from renowned archives such as Zero1 Cine and CIAIFF

- ♦ **Panel Discussion** – Featuring local and international experts
 - ♦ **Workshops & Masterclasses** – Practical, hands-on sessions
 - ♦ **Networking Sessions** – Connecting film professionals, AI researchers, and students
-

EXHIBITORS

📌 **499 submitted AI films** from around the world reflect the growing interest in the intersection of AI and cinema. Selected works will be screened during the festival.

🧠 **Diversity of Genres and Themes** – Authors have experimented with sci-fi, animation, documentaries, and experimental formats, creating unique visual and narrative expressions through AI technology.

🏆 **The Jury Evaluates Films Based on:**

- ✓ Creativity and originality
 - ✓ Technical innovation and use of AI
 - ✓ Quality of screenplay, editing, and visual effects
 - ✓ Artistic and emotional impact
-
