

Christian Iradukunda Byiringiro

FULL STACK WEB DEVELOPER

[Email](#) | [Github](#) | [LinkedIn](#) | [Wellfound](#) | [Portfolio](#)

SUMMARY

Full-stack Developer with 3 years of experience in designing, developing, and deploying dynamic web applications. Strong technical skills in HTML, CSS, JavaScript, ReactJS, and Ruby on Rails. Familiar with Scrum software development methodology and Git version control. Proven ability to work independently and as part of a team to complete projects on-time and to specifications. Excellent problem-solving and critical-thinking skills, able to analyze requirements and design effective solutions. Seeking a challenging role in a dynamic organization where I can contribute to the development of innovative web applications and expand my technical skills.

SKILLS

Front-End: HTML, CSS, Javascript, React, Redux, Bootstrap, Sass

Back-End: Ruby, Ruby on Rails, PostgreSQL, MySQL, RESTful API

Tools & Methods: Git, GitHub, Heroku, Render, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools, Postman, Figma, Webpack, Chrome Dev Tools, Mozilla Firefox Developer Tools.

Professional: Remote Pair-Programming, Teamwork, Mentoring, Time management, Attention to detail, Adaptability.

EXPERIENCE

MICROVERSE

Remote

Mentor (Volunteer)

February 2022–Present

- Mentored 3 junior web developers which improved my coaching and mentorship skills.
- Sharpened my debugging and problem-solving skills by offering technical reviews.
- Improved my empathy and active listening skills by understanding the perspectives and challenges my mentees faced.

Web Developer

January 2020 – August 2022

- Led a group of 20 students with whom I collaborated in building the school's official website.
- Built a school website that hosted the school information. It improved the school's public image and awareness by 64%.
- Created a social media app that made communication between parents and school officials easy. This reduces the parents' visits to the school by 78%.

HIGHLIGHTED PERSONAL PROJECTS

Remote

Full Stack Web Developer

January 2022 – Present

Mastered intermediate and advanced topics in full-stack development (including Rails, Git, and DS&A challenges) while building multiple full-stack projects both independently and via pair programming.

[StockBay](#) – This is an application that brings users information about the stock prices of various companies.

- Built with: HTML, CSS, Javascript, and React.

[Pokemon](#) – It is a website that holds a list of pokemon characters. Users can interact with it by liking and commenting on their favorites.

- Built with: HTML, CSS, Javascript, and React.

[Safedime](#) – This website allows users to record, track and manage their expenses for better financial fitness.

- Built with: HTML, CSS, and Ruby on Rails.

[Rentomotors](#) – This website allows users to rent vehicles for either personal or professional use for a certain period of time.

- Built with: HTML, CSS, Javascript, React, and Ruby on Rails.

EDUCATION

MICROVERSE

January 2022 – March 2023

Remote Full Stack Web Development Program

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

FREECODECAMP

January 2022 – Present

- Learned Computer Science fundamentals such as algorithms, computational complexity, computer networks, and database management for one year.
- Strengthen my algorithms and data structures skills through numerous coding challenges and projects.
