

**Scribba4President Kick off rally: *The America I see.***

# Scribba4President Kick-Off Rally Atlanta, Georgia, Dixie

**The kick-off Rally for Scribba25's candidacy for the White House began at noon on March 13th. For an hour, several prominent Democrats across Dixie come out to speak in favor of him.**

**The last speaker before the candidate himself speaks is Assembly-Person Politicobaliley.**

*"I have been in the Assembly for several terms now serving you, the citizens of Dixie. I have yet to see someone with the fiery spirit that Scribba25 has. He hit the ground running, being selected, amongst several prominent prospects, for a List seat in the House of Representatives in the middle of a term. He immediately became one with the role, putting out the most legislation than any other member of Congress during that term."*

*"His enthusiasm and love for his home state of Dixie is unmatched. Please allow me to welcome the next President of the United States of America, Scribba25."*

**Scribba25 walks onto the stage and exchanges a handshake hug with Bailey before taking the podium.**

*"It is a silent honor and privilege to be here today. Years ago as a young child, my parents made me watch the campaign of former president Barack Obama. Though I didn't care at first, I was immediately drawn into the political realm. To see someone that looked and acted just like me taking the oath of office and becoming the most powerful man on earth resonated with my soul. If he could do it, so can I."*

*"I watched in amazement again as the Republican party nominated and the American people elected Adith as the first Indian President of the United States."*

*"We have come a long way from giving smallpox infused blankets to native Americans, to the enslavement of African-Americans, to the internment of Asian-Americans during World War II, and Jim Crow laws and segregation. I can even point to recent history where attacks in the name of a simple pigmentation, or lack thereof, in the skin."*

*"Some people will argue me down and say that I shouldn't bring up such historic times and only focus on the future. I'm here to tell you that our past is our present and future. We must learn from our prior mistakes in order to improve and grow into the American I see."*

- *"I see an America where families and individuals have enough money to [cover](#) a 400\$ emergency."*
- *"I see an America that takes care of it's veterans."*
- *"I see an America where the public stock market is primarily owned by the public and not institutions."*
- *"I see an America that doesn't saddle people up with predatory loans just to receive higher education."*
- *"I see an America that doesn't have it's citizens putting off urgent medical care that could cost them their lives because they cannot afford the bill afterwards."*
- *"I see an America that doesn't throw it's food in the trash because it's unprofitable to give it to the homeless and needy."*
- *"I see America performing near the top of the educational charts."*
- *"I see America as a leader and pioneer of human rights."*
- *"I see America being good stewards of our environment."*
- *"I see America having a firm, understanding and reasonable justice system for all."*

- *"I see an America much better than it is today. If you believe in what I see, if you want to see it, then please, vote for me on November 4th."*

*"Thank you for coming. God bless America and God bless our troops!"*
