

SAT Exam Prep Course Syllabus

Date of SAT Exam: April 16th, 2014

Course format: Students go to the [SAT Official Online Course](#) to complete self-guided study modules and meet weekly to review what they have studied with teacher guidance. The course is structured in a 4.5 week format.

Course Materials: There are several lessons, quizzes, and other materials on the SAT site, including:

- SAT Pretest
- 3 lessons describing the SAT and how to do well on the exam
- Lessons and quizzes on the 3 sections
- Practice quizzes and tests

Exam Prep Course Calendar:

The Calendar below breaks the SAT Prep Course down into daily assignments that will take from 5-25 minutes to complete. Students work through these daily assignments individually and meet with instructors weekly during the Unit Review Classes. Please note that the live classes are marked in blue and typically occur each Friday. Unless otherwise noted, classes will occur at 1 pm MT. To get into a live class, click this link: [Trehal's Live Office/Classroom](#)
