CULTURE OF THANKSGIVING

BY: MORGAN MCGOWAN

Thanksgiving Day, annual national holiday in the United States and Canada celebrating the harvest and other blessings of the past year. Americans generally believe that their Thanksgiving is modeled on a 1621 harvest feast shared by the English colonists (Pilgrims) of Plymouth and the Wampanoag people. Thanksgiving is a holiday where family and friends gather to share a meal, normally turkey, stuffing and green beans. This celebration goes way back to the pilgrims. A Lot of people celebrate by having people over to eat and watch football. Thanksgiving foods range from culture but traditionally have a turkey, stuffing, mashed potatoes, rolls, cranberry sauce, corn, salad and mac and cheese. Normally the colors associated with thanksgiving are orange, brown and yellow which were the pilgrim colors. Thanksgiving is a time to remember what you're thankful for. We take many things for granted so it's a

great time to reflect.

How it started: Plymouth's Thanksgiving began with a few colonists going out "fowling," possibly for turkeys but more probably for the easier prey of geese and ducks, since they "in one day killed as much as...served the company almost a week." Next, 90 or so Wampanoag made a surprise appearance at the settlement's gate, doubtlessly unnerving the 50 or so colonists. Nevertheless, over the next few days the two groups socialized without incident. The Wampanoag contributed venison to the feast, which included the fowl and probably fish, eels, shellfish, stews, vegetables, and beer. Since Plymouth had few buildings and manufactured goods, most people ate outside while sitting on the ground or on barrels with plates on their laps. The men fired guns, ran races, and drank liquor, struggling to speak in broken English and Wampanoag. This was a rather disorderly affair, but it sealed a treaty between the two groups that lasted until King Philip's War (1675-76), in which hundreds of colonists and thousands of Native Americans lost their lives.

BEST 5 COLLEGES IN THE USA

BY: VANANE SAAKIAN

1. STANFORD UNIVERSITY

This is a private college and enrolls more than 17,000 students. This college is known because it's one of the country's great institutions of higher education.

Fun fact: Stanford's current community of scholars includes 19 Nobel Prize laureates and 4 Pulitzer Prize winners.

2. HARVARD UNIVERSITY

This is a private Ivy League Research University in Cambridge. To add on, this is the oldest college in America, with the highest IQ students and staff. Thus one of the hardest colleges to get to is this one!

Fun Fact: Mark Elliot Zuckerberg who owns Facebook went to Harvard, but dropped out to do his business.

3. WILLIAM & MARY UNIVERSITY

Williams College is a private liberal arts college in Williamstown, Massachusetts. It was made as a men's college in 1793 with reserve from the estate of Ephraim Williams, a settler from the Province of Massachusetts Bay who was killed in the French and Indian War in

4. CALIFORNIA INSTITUTE OF TECHNOLOGY

According to caltech.edu, it states, "The California Institute of Technology is a private research university in Pasadena, California. TOP 3 FALL MOVIES

BY: NICOLE KOLYUZHKO & MICHAEL CONSENTINO

COCO

Coco is a great family movie to watch in the fall. It's a movie about the generation of a big family that hates music, except the one young boy. It's also great to watch on Halloween. Just make sure to have a tissue with you just in case because it might make you cry of how sad it is.. Coco was very popular a couple of years ago. Somewhere in 2017.

It's about a living boy who got stuck in the world of skeletons after touching someone's guitar who pretended to be his great grandfather. When he got stuck he only had until sunrise to find his great grandfather to get back home to his regular life. After he finds out that the person who owned the guitar was just pretending to be his great grandfather. Now he has to find his real great grandfather to escape the world of skeletons.

Scooby Doo

Scooby doo is a great pack of different series and movies. Scooby doo has movies and series that you can watch on netflix. If you haven't watched it, we really recommend it.

It's a series about an investigating company called "Mystery Incorporated". Scooby doo is the dog of the gang. He is also the main character. His best friend, Shaggy, and his other friends, Velma,

TOP 4 THANKSGIVING ACTIVITIES

BY: MADISON CIRELLI

It's finally Thanksgiving! Some people may think it's a boring holiday, but I'll change your mind! In my article I'll be telling you four fun activities you could do this year for Thanksgiving to make it not so boring!

1. Make a handprint turkey!
People may think it childish, but it takes up time and comes out pretty cute! There are two easy ways to make this handprint turkey without using paint and making a mess. 1. Tracing out your hand on red, orange, and yellow paper, cutting it out and layering the pieces of paper together, then you would grab a piece of brown paper and draw the body of the turkey and cut it out, with the layered paper you would glue it to the back of the turkey and have majority of its body, you would then make the turkeys features such as its feet, wattle (red piece under its chin), its beak, its eyes, and for an extra touch you could add wings on the side. Or method number two you would trace your hand on a piece of paper, then color and put designs in the fingers and the body, then you would add its features and boom you have your turkey!
2. Watch the Macy's Thanksgiving parade! This parade is one of my favorite things to watch on Thanksgiving! The floats, the marching bands, and the music are so amazing, cool, and it's crazy to know how long everything took to prepare for this day. The parade is on Thursday, November 24 it starts 9:00 am to 12:00 pm. The parade is live on NBC or streaming on Peacock.
3. Bake Thanksgiving cookies!
Me and my family always bake

Daphne, and Freddy. In the city they live in, many crimes happen. Like something is stolen from a museum or a monster appears. The Mystery Incorporated always solves the problem. It's never a real monster, it's always a custom and a criminal under it.

Coraline

Caroline is a movie I used to love as a kid. It always scared me. Caroline is about a little girl who has felt like her parents didn't care or listen to her as much. Like they ignored her almost. Then Coraline found a little door in a brick wall, after she went in it. She found her same house with the same parents, but they seemed nicer, and more caring. After a while, she found out they weren't her real parents. They weren't real, they had buttons as their eyes, and they wanted Coraline to have the same button eyes like they do.

FALL TRAVEL BASEBALL

BY: CHRISTOPHER PAPANDREA

Warriors for Fall

There are a lot of fun places to go in the fall, but for me, it's stepping onto the baseball field and winning. Baseball is a really fun sport, especially in the fall. South Shore Fall Ball, Warriors Fall ball, and a lot more! My Warriors Team only lost 3 games, and we are in first place. Our team is 10-3. Then Playoffs start soon. It is so fun. Try it out!

4 of the 16 12U Warrior Players are:

the Thanksgiving sugar cookies from Shoprite every year, even though they may not be homemade, but it's always the thought that counts. This box includes 24 cookies, you would make these cookies at 350°F (or 325°F for a nonstick cookie sheet). Then you would keep the cookies in the oven for 10-12 minutes, I recommend letting them cool for 1-3 minutes. These cookies are a 10/10 for sure they're super good, delicious, and festive! I definitely recommend these cookies for sure!

4. Watch the Charlie Brown

Thanksgiving movie! This movie is for sure my favorite Thanksgiving movie! This movie is available to watch on November 23 to November 27, unfortunately it's now only on Apple TV+ and PBS it is not on regular T.V channels. I hope you enjoyed my article and found these activities to cure your boredom on Thanksgiving! Bye Paulo Panthers 🐾

STUDENTS NEED THESE THINGS AT SCHOOL

BY: Christina Timoshkov

We all aspire to have our schools be recognized as the “best school”. Schools need to offer a lot of things in order to increase the kids’ enjoyment for it to happen. I’ll offer a few ideas that I believe should be included in I.S 75 in this article.

Flexible seating is something that, in my opinion, every classroom should have. I am one of the many students that loses focus or drifts off in class. That can be avoided with flexible seats. Teachers might place a few bean bags in their classroom, so that whenever kids start to feel uncomfortable, they can sit on the bean bag chair for a couple of minutes.

Field trips are another activity that is always enjoyable for the students. I believe that more field trips are required to be offered in school. The students will have more excitement as a result of the increased number of field trips we take. Additionally, this will improve the standings of our school.

More breaks would be beneficial for the students. Us students put a lot of effort every year, so offering us breaks is one way to express your appreciation. Breaks allow us to mentally recharge after a long day of work. Many teachers believe that because of our little break, we will forget everything. We only need a week off once in a while and we’ll be good to go.

I know many people would agree with me on this one, but let’s just be honest. The food at school isn’t great. Students therefore need better food at schools. Simply providing students with healthier meals in school would make such a major impact. Schools can continue serving the same meals while improving it. Although I am aware that some schools dislike making any changes to their menus, I assure you that the students will be overjoyed.

These are only a few suggestions that I personally believe should be included in I.S. 75. Obviously, there are still a ton of fantastic ideas that should be added. Like extra recess time, no homework over breaks or on weekends, and phones being allowed at school. Of course, all of these ideas don’t have to be added, but having them all would undoubtedly make our school the greatest.

SONNY’S TV REVIEW

The Owl House (2020-)

BY: DAVID KAHT

Hello! It's me, David, from Review is What I Say. If you don't already know, this section is named after my YouTube channel, which ironically doesn't have any reviews on it. [Click here](#). Happy Thanksgiving everybody. May the turkey gods give you many turkeys. There have been rumors that the comic duo at Rice Ink. are stealing my 3 Bored Shapes idea for their own, and those rumors were real. I confronted them about it, and to make up for it, they formally asked me to be in one of their comics. I said yes. Also, I have decided on a theme for my game reviews this year: games that became really popular, but then died out as quickly as they rose. Today, while not exactly as popular as the others I've covered so far, is a "Smash Clone" that had a lot of potential... had. Keyword had:

Multiversus

We all know Super Smash Bros. One of my first game reviews on the paper was actually about Smash Ultimate. However, with every popular game, there's a copy.

Every Minecraft has a CubeCraft 3D, every Pokémon has a Digimon, and every Smash Bros has a Multiversus. While not a cheap copy like you'd think, it still doesn't live up to the original. First, let's talk about what makes Multiversus so special aside from Smash. First, the main gamemode, instead of 1 v 1, it's most popular as 2 v 2. Team members can assist each other too. Also, in a similar vein to the spirits in Smash Ultimate, there are different perks that a character can use that will assist them in battle. However, the selling point of the game is the fact that all of the characters are from Warner Bros. Studios. This means that you can have a fight with Superman, Bugs Bunny, Finn from Adventure Time, and gosh darn LeBron James at the same time, and nothing would be weird. They even made their own character, Raindog. Weird choice to put your own OC in an official game that so many people will be playing, but oh well. This game is really fun. There are a lot of attack options, and every one of them are impactful. Sure there are the Tasmanian Devil mains that

The Owl House is a comedy horror following King, (he/him) Eda (she/her), and Luz (she/her). The show is about Luz Noceda finding a door to a dimension that's full of magic, & meets Eda The Owl Lady, who mentors her while having to avoid being captured by the emperor's guards for not conforming into one coven.

The show features characters with many different backgrounds & identities, with Luz being Dominican-American & bisexual, who's dating a girl named Amity, Eda who is canonically Bisexual, & Raine who is nonbinary (they/them).

I rate the show a 4/5 because the show has some very well-written & diverse characters, but season 1 was kind of boring, while season 2 & 3 (still airing) have been more plot driven. The show still has amazing writing. But anyway, That's all I have for today folks, I'm Sonny Palombo, signing off!

TOP 10 THANKSGIVING FOODS

BY Matthew Abiel-Garcia

Everyone has their favorite thing on the table, whether it be the mashed potatoes or the mac n' cheese, here are the top 10 foods on an American's Thanksgiving table.

10. Mac And Cheese. A more modern approach to the famous holiday.
9. Green Beans. Green beans are actually not considered beans, but considered a legume, a seed/pod food.
8. Gravy. Gravy is a very nice add-on for your turkey, mashed potatoes and mac and cheese.
7. Sweet potatoes or yams. A very delicious thing to have on the table.
6. Scalloped potatoes. Scalloped potatoes are fried potatoes with spices on top.
5. Ham. Ham is like turkey but made from pork.
4. Bread or bread rolls. One of my favorites, bread rolls, is crunchy bread rolled up.
3. Stuffing. Stuffing is a fan favorite for lots of people.
2. Mashed potatoes. Mashed potatoes are the insides of potatoes and are a good combo with gravy.

spam the same move over and over again, but we don't talk about them. There is one thing about this game, however, that turned me off. Sure, it was fun playing with my friend Brian (he doesn't go to this school) every other day, but I didn't get all the features of the game packed in.

The game is free to play, similarly to Fortnite, but also similarly to Fortnite, quite literally all of the cosmetics are locked behind a paywall. It's not even a "pay once and get everything" deal. It's more like a "pay for the battle pass now, and then pay again in 2 months or less" type of deal. You'd have to sink in hundreds of macaronis in order to get every single unlockable cosmetic. The only thing saving this game from sinking WAY under a 6/10 is the fact that it's only pay to look nice, and NOT pay to win. I think it's the paywall shenanigans that really killed the game as soon as it went public. Either way, the game is still really fun. If you don't mind looking just like everybody else, you should try the game for sure. As for how I play the game, I'm a Bugs main for life because Looney Tunes is the best cartoon ever made.

WHAT ARE CATS?

BY: ANTHONY MUSELLA

Cats are a pet/wild animal that are mostly found in households around the world . Cats are really smart. They are one of the smartest animals in the world . Cats can fly?!? No but they can jump from really high places "Most breeds of cat are notably fond of sitting in high places, or perching. A higher place may serve as a concealed site from which to hunt; domestic cats strike prey by pouncing from a perch such as a tree branch. Another possible explanation is that height gives the cat a better observation point, allowing it to survey its territory. A cat falling from heights of up to 3 meters (9.8 ft) can right itself and land on its paws.

During a fall from a high place, a cat reflexively twists its body and rights itself to land on its feet using its acute sense of balance and flexibility. This reflex is known as the cat righting reflex. A cat always rights itself in the same way during a fall, if it has enough time to do so, which is the case in falls of 90 cm (2 ft 11 in) or more. How cats are able to right themselves when falling has been investigated as the "falling cat problem".

Tails help cats counterbalance when they're walking on fences or shelves. But cats born without tails often do fine because the signals in their spinal cord are fully functional, so they can still walk a thin line. Cats use their claws to scale tree limbs and grip branches, helping them maintain balance.

Cats have tails and Tails make counterbalance that help them balance on fences or shelves.

Cat Claws Cats have retractable and retractable claws.[67] In their normal, relaxed position, the claws are sheathed with the skin and fur around the paw's toe pads. This keeps the claws sharp by preventing wear from contact with the ground and allows for the silent stalking of prey. The claws on the forefeet are typically sharper than those on the hind feet. Cats can voluntarily extend their claws on one or more paws. They may extend their claws in hunting or self-defense,

sit at the table. After we clean up from breakfast we start to cook lunch we are having blogana, spice ham, regular ham, honey turkey, prusito rolled up with mozzarella, warped up, roasted peppers, stuff mushrooms, wings, mozzarella sticks, platters, macaroni with broccoli salad, mushroom salad, orzo pasta salad, olives, pigs in a blanket, it takes a really long time to get ready for lunch but i help her a lot because i told her the other day saying can i help i said and my mom said yes you can but dont drive me nuts and i always drive her nuts lol lol lol i am always excited because of my mom food that she cooks they are so good, but sometimes i have to be on playing duty and play with my nephew named troy he always wants me to play with him but i am always saying to my mom is i want to help you cook and she said to me play with troy we will call you if we need help i and this thing pop up in my head saying she will not call me to see if she doesn't need help i already know in my head. My mom said to me, "Come on guys lunch, some of my family members go on the couch and eat because the game is on and everyone is comfortable going on the couch. When everyone was finished they went back on the couch to rest or take a nap. A few hours later one of my dad's friends came and my mom started cooking dinner. My mom was cooking mash potatoes, corn cranberry sauce, turkey, stuffing, bread with butter, leftover food from lunch. A few minutes later we get the desserts we have to dessert: apple pie, pumpkin pie, rainbow cookies, homemade from scratch carrot cake with homemade cream cheese icing, coffee, leftover donuts from breakfast time, cupcakes,. While we are eating desserts we play games we play blockbuster. A few hours later we let our guest take

climbing, kneading, or for extra traction on soft surfaces. Cats shed the outside layer of their claw sheaths when scratching rough surfaces. Most cats have five claws on their front paws and four on their rear paws. The dewclaw is proximal to the other claws. More proximally is a protrusion which appears to be a sixth "finger". This special feature of the front paws on the inside of the wrists has no function in normal walking but is thought to be an anti skidding device used while jumping. Some cat breeds are prone to having extra digits ("polydactyly"). Polydactylous cats occur along North America's northeast coast and in Great Britain. Cats have claws for many reasons, one of them being to hang on to cloth and to stab prey. Claws are retractable; they mean that the claws go in and out just think of it like a plug going in and out. Cats are also in history "Many cultures have negative superstitions about cats. An example would be the belief that encountering a black cat ("crossing one's path") leads to bad luck, or that cats are witches' familiars used to augment a witch's powers and skills. The killing of cats in Medieval Ypres, Belgium, is commemorated in the innocuous present-day Kattenstoet (cat parade) In mid-16th century France, cats would be burnt alive as a form of entertainment. According to Norman Davies, the assembled people "shrieked with laughter as the animals, howling with pain, were singed, roasted, and finally carbonized".

Turkeys are so interesting. But who wants to know about the food we eat? One may argue, turkeys are very annoying; however, there are some interesting facts about them.

Fact #1

Turkeys almost went extinct—twice. Why would this happen? They are everywhere. These birds are all over Staten Island, so how could they go extinct? Bestlifeonline.com states, "the California turkey went extinct about 10,000 to 12,000 years ago, likely due to climate change or overhunting, or a combination of the two. And when European settlers arrived in America, turkeys again found themselves as targets of prolific hunting." Fact #2

An adult turkey has around 5,000 to 6,000 feathers. Who knew! Turkeys are one of the birds with the most feathers along with Indian Peafowls and Swans with the most feathers. There are Indian Peafowls and Swans up there too. The website Bestlifeonline.com states, "Not only do turkeys have gorgeous feathers, but they also have *a lot* of them. According to the U.S. Fish and Wild Life Service, an adult turkey has anywhere from 5,000 to 6,000 individual feathers on their body." This is significant because it is interesting that turkeys have so many feathers. Feathers keep their body temperature the same. Feathers can also be used for camouflage. This is important because these animals adapted to their world and grew feathers.

Here are the most interesting facts about turkeys according to the web!

Fun facts about turkeys

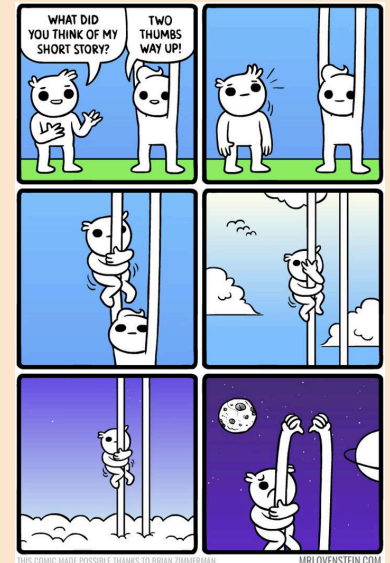

-Female turkeys don't gobble but they purr. Yes they purr like a cat. It's weird to think that such an animal, a bird, usually purrs like a cat. They usually purr when they are calm and content.

-Turkeys were once primarily bred for their feathers, not their meat. Yes their meat wasn't as important to people as it is nowadays for holidays but turkeys beautifully colored plumage.
