Pillowfort Community Catalog

Introduction

Intro

Welcome to the Pillowfort Community Catalog, a google doc owned and managed by the admins at pillowfort.social/community/CommunityAds!
This doc serves as a supplement to the native Pillowfort community browser; as the beta version of the browser is very bare-bones, this doc attempts to make it easier to find and browse communities by topic. Since the catalog is currently managed entirely manually, it is not comprehensive and relies on a combination of admins' comm searching and user submissions.

As of October 22, 2018, this doc no longer contains the majority of the catalog. Due to the huge size the catalog, it was split into four separate doc files, one for each major category. To view each doc, scroll down to the Table of Contents and click the links there. You can also see all the docs at once by going to the Google Drive folder.

These docs all have outlines to make navigating easier. If you're on desktop and the outline isn't open on the left, please click View > Show document outline. Alternately, if the outline can't be accessed, you can use the Table of Contents below to jump to a category.

All entries in the catalog should have one or more topic tags attached; you can use a search function (such as Ctrl+F or Cmd+F) to search for a specific topic.

The Recent Changes entry at the end of the doc lists the contents of the last three updates. To view all the updates, please visit the Pillowfort community or check out the doc update tag.

If the doc is unavailable, this means it's currently being updated! It'll go back up in a bit.

To submit a community to the catalog, please leave a comment here:
https://www.pillowfort.social/community/CommunityAds/discussion/410238
To request a change or a removal to an entry, please leave a comment here:
https://www.pillowfort.social/community/CommunityAds/discussion/62555
For other questions, comments, or suggestions related to the listing or this doc, please leave a comment on the Google Doc announcement post or the Suggestion Box, or send a message to Arcelian, one of the CommunityAds mods and the creator of this document.
