

Grizzly

So why do you stab the ship? Do you say anything?

Gillion

Why did the ship moan at us?

Grizzly

You've seen eyeball open, re-stabbed. No! Oh, fuck! Oh, fuck!

Gillion

Chip, it's eyes. Everything is eyes, Chip.

[intro music by Shady Cicada](transcribed by thelittlestjenna)

Grizzly

Multiple of these eyes open up around the ship, and then this mouth of the deck right below your feet opens up as this tongue, the master becomes this wiggling tongue as it goes,

Charlie

What?

Grizzly

And then this is like this loud growl comes out from the ship.

Jay

I knew it was too good to be true.

Jonah

Holy shit.

Bizly

Is technically a skill or ability check?

Condi

No, it's not.

Charlie

No.

Grizzly

No. And you once again here after this chaos erupts,

Goblin

Free gold.

Gillion

We have to save the goblin.

Jonah

Why?

[laughter]

Charlie

I rolled a ten.

Jonah

I got a seven. I got a rock.

Bizly

I got a 13.

Charlie

I don't think we've seen a mimic in this campaign ever.

Condi

No, never.

Grizzly

It's like 60 something episodes and never seen one.

Charlie

I love them, though.

Gillion

How do we kill a boat?

Jonah

How do you kill that which has no legs.

Jay

I think I've got a great plan.

Gillion

Wait a second. We've killed our old boat hundreds of times.

Jonah

Yeah, right? You guys can do it.

Gillion

This is going to be so easy.

Jonah

Come on, black sand.

Charlie

Blank sand.

Grizzly

First up, the ship mimic will take its first turn, and you all watch this anchor plunge out from the water as it erupts the anchor of the ship. And it, almost like a hand, slams down an area where all of you are standing on the It's the same deck. Everyone just make a strength saving throw? Yes.

Jonah

I'm actually not bad at these, alright.

Charlie

Everyone gets a plus four.

Jonah

Twenty-three.

Condi

Twenty-three as well.

Grizzly

Twenty-three is great.

Bizly

Wait, strength saving throw?

Charlie

Dude I did not roll very good.

Condi

You're good on that. You don't have a disadvantage on that.

Bizly

Okay, okay.

Condi

It's not a skill.

Bizly

I get plus what?

Condi

Four.

Bizly

Twenty. Dirty, stinky, nasty.

Jonah

Nice.

Grizzly

Okay.

Charlie

I got a 13, but I'm going to use favored by the gods to get 2d4 and to see if I can bump it up and not get cromshed.

Grizzly

Good idea.

Charlie

Okay, 13 goes up to...nice. Twenty-one.

Grizzly

Jay, what was yours?

Jonah

Twenty-one.

Condi

Mine was 23.

Grizzly

Everybody rolled above 20?

Condi

Yup.

Jonah

Nice.

Grizzly

Okay, so you're all able to not only dodge out of the way of this massive anchor that slams onto the deck, you watch as it slams and then slides back at a rapid pace and plunges back into the water.

Jonah

Oh, fudge.

Charlie

That would have been bad.

Condi

That would have been really bad.

Bizly

Roll out of the way, get back on my feet.

Chip

What the hell did you guys do?

Ichabod

We woke it up.

Jay

Well, nice knowing you guys. I'm going to get back on our ship.

Condi

I start running.

Grizzly

You-

Condi

I'm going to try to...yeah?

Grizzly

Yeah, okay.

Condi

While I'm running...

Grizzly

I'll warn you now. With the anchor, when the ship plunged the anchor out of the water, it knocked it back 30 feet away from your ship.

Condi

Oh, motherfucker.

Jonah

Crap.

Condi

Never mind. I don't want to be in the water. Okay, fuck it. I'm going to cast grease-

Bizly

Yes!

Jonah

Let's go.

Condi

And launch grease everywhere around this fucker.

Jonah

Grease is such a good spell.

Bizly

Grease is the best spell.

Condi

I just have a little pocket full of grease that I launch around. Yeah. And grease up the top of the ship.

Grizzly

Okay.

Bizly

Set it on fire, please.

Charlie

Yes.

Condi

That's the plan.

Charlie

Do you grease where we are or do you grease somewhere else?

Condi

I grease just around the general area.

Grizzly

How much damage?

Condi

It's a lot of grease.

Bizly

Including me, I'm greased.

Grizzly

How much damage was your piercing, Gillion, when you stabbed the deck?

Charlie

Oh, 14.

Condi

Yeah, Chip is greased up.

Gillion

Looking greasy, my G.

[laughter]

Jonah

What a great compliment.

Grizzly

Is that your turn, Jay, or are you finished?

Jonah

You're the real greasy.

Condi

Let me triple check my...

Charlie

It just came out of me. I didn't even mean to say that.

Condi

No, I'm gonna Hunter's Mark. I Hunter's Mark. I Hunter's Mark.

Grizzly

What, the ship?

Condi

The ship.

Grizzly

Okay.

Condi

I Hunter's Mark the ship.

Grizzly

Right on.

Charlie

Straight down.

Grizzly

After your turn, that captain's quarters door, just a deck above, you all hear it go [kadunk] as it swings open, and this ship is moving chaotically as if the ship is the creature. But out from that door is this large treasure chest that opens its mouth and a tongue shoots out and all these gold pieces go flying and they have tongues that shoot out.

Condi

No!

Charlie

Ah!

Jonah

What?

Grizzly

And this sworn of coins.

Condi

You see-

Grizzly

Some with eyes, some with mouths start to sworn around.

Condi

You see Jay's face go from smile at treasure chest to frown as the tongue comes out. Then the gold comes out. She's like,

Jay

Yes.

Jonah

And the tongues come out.

Grizzly

The coins, yeah.

Charlie

I see it and I think of all the gold I threw over and I say,

Gillion

I knew it.

Chip

Oh, no, wait. Am I still dreaming?

Bizly

Chip has a panic attack.

Grizzly

It's very similar to your dream when a bunch of eyes was on your body. But with this, the coin swarm, or the coin, the swarm of coin mimics starts to swarm around Chip.

Charlie

Oh, no.

Grizzly

And they're all going to try and bite you, Chip.

Jonah

Oh, no.

Condi

Oh man.

Chip

Guys, it's just a dream. Don't worry. Just let them kill you.

Grizzly

You said 12? A 12 doesn't hit you, does it?

Chip

It'll restart.

Grizzly

Does a 12 hit?

Bizly

I don't think so. No. What if I let them hit me?

Grizzly

Why would you do that?

Charlie

You're insane.

Bizly

Because I'm dreaming.

Charlie

Oh, that makes sense.

Bizly

And then I wake up. And then I wake up. I let them hurt me, and then I wake up.

Condi

Yeah, okay.

Charlie

My god, Taylor Lautner breakdancing in a shark costume? What are you doing here?

[laughter]

Grizzly

Sixteen piercing damage, Chip.

Bizly

Oh, I shouldn't have done that.

Jonah

Oh, damn.

Grizzly

You are now grappled by these coin swarms.

Chip

Ow! Okay, not a dream.

Jay

He has to learn these lessons on his own, you know.

Grizzly

It's like they're stuck to him now.

Gillion

Every fight, every single fight.

Grizzly

So you guys would see-

Jay

He always thinks it's a dream.

Grizzly

Almost like bees attacking someone. These coins, similarly, are just covering Chip,

Jonah

Not the bees.

Grizzly

Now as he's flailing about. Next up is going to be Chip.

Jonah

What are you going to do?

Grizzly

You're grappled.

Bizly

I remove myself from the bees. I'm greasy, so I get out. I stop, drop, and roll.

Grizzly

I think it's strength check or athletics versus athletics or acrobatics.

Bizly

I'll do athletics at disadvantage because I have...exhaustion. I rolled a three and a three, so we've got a solid five here.

Grizzly

They stick on. They're very adhesive.

Charlie

Yeah.

Grizzly

You continue to be grappled, but that is your action. Do you have a bonus action you want to do?

Bizly

Um, I scream. I'm screaming loud.

Jonah

Cool.

Grizzly

Awesome.

Bizly

Yeah, that's it. That's the end of my turn.

Condi

Good move.

Grizzly

Gillion, you're up next.

Charlie

Okay, cool. Gillion is going to, he just has the sword out again with this black blade.

Grizzly

The ship has a mouth. There's a chest that has a mouth. Coins have mouth. Everything's trying to eat you now.

Charlie

Oh, God.

Gillion

It is my destiny to sink another ship.

Charlie

When I say it is my destiny, you see again that watery sunlight appears over the sword encasing it and giving it this radiant sunlight glow. What is the current weather here? Is it clear or stormy?

Grizzly

It's very windy.

Charlie

It's windy. Okay, cool.

Grizzly

The skies are cloudy, but it's not raining. It's just very windy. It's like an overcast day.

Bizly

I bet it looks so cool, got the wind flowing in the...

Grizzly

Yeah, I mean, the waves are...

Bizly

And I'm just covered in bees.

Charlie

The wind is in my air. It's flying back. Chips just in the background.

Gillion

All right. Well, I guess I'll try everything I know our ship doesn't like.

Charlie

I'm going to point my sword up towards the sky, and you see as the clouds start to gather and swirl above the ship as a huge turquoise bolt of lightning comes striking down.

Jonah

Ah, cool.

Charlie

Yeah, and I call lightning.

Gillion

I didn't know I could do that. I just held it up and hoped something would happen.

Charlie

Can I hit...is it possible to hit multiple at once?

Grizzly

You can't actually hit the grease just because they're a deck above, and Jay didn't go up there to put the grease down or anything like that.

Charlie

Okay.

Grizzly

You can we hit the ship mimic and the chest mimic, yes, at the same time.

Charlie

Okay, cool. I'll do that then as this big bolt of lightning comes down and strikes it.

Grizzly

The ship mimic is a big target. It's hard to miss.

Charlie

Yeah. The ship needs to make a dex save?

Jonah

Yeah, how does that work?

Grizzly

It can do that.

Charlie

To see if it dodges it?

Grizzly

It's a creature. I mean, I will say it's a creature.

Charlie

Yeah, so does the chest.

Grizzly

It's not even technically made of...it's not like a wooden creature or anything either. It is a mimic.

Charlie

Yeah, cool. They both need to make that save.

Grizzly

Will do. The ship mimic fails.

Charlie

Cool.

Grizzly

The chest mimic fails.

Charlie

Okay.

Condi

Cool.

Charlie

They both take 22 lightning damage.

Grizzly

Twenty-two.

Charlie

I rolled good, pretty good.

Grizzly

Very good.

Gillion

Buzz zap.

Grizzly

Buzz zap.

Charlie

I am now going to...I run over to the chest, and I stand in front of it, and I say,

Gillion

I'm going to loot you.

Jonah

God, lustfully.

Grizzly

Okay...

Charlie

And I'm going to position myself there, where the chest is, and end my turn.

Grizzly

As part of it, it's like now missing an eye as part of whatever the top half of the chest is that you unhinge and open up. It's just broken. It has one eye now and the tongue is still flailing about.

Charlie

Now we're both going [inaudible 00:10:14] come here.

Grizzly

Salvia going everywhere. It's like hopping. It's like just...[spitting noises] It's just disgusting dude.

Charlie

I do it back.

Grizzly

The ship mimic takes a legendary action. Ichabod and Jay, make that strength save.

Jonah

Okay. 23.

Grizzly

Excellent.

Charlie

I think only Chip has the bonus right now.

Condi

Okay.

Bizly

Am I a disadvantage because I'm grappled? Or how does this work?

Charlie

No, you don't.

Grizzly

No, you don't have disadvantage. You're good. You would have disadvantage if you were restrained, I think. Yes.

Bizly

Okay I got-

Grizzly

If you were...no, never mind. Sorry. If you were stunned you'd have...

Bizly

I rolled a 16, do I get a plus?

Charlie

Yeah, you get plus four, so twenty.

Bizly

Dirty 20.

Grizzly

Does Jay get plus four?

Charlie

I don't think she's close enough. I don't think she's within ten feet.

Grizzly

I don't even know if you're close enough to Chip.

Condi

Yeah. Didn't you run up to the chest?

Charlie

The chest. I thought the chest was close to the coins and Chip. Or was it not?

Grizzly

The coins moved.

Bizly

The coins flew. Yeah.

Bizly

Oh, oops okay.

Bizly

Then 16.

Grizzly

Chip got a 16.

Charlie

Sorry, guys.

Condi

Fourteen.

Grizzly

Chip, you pass. Jay, you fail. You get pulled with the anchor with this legendary action over through the railing and into the water.

Jonah

Oh, shit.

Condi

I don't even think I get a chance to say anything. Yeah, it just grabs me.

Jay

[screams]

Grizzly

Gillion, does a 23 hit your armor class as the chest mimic takes its turn and goes for a bite?

Charlie

Twenty-three totally does, yes.

Grizzly

It does? Okay.

Charlie

He's going to loot me instead.

Jonah

All right. What's the damage? Chest mimic.

Grizzly

Okay.

Charlie

Yeah.

Grizzly

You take 12 points of piercing damage.

Charlie

You sound like you're going to say and...yup.

Grizzly

[laughs] And you are...oh, make a dex save.

Charlie

Ten?

Condi

That's already, yeah.

Grizzly

It eats you. [laughs]

Charlie

What??

[laughter]

Charlie

Dude, I was looking at Shield, and I was like, No, it's a mimic. What's the worst thing that could happen?

Grizzly

So-

Charlie

It eats me??

Grizzly

You get swallowed whole at the same time as this mimic opens its mouth wide as the fucking maw spans and just...go over your entire body.

Charlie

I look Ichabod dead in the eyes and say,

Gillion

Vore.

[laughter]

Ichabod

What?

Grizzly

At this moment, you are blinded and restrained.

Jonah

Shit.

Charlie

Oh, fuck, dude. What the hell? Jesus Christ. Okay.

Grizzly

Ichabod, it's your turn.

Jonah

Okay. Gillion.

Charlie

Gillion is no more.

Grizzly

You watch Jay get taken off the ship.

Charlie

Gillion has been added to the loot table forever.

Grizzly

Chip is swarmed by a bunch of coins, and Gillion just got consumed by the fucking loot crate.

Condi

This is your average combat for us.

Jonah

I draw my gun blade from my back, and I look very-

Grizzly

Save them.

Jonah

Very concerned at the mimic that's I just ate my new friend. I spin the barrels, and I point my sword at the mimic, and I scream,

Ichabod

Gillion!

Jonah

And you hear this large whirl from the gun begin to get bigger, and it starts to step up in intensity every few seconds as it starts to shake in Ichabod's hand. I'm going to cast Explosive Shot, expending four charges. That is 4d10. damage, and they don't make a save. It's just an attack.

Grizzly

Okay, so you have to hit.

Jonah

Yes, I have to hit. Let's see. Here we go. I have an additional plus two to this plus six. It's 19.

Grizzly

Oh, 19 hits.

Jonah

Okay, cool. Twenty-three fire damage.

[all the other players] Ooo!

Jonah

In addition to, they also take 1d8 plus the four. So that is 12. So 35 damage in total.

Bizly

That is so cool and I'm just bees.

Jonah

So 23 fire damage and 12 slashing damage.

Grizzly

Thirty-five what you needed. How do you want to do this to the chest mimic?

Jonah

Oh, shit. Okay. I just want to obliterate it. Like it's fleshy wood bits explode from behind of Gillion as he just falls to the floor.

Charlie

You shouldn't eat black sand.

Grizzly

As the chest mimic gets eviscerated, you get regurgitated in the same instance, all slimey.

Charlie

It's so not graceful. It's so not graceful.

Grizzly

Yeah, it's gross. All covered in this acidic saliva, digesting saliva or whatever. But you are back out. The chest mimic explodes and is out of the initiative order. Ichabod, what do you want to do with the rest of your turn?

Gillion

My mucus membrane is stronger.

Jonah

I will, I think that's it. I could engage in two weapon fighting, but I feel like Ichabod is a little bit disheveled by everything that suddenly happened in the last six seconds.

Grizzly

You also have a second attack as well.

Jonah

Okay.

Charlie

There's only one? Dude.

Jonah

Yeah. I'm going to use my second attack. Where are these gold pieces flying around?

Grizzly

They're covering Chip.

Bizly

They're all over me, man.

Grizzly

They're a swarm.

Bizly

They're everywhere.

Grizzly

They're covering him.

Jonah

Okay.

Grizzly

So hitting them will definitely probably hit Chip as well.

Jonah

Alright, well how many of them are there? Is it just one unit?

Grizzly

It's a swarm. It's a medium-sized swarm of these tiny monsters so...

Jonah

Okay so if that's the case-

Grizzly

Maybe 20 to 30 is hard to say, but it's definitely a lot.

Jonah

If that's the case, I go up to where Chip is after I procure Gillion on the ship's deck, and then I run up as everything else is just exploding around me. I lower my gun blade once more, and I spin the cylinders again, and I cast, "cast" spread shot using another four charges, and that's my second attack.

Grizzly

Okay, got you.

Jonah

Two, three, four.

Bizly

Can I see things happening around me, by the way?

Grizzly

You can, yeah. You just have to make a dex save, Chip.

Jonah

Yeah, dex save. It's fairly low DC, but still.

Bizly

As you walk up to Chip surrounded by these coins, he's just screaming,

Chip

Ahhh! Oh hey Ichabod. Ahhhh! What are you doing? Ahhh!

Bizly

Yeah, I got a...

Jonah

Yeah, what did you get? What's your save?

Bizly

Thirteen.

Jonah

Thirteen?

Grizzly

Okay, so he'll fail, but the coin mimics will also fail.

Jonah

Okay, cool. That's 16 piercing damage.

Bizly

I take that?

Jonah

Yes.

Grizzly

Yes, unfortunately.

Bizly

Wow.

Grizzly

Just because they are all over you. This is an area of effect.

Jonah

Yeah, it's a big cone. If it's a cone, does it hit the ship mimic, too?

Bizly

Woah.

Grizzly

I can roll for it.

Charlie

Oh, that's so true.

Grizzly

It rolls a natural 20. Unfortunately, it doesn't. I think it takes half damage.

Jonah

Yeah, it takes half. It takes half. So it'll take seven.

Grizzly

It'll take half.

Jonah

Whatever.

Bizly

Charlie's over the moon because someone else has acknowledged the rules.

Charlie

This is a big day.

Grizzly

All right, so Chip, you take that damage. The coin mimics take your damage. You watch as some of them fall off of Chip.

Jonah

Okay.

Bizly

Am I still grappled?

Grizzly

Yeah, you're still grappled by some of them, yes.

Bizly

Fuck it.

Grizzly

But at least a third of them fall off.

Jonah

Okay, cool. And that is my turn. I don't have any other...my bonus action is second wind, but I haven't taken any damage.

Grizzly

Okay. Top of the round, Jay. You are being...no, top of the round, the mimic ship.

Condi

The Mimic, yeah, let's not forget the mimic ship.

Grizzly

All right. So, Ichabod, you're on the main deck. Chip, you're on the main deck. I'll say both of you make a strength saving throw. Okay.

Jonah

I'm good at these. I said rolling at 11.

Bizly

I'm not. I said rolling at 11.

Jonah

God.

Bizly

We'll go down together.

Jonah

Uh oh.

Charlie

My boys.

Bizly

We'll go down together.

Grizzly

This large mouth that has opened up at the main deck of the ship almost exhales the air and the surrounding area around it. Even some of the water from below the ship starts to be sucked into its vortex of a mouth, and both of you get pulled in of this creature's mouth.

Charlie

What the fuck?

Grizzly

And it's going to take a...it's going to try and bite you both. Okay, so that's a 19 plus. It definitely hits Ichabod. It definitely hits Chip. Okay. Okay. I apologize. You both take 15 points of piercing damage plus eight points of acid damage.

Jonah

Okay.

Charlie

Oh, my God.

Jonah

All right.

Bizly

You don't need to do this.

Jonah

I'm going to use my reaction on the acid damage and use absorb elements. The acid damage, let's see, captures some of the incoming energy. You have resistance. It's resistant, so I take half.

Grizzly

Okay, so you take four points of acid damage.

Charlie

I love this.

Bizly

I still take eight?

Grizzly

Both of you are swallowed the same way Gillion was.

Jonah

Cool.

Bizly

So I'm grappled and swallowed?

Grizzly

I guess it swallows the coin mimics along with you, yes.

Bizly

Worst day ever.

Grizzly

Are you all good, Jonah, with your absorb elements?

Jonah

Yeah, I have that in my...it got sucked into the cylinders of my sword, and I'll be able to use that on my next attack.

Grizzly

So fucking cool. Yeah. You guys are both blinded and restrained, Gillion, you would see them [slurping sound] get sucked into the creature's mouth.

Charlie

No!

Grizzly

But you would also know that Jay got knocked off, dragged underneath into the ocean.

Charlie

Yeah she did. Oh my god.

Jonah

We need you, Gillion, and you can breathe water.

Grizzly

Next up. Jay.

Jay

[bubble sounds]

Grizzly

The anchor is no longer dragging you, but you were dragged a good distance underneath the ocean here.

Condi

Uh huh. Uh huh. Okay, I guess I just swim up or try my best.

Grizzly

Is your swimming half your walking?

Condi

I assume, yeah.

Charlie

I think so.

Grizzly

You're still under the water, unfortunately.

Charlie

Oh, fuck.

Grizzly

You can see the ship, though. You can see it.

Condi

There's got to be something I can do here.

Grizzly

There's got to be. Physics-wise, you can't shoot a gun underneath the water.

Condi

I know, it would waterlock.

Grizzly

You could shoot an arrow, maybe at a disadvantage, I'd say.

Condi

Arrow, I don't think would work all that well either, to be fair.

Grizzly

I mean, it's D&D if you have some sort of...

Bizly

Hey, bro, he's giving it to you, take it.

Condi

Hey, I'll take it. You know, fuck it. I'll shoot an arrow.

Grizzly

You never know. I mean, it's that disadvantage. Maybe it'll hit, maybe it won't.

Condi

No.

Bizly

We're fighting a sentient ship. Just run with it, bro.

Condi

So I don't make it all the way up, right?

Grizzly

No, unfortunately not.

Condi

I'll just dash. I'll dash. Use my action to dash to get up to the surface. I think that's all I can really do for this turn because I got dragged.

Grizzly

After you, Jay, the coin mimics gnaw on your skin Chip.

Charlie

Still in there. He's in it.

Charlie

There's layers to this, man. You're being eaten inside of already being eaten.

Grizzly

There's definitely less of them. It doesn't hurt as much. It still hurts, though. So you will take 13 points of piercing damage.

Bizly

Who will?

Grizzly

You will.

Jonah

Yeah.

Grizzly

You good? Are you still up?

Bizly

Yeah.

Grizzly

Take three points of acid damage.

Bizly

Fuck you, and your attitude.

Grizzly

You can just hear the chattering on your skin. [nomnomnom] It's so gross.

Jonah

Like so many dental drills.

Bizly

Oh, no. That makes it so much worse, man. Why did you say that? What did you say that?

Grizzly

Ew, that's their turn. Next up, Chip. You are restrained, you're blinded, you're grappled.

Charlie

Things are looking good.

Bizly

Okay, so what does this look like for me? How would I perceive this? I just see things around me.

Charlie

Black.

Grizzly

It's dark. It hurts. It's dark. It hurts. It feels like a nightmare, bro.

Bizly

Would I know that Ichabod is here with me, at least, and be able to speak to him?

Grizzly

Yeah, you'd know that.

Bizly

Okay. As I'm just being fucked up on all fronts, I just shout out,

Chip

Hey, Ichabod, are you in here?

Ichabod

[water blubbering noises]

Chip

Yeah, I'm running out of ideas. You got anything?

Ichabod

I think I got one.

Chip

What are you thinking?

Ichabod

I'll do it on my turn.

Chip

Yeah, but maybe I can wait till your turn to do something, and then we could do a thing.

Ichabod

Uh...

Bizly

I'm going to hold my action.

Grizzly

All right, right on. So, Chip, you hold your action for whenever Ichabod attacks, is that what you're saying?

Bizly

Just for his turn, for that.

Grizzly

You have to do it whenever something actionable happens in the session, in the actual game. So if you hear Ichabod attack, you take your turn.

Bizly

Okay.

Grizzly

Or you take your action.

Bizly

We can talk in this, right? We can speak to each other?

Grizzly

Yeah.

Bizly

Okay.

Grizzly

It's still your turn.

Chip

Hey, do you have any more of that sand?

Ichabod

That's a great idea.

Chip

It's a terrible one, but let's do it anyway.

Ichabod

Got it.

Jonah

All right, so now we're just going to...I'm going to set us up a bomb.

Bizly

You're going to blow up the cavity we're in.

Grizzly

You're gonna blow up the stomach...okay got it.

Bizly

I want to try and hold my action for when he lets lose this sand.

Jonah

I can cast absorb elements again.

Grizzly

Absolutely. Okay, so with that, you hold your action for whenever Ichabod lays out black sand?

Bizly

Sure.

Grizzly

Or gives you the signal? Gillion it's your turn.

Bizly

Until he gives me the signal.

Charlie

That's so fucking funny. I was going to try and get you guys out of there, but it sounds like you were having a blast.

Grizzly

You wouldn't know. Gillion wouldn't know.

Bizly

Yeah, a blast, definitely.

Charlie

I am going to quicken spell. You see this like rush of arcane energy over me, and I lean down and I put one hand on the ship, and I'm going to cast Command.

Jonah

Okay.

Grizzly

Okay.

Charlie

Which works on a creature. I'm going to say to it,

Gillion

Sail.

Jonah

Sail.

Grizzly

[to the tune of Sail by AWOLNATION] Dah, dah, dah, bah, bah,bah bah. Twelve so I'm pretty sure it fails.

Charlie

It fails. It wants to go. It wants to sail.

Grizzly

It starts moving away from your ship.

Charlie

Excellent. Okay, cool. Can I grab...can I crawl down and grab Jay at all? Can I get to her?

Grizzly

You can throw out something for her to grab.

Charlie

Okay, yeah. Can I use an object interaction? I've got rope in my bag. Can I just throw it out?

Grizzly

Go for it.

Charlie

Down. Sweet. Okay, sick. I'm going to throw that down, down the ship, say,

Gillion

Grab on. We're going to go fast.

Grizzly

The ship starts moving, yeah.

Condi

Yeah, I grab on, and I guess I'm going to start fucking water skiing behind this motherfucker.

Jonah

That's awesome.

Charlie

I am going to then just go back over to the mast and pull out my sword and look up with the goblin and say,

Gillion

I'm coming for you.

Charlie

I'm going to take two attacks on the mast.

Goblin

Free gold!

Charlie

Okay, so the first one-

Grizzly

It's getting more and more distressed.

Charlie

Yeah. 21 to hit and a 22 to hit. Did those hit?

Grizzly

Both hit the ship mimic, yes.

Charlie

Sweet and I'm absolutely going to smite.

Jonah

Oh, hell, yeah.

Charlie

Fuck this thing. I'm going to do a third and a second level. I really want to bring it down to me. Okay, so that's going to be 12 plus 12 is 24. It takes 56 damage.

Grizzly

Jesus.

Jonah

Holy crap.

Charlie

As I bum, bum, bum, bum.

Jonah

The power of Christ compels you.

Grizzly

Right on, right on, right on.

Charlie

Give me the goblin.

Grizzly

Yeah, you...what was the goal here?

Charlie

I want to cut down the mast so I can get to the goblin. I want to get him.

Grizzly

Okay. You don't sever the mast in half with this strike, but you do a quite a bit of damage as the creature, the mimic lets out this deafening screech when you hit it.

Charlie

Jesus Christ.

Grizzly

It's disgusting. It's just so gross, anyways.

Charlie

Yeah, it's nasty.

Gillion

You're a nasty boy, aren't you?

Bizly

Dude.

Charlie

I'm going to end my turn there now.

Grizzly

All right. Next up, Ichabod

Jonah

Okay. I would like to use I'm going to use my bonus action to attempt, while I'm restrained, to attempt to remove the stopper on my horn of black sand.

Grizzly

Yeah, you can do that. You don't need a bonus action to do that.

Jonah

Okay, cool. As I'm thrashing about, the sand is just going everywhere. I'm going to use my action to cast firebolt in a general direction because I'm blind.

Charlie

Actual insanity.

Grizzly

Okay. Roll at disadvantage.

Jonah

Okay.

Bizly

I was just going to light a match, man.

Jonah

Here we go. Ten.

Grizzly

[whistles] Ten. So, I'm trying to figure out how to explain how it misses inside.

Jonah

Like there's a cloud of black sand. How did you miss? It's a foot in front of you.

Grizzly

I know. It definitely doesn't hit the ship mimic. I'll say you can hit the black sand, which causes that reaction.

Jonah

Okay, cool. I guess that would take care of his little gold mimics, right? Maybe?

Bizly

It would probably take care of me, though.

Grizzly

I'll just say, Chip, it's a fire thing. You can just roll a dex save.

Charlie

Are they directly below me?

Bizly

We have to be.

Grizzly

It's not like a cone. It's an explosion. You're really close. I was going to say, Ichabod, you roll a dex as well.

Jonah

Nine.

Charlie

Do they get the plus four? Are they below me?

Grizzly

They are. How far are you? How far are you? What's the range? Ten feet?

Charlie

Ten foot radius. I'm right where the mast is. I'm right in the center.

Grizzly

I don't think so, unfortunately.

Charlie

Oh, man. All right.

Bizly

[holding up his mouse] Audio, listeners, I'm about to roll the die on D&D Beyond.

Jonah

Hopefully, it won't kill you.

Bizly

Audio, listeners, I rolled a five.

Jonah

Oh, boy.

Charlie

Oh god.

Jonah

I will use my reaction to cast second-level absorb elements this round again.

Grizzly

Okay.

Jonah

Just to mitigate the fire damage that I take.

Charlie

Chip, you should do that, too.

Jonah

Or whatever it is.

Bizly

I just stab stuff, bro. I don't do that shit.

Condi

Chip, eat the fire.

Bizly

I can look different sometimes.

Charlie

Chip, scream.

Grizzly

Oh, actually, you know what? Like a bomb is DC 12 to save.

Jonah

Oh, okay.

Grizzly

So I'll say that, Chip, you'll save and take half damage. I don't even know if it'll matter.

Jonah

And I take half damage.

Bizly

It won't matter, bro. I just don't...

Condi

You've been taking a beating.

Bizly

They've done 20 damage on every round for me.

Grizzly

You know what? I'll say because a bomb, even if you save, you don't take half damage. I'll say that this black sand explosion does more damage than a normal explosion from a bomb does. But I'll say because you rolled a 12, you're totally cool.

Bizly

Okay.

Grizzly

So you won't take any damage, only because I'm nice.

Bizly

No way.

Charlie

I dodged the explosion.

Condi

So nice.

Bizly

We are in a small cavity where something exploded and I have gotten away scot-free.

Condi

No, no, no, Chip, you have fucking the dodge thing.

Bizly

Yeah, I have uncanny dodge.

Jonah

Oh, regardless, you would be fine.

Condi

You would have been fine, yeah.

Bizly

I know. It's just the stakes. I like them.

[laughter]

Grizzly

Ichabod, you take 34 points of fire damage.

Jonah

Holy shit. Is that halved?

Grizzly

Did you succeed?

Jonah

I cast absorb element, so that halves the fire damage.

Grizzly

Oh, yeah, that's half. Half that.

Jonah

Okay, cool.

Grizzly

Half that, and that's what you take. So 34. I'm not good math.

Jonah

Seventeen.

Grizzly

You take 17 points.

Jonah

All right, sweet.

Grizzly

And then you absorb the element.

Jonah

Then I absorb it, yeah. Damn, this is going to hurt.

Grizzly

The coin mimics also take 34 points of that damage, and all of them, you feel them detach from your skin as they all-

Jonah

Ah, based.

Grizzly

They're just ash inside the stomach. It's all gone. The coin mimics are gone. All that's left for you guys is the ship.

Jonah

Are we still blinded and restrained?

Bizly

Yup.

Grizzly

Yeah.

Charlie

Oh.

Jonah

Wait, there's no more passability.

Charlie

I really thought that was going to...

Bizly

I thought we were going to be shot out of the cavity like a cannonball.

Grizzly

Hold on. Let me roll. It fails the dex save from the explosion because it's happening inside of its stomach, obviously. It has to make a con save.

Jonah

Okay.

Grizzly

It rolled a natural one.

Jonah

Fuck yeah.

Grizzly

So both of you are regurgitated and undigested, as well as multiple of these like, skeletons from digested past victims to the ship mimic.

Charlie

Oh no, gross.

Grizzly

And different chests as well. The ones that were like wooden are obviously decayed, and anything inside them is ruined. But there's like one stone, not stone, but like metal, small metal casing chest that pops out.

Jonah

Yo, free gold?

Grizzly

But it's, I mean...

Jonah

Free gold?

Charlie

Free gold?

Grizzly

You can't notice it at this point. But that's-

Gillion

Did you guys find the free gold?

Grizzly

Everything that the ship has eaten basically is regurgitated.

Jonah

Okay, cool.

Grizzly

That's the end of your turn Ichabod or do you have more?

Jonah

That is it. I use my...I think I used everything. Well, actually, no. As soon as I'm regurgitated, I will use my bonus action since I didn't need it to uncork the horn to cast second wind on myself. Let me get some HP back. I think it's a d10.

Bizly

We are still restrained, right?

Grizzly

No, when you're regurgitated, no longer.

Jonah

No we got throwed up.

Bizly

We're out. We're good. We're good. Okay.

Grizzly

Everybody's free at this moment. However, we get back to the top of the round for the ship mimics turn.

Charlie

It has to sail. It can't do anything. It has to sail.

Bizly

I didn't actually get to use my action on anything.

Jonah

Oh, that's true. He held his action.

Bizly

Can I do something?

Charlie

Oooh!

Grizzly

Yeah, go take it. Take your action before we do that. Let me open up command. What do you do as you get regurgitated?

Bizly

I want to stab the ship.

Jonah

Drak style like ahhhh?

Bizly

I want to stab the shit out of it. Yup, just dah!

Grizzly

You didn't grab your second sword.

Bizly

Well I-

Grizzly

You never looked for it again.

Bizly

I wouldn't have left the fucking island without my sword. I don't know. I just figured we would get it back.

Charlie

Wait, did you leave it on the island?

Grizzly

Whenever you looked for it during the fight, you failed the check and then never tried it again.

Jonah

Oh, shit.

Charlie

Oh shit.

Bizly

I had a little knife. I had a butter knife.

Jonah

Like a small dagger.

Charlie

Fuck.

Grizzly

Unfortunately, your second sword is not with You do have the butter knife.

Bizly

I have a butter knife. God damn it. Okay, so, Ichabod, do you see me stabbing the ship with a butter knife and a sword.

Jonah

I'm dusting like shrapnel off be like...

Ichabod

All right, you get him, but you show that turd is boss. Come on.

Chip

[mimes stabbing ship]

Bizly

Okay.

Grizzly

Roll to hit. Roll to hit.

Bizly

Roll to hit with my sword is a three plus seven, so ten. Ten to hit with my sword.

Condi

And with the butter knife?

Bizly

And with the butter knife, 22.

[laughter]

Charlie

That is so in character.

Bizly

I start hitting it with the sword, so I chuck it away.

Charlie

Holy shit.

Bizly

Going at it with the butter knife.

Grizzly

So the regular sword doesn't hit for some reason. You're just scratching it, but roll your fucking butter knife damage. Five?

Bizly

Five butter knife damage.

Grizzly

Do you have sneak attack?

Bizly

And I want to add sneak attack damage-

Jonah

Oh, nice.

Bizly

On one of the attack. I do 24 butter knife damage.

Jonah

Damn.

Charlie

Jesus Christ.

Grizzly

At this point, you see that the ship-

Condi

Butter knife damage.

Bizly

You just see Chip screaming in agony,

Chip

Die! Die! No more eyes!

Grizzly

The ship mimic is looking far below half of its peak. It's very damaged. Very, very damaged. But still a little bit of ways to go. So Chip, is that the end of your turn?

Bizly

Yeah.

Grizzly

Okay. Top of the round, ship mimic, sails.

[They hum the song again]

Grizzly

Next up, Jay. Do you use your movement to come back onto the ship or are you just holding on with one hand?

Condi

She has this rope tied, like wrapped around her hand three times, grasping it for her life. She is bear running across the water at this point, I guess.

Grizzly

Okay. What would you like to do on your turn?

Condi

I'm going to take a shot of it. I'm going to pop out my revolver with my free hand and I'm going to take aim and we use the sharpshooter feat to take a minus five off it to hit and go for a plus ten. So 20, dirty.

Grizzly

That hits yeah. Roll damage.

Condi

Oh, boy.

Charlie

Oh, Jesus.

Condi

Here we go. 25 damage plus ten. Thirty-five damage on that hit.

Jonah

Damn.

Charlie

Holy shit.

Grizzly

The bullet pierces through all different layers of wood or it flies through whatever ship mimic is made out of. From the back end to the front of the ship, it goes straight through piercing, sharply.

Condi

She loses her balance a little bit as she fires with a recoil on the gun.

Grizzly

She like stumbles, like, flail to get it. Yeah, that's fun.

Condi

Yeah.

Grizzly

All right. Anything else you'd like to?

Condi

I'm going to take one more shot.

Grizzly

Okay.

Condi

Does a 16 hit?

Grizzly

Yes. It's a ship. It's big.

Condi

That's going to be 18 damage this time.

Grizzly

Okay.

Condi

As she fires off her gun once again towards them. Actually, just for fun, towards where the goblin is.

Charlie

Yeah, fuck the goblin, dude.

Goblin

Free go [gets hit with bullet][screams]. Free gold.

Gillion

Good idea, Jay. Get the goblin.

Grizzly

Whenever you shoot it, that mast starts to tip over and then collide with the other sails. You can see that right now the 'ship', quote-unquote, part of the ship mimic is starting to fall apart.

Jonah

Okay, that's good. That's good.

Jay

I want to kill the goblin, but maybe you could help me out a little bit.

Grizzly

All right, next up. The ship mimic takes a legendary action.

Jonah

Oh, yeah.

Bizly

Uh oh bruh.

Grizzly

It is going to...

Condi

I forgot about these.

Charlie

Bro, you a boat. What are you going to do?

Grizzly

Submerge.

Bizly

Is it in its lair, the water?

Jonah

It's going to what?

Charlie

It's going to what?

Grizzly

It's going under the water.

Charlie

Oh, no. That's bad.

Grizzly

Anyone who decides to hold on or is attached to the ship is going with the ship.

Jonah

Yeah, I hold on.

Grizzly

Okay, you're sticking with the ship?

Bizly

I'm along for the ride, man.

Condi

I'm dragging along behind it, so I guess whatever happens, happens.

Grizzly

So...

Bizly

I might die down there. I should maybe stay up.

Charlie

It says in the pirate code, the captain has to I'm going to go down with the ship. I think we legally need to hold on.

Bizly

God damnit, pirate code. I'll go.

Grizzly

Okay. Next up, Chip.

Bizly

What does this look like? The ship just goes down into the water?

Grizzly

It just sinks, yeah, right into the water. It's still sailing forward, though, but it's submerges into the water.

Bizly

Is it going down, straight down or just a little bit down? Because if it's going down, down, I'm going back up, man.

Grizzly

No, I mean, it almost like nose, tilted downwards, and then just entered the water, like a submarine. I mean, it's definitely submerged. The whole thing.

Jonah

Like Fully?

Grizzly

Submerged under the water. Yeah.

Charlie

Oh, fuck.

Bizly

I just won't be able to breathe. I don't-

Jonah

But are there air pockets inside the ship?

Charlie

Maybe?

Bizly

Wait, that's a good question. Are there air pockets inside the ship?

Grizzly

No.

Jonah

No? Okay.

Grizzly

I don't think so, because all the doors were open like that. I don't even know where there would be one.

Chip

Captain goes down with the ship. [lip trill noise]

Bizly

I stab it again with the butter knife.

Jonah

Also, clearly by playing D&D, all of our characters are at least olympians. We should be okay to breathe.

Charlie

Yeah, right?

Grizzly

You can hold your-

Condi

We're fine.

Grizzly

So basically, when you're-

Charlie

Our one weakness holding our breath for six seconds.

Grizzly

I mean, Gillion doesn't need to hold his breath.

Jonah

That's true.

Grizzly

But you You can hold your breath for a number of minutes equal to plus one, your constitution modifier.

Jonah

Oh, wow. Okay. Yeah, we're good.

Grizzly

So, one plus con.

Jonah

Minutes? Fuck, yeah.

Charlie

Oh, we'll be fine.

Bizly

Four minutes.

Grizzly

If you have negative constitution, you can only hold your breath for 30 seconds.

Jonah

Three minutes. I think we're good.

Grizzly

Yeah.

Bizly

Four minutes.

Grizzly

Yeah, so you guys are good there.

Condi

Three minutes.

Charlie

I set a timer on my iPhone.

Grizzly

That's what it does for this legendary action. Next is Chip.

Bizly

Yeah, so I want to hold on to the side of the ship and try and stab it with the sword. That's a ten to hit with the sword. Not going to work. I'm going to go in with the butter knife, and that is a 17 to hit with the butter knife.

Jonah

The butter knife rules.

Bizly

It's so good, man.

Grizzly

You all get the sense that this ship is trying to escape.

Jonah

Okay.

Charlie

Yeah, fuck it. Fuck this thing.

Jonah

Not on my watch.

Bizly

That's a solid...

Jonah

Solid seven damage.

Bizly

Oh, wow.

Jonah

Seventeen, oh!

Bizly

Twenty-four butter knife damage.

Jonah

You put a little english on that butter knife there.

Bizly

I just don't stop. I'm tiring myself out just jabbing this butter knife into it. A vein pops out of my head. I'm very serious about it.

Grizzly

Pieces of the planks of wood that make up the ship and the hull are just detaching and floating up to the surface as it's descending.

Jonah

Cool.

Grizzly

Is that your turn, Chip, or no?

Bizly

Yeah, you can't see it. I'm underwater, but I'm crying.

Jonah

It's the saltwater.

Grizzly

You can see the sparkle of the tears that float.

Bizly

The sparkles.

Jonah

Ghibli-esque tears flowing from my eyes.

[laughter]

Grizzly

All right, next up, Gillion.

Bizly

As I thrust the butter knife onto the ship.

Charlie

Gillion!

Grizzly

You can still speak underwater.

Charlie

Yeah, it's just me, me. Everyone else is going glub, glub. I am going to cast as a bonus action, Thunderous Smite. You see, as I do it, as my eyes glow as the coral on my head glows with this thunderous power, I reach out one of my hands as well that has these magical gloves on them, and you see as a little bubble of energy floats over to you, Ichabod, and touches your weapon, and it as well is coated in this thunderous force.

Jonah

Ooo, neat.

Charlie

You can now have,

Gillion

It's all in the cogs. It always has been.

Jonah

It's all in the cogs.

Charlie

Okay, and then after I do that, I am going to turn to the ship, and I still have concentration on call lightning.

Jonah

Oh, fuck, yeah.

Charlie

Is there any other ship that's still above the sea, like a mast?

Grizzly

No, there's not.

Bizly

Electrocute the water.

Grizzly

Fuck it.

Grizzly

It's not going to work. It's an ocean.

Condi

It's an ocean, it's way too big.

Charlie

It's what?

Grizzly

I said, I don't think that's going to reach the depths where you're at right now.

Charlie

How deep are we?

Grizzly

At least 30 feet deep.

Condi

I think it would kill Chip.

Bizly

That's okay.

Charlie

So you don't think lightning would reach?

Grizzly

I don't really know how lightning works in water. I don't know how much of an area it covers whenever you electrocute water.

Charlie

Look up science.

Condi

I think it would be relatively-

Grizzly

So I guess if you can prove that it would reach, yes, it would, but...

Charlie

How far does, less than 10 feet-

Condi

Yeah, less than 10 feet.

Jonah

It's like shooting a gun at water. It doesn't go like, it goes like five feet.

Grizzly

It is believed that lethal currents spreads horizontally only 20 feet from the position of strike. So it's surface level where it's really lethal.

Charlie

Okay. In that case, can I swim over and stab the goblin in the head?

[laughter]

Grizzly

Yeah, I guess so.

Gillion

Where's the money, goblin?

Charlie

I'm going to swim over just furiously, breaststroke over, and you see my sword just glowing, refracting in the water as I flip it like Chip's butter knife and just start stabbing the goblin.

Grizzly

Roll to hit.

Charlie

That is going to be a 19 to hit and an 18 to hit.

Grizzly

Both hit. Roll damage.

Charlie

Yes. 34 damage, and the goblin needs to make a strength save, I guess, from Thunderous Smite.

Grizzly

I'm not sure how it works. I can do that, though. Yeah.

Charlie

Me neither. It's a goblin.

Grizzly

Uh, ten?

Charlie

Ten fails. The goblin is pushed ten feet away and knocked prone? Or maybe the whole ship is? I don't know. Up to you.

Grizzly

I'll say, dude, I don't know how to describe it. It can have the prone condition if that's enough for you.

Condi

Is it the goblin or the fucking ship though?

Grizzly

But basically, what happens is you strike the goblin with the first strike, and it cuts through the front of the face and severs it in half as well as the mast. And then you still see the mouth move and go,

Goblin

[distorted] Free gold.

Grizzly

And then this purple tongue shoots out almost like an isopod.

Charlie

Ah!

Condi

It's a goblin mimic.

Grizzly

It starts with-

Charlie

It was all a lie.

Jonah

The whole thing.

Grizzly

It doesn't even have the top head of the mouth, but the bottom row of teeth and this tongue sticks out, and then you strike it again, and it sends it about ten feet back.

Jonah

It's mimics all the way down, boys.

Gillion

It's all mimics.

Charlie

I look around in the ocean to try and figure out if this the sea is a mimic.

Jonah

Any other mimics I should know about?

Charlie

I looked down in my own hands shaking.

Gillion

Am I?

Grizzly

All right.

Charlie

Okay, that is going to end my turn.

Grizzly

That's going to be your turn? Fantastic.

Charlie

Yeah, and Ichabod has a smite.

Jonah

Yes, okay.

Grizzly

Ichabod, you're up next.

Jonah

What's the die on the smite?

Charlie

Die. It's 2d6 extra thunder damage.

Jonah

2d6 extra thunder damage.

Charlie

And they need to make a strength save or get knocked back and prone.

Jonah

All right. I have exactly two charges left, and then my weapon is spent, but I'm going to use those two charges to shoot double shot. I will fire twice on one attack, and then I get a second attack, right? That's three times, technically?

Grizzly

Yes.

Jonah

Okay, cool. All right. The first attack, I'm going to roll right now. That is 13?

Grizzly

Thirteen just hits.

Jonah

Ah, yes. Thank god.

Charlie

It is a boat.

Jonah

I'm going to merge these together. It'll be 2d8 plus four. So nine plus eight is what? Seventeen. Plus the...what's the die again? Sorry. For the-

Charlie

2d6 thunder.

Jonah

2d6 Thunder.

Charlie

Yeah.

Jonah

Nineteen, twenty, twenty-five.

Grizzly

Is that how much damage you've done so far?

Jonah

Yes, that's how much damage I've done so far.

Grizzly

You don't need to keep going.

Jonah

Okay. Then I have another attack.

Grizzly

I mean, it's spent. It's going to die.

Jonah

Okay, hold on. Let me just keep-

Grizzly

So if you want to take it, you can.

Jonah

Thirteen.

Grizzly

Just to hammer at home.

Jonah

That's another d8. Let's see. Okay, so that's like 33 points of damage with some of that being lightning.

Charlie

Big.

Bizly

Say it, say it, say it, say it.

Grizzly

All right, pirates. How do you I don't want to do this together?

Jonah

Oh, my God.

Grizzly

Or Ichabod, if you want to do some, how do you do it?

Jonah

I feel like it's a team effort, and that Gillion gave me that thunderstrike, and I take out...

Grizzly

Yeah, it always is.

Jonah

I take out my gun blade, and I pointed at the mimic like 15 feet away from it underwater. And then you just see these lights flicker in the darkness of the ocean. And a massive crack of

lightning comes from my gun in the same shape and vague size as the the the the black sand projectile that we shot before. But it just pierces right through the ship and it cracks in half.

Charlie

Holy shit.

Gillion

Let us intertwine our cogs.

Charlie

And you see as Gillion slashes his sword through the water in this moonlight crescent comes in and creates an 'x' with Ichabod's blast.

Jonah

Holy shit.

Charlie

Oh, that's so fucking sick. I eat the goblin.

Grizzly

The tongue of the ship mimic just fucking explodes.

Bizly

[laughing] What?

Grizzly

The goblin, combat isn't over. The goblin mimic is a separate mimic.

Charlie

What?

Condi

What??

Charlie

Fuck me, dude.

Jonah

What?

Charlie

Oh, my God.

Grizzly

So the ship mimic as you watch it. It does start to crack and fall apart. The tongue of it explodes. The teeth start to shatter. The whole ship servers in half. You all just absolutely destroy it as it begins to sink as a normal ship.

Gillion

We did it, Ichabod. We won.

Ichabod

We saved the sea.

Grizzly

Its shape starts to take its true form, which is this disgusting monstrous glob of purple flesh.

Jonah

Ew.

Grizzly

That begins to sink.

Condi

Can we just cartoonishly beat the fuck out of this?

Jonah

Yeah. [bsh, bsh,bsh, bsh]

Gillion

So they didn't have gold after all.

Grizzly

After Ichabod's turn next up, the goblin mimic.

Jonah

No.

Charlie

Dude.

Jonah

Not like this.

Charlie

It's a separate fucking-

Jonah

Fuck it up, Gillion.

Charlie

I'm going to eat me.

Grizzly

It does try to eat you.

Condi

My damage-

Charlie

It tries to eat me??

Grizzly

All right. You got high, so you should be good. 18 doesn't hit, right?

Charlie

No.

Grizzly

Okay, so it tries to bite you. It fails.

Charlie

I bite it back.

Grizzly

It tries to bite again.

Charlie

Stop.

Grizzly

Does a 22?

Condi

Shield, shield.

Grizzly

I rolled 18 plus.

Charlie

I know say shield-

Grizzly

Eighteen plus four.

Charlie

But it would be so funny.

Condi

True.

Bizly

This is why we're not good pirates, man.

Charlie

Yeah, 22 hits.

Bizly

Because everything is just like, it would be so funny.

Grizzly

Okay.

Bizly

We're the problem for sure, though.

Charlie

I can't, dude. It'd be so funny.

Bizly

I know it would. I get it. I'm with you.

Charlie

You see it, you see it.

Grizzly

You take 17 points of piercing damage.

Bizly

I agree.

Charlie

How much damage?

Bizly

I wish it wouldn't be funny.

Grizzly

Seventeen points of piercing damage.

Charlie

That's a lot.

Grizzly

And then you take...

Condi

Mmmh.

Charlie

Oh.

Grizzly

Nine points of acid damage.

Charlie

I'd rather not.

Grizzly

And you are not fully swallowed, but half swallowed, so you're just blinded.

Jonah

Great.

Condi

Okay so Gillion's just like...

Charlie

It's just my leg sticking out of this goblin, yeah.

Jonah

I can't see.

Grizzly

It's bottomless stomach.

Charlie

Not again.

Grizzly

All right. Next up, Jay.

Condi

I don't know actually what I can do underwater. Punch it. I don't know. Yeah, okay. I guess we're not moving anymore. So yeah, I'm going to grab the rope that Gillion threw off to me. I'm going to try to tie up this goblin and beat it up.

Grizzly

He's eating, Gillion.

Condi

That's fine.

Grizzly

Underneath the water.

Charlie

Leave me.

Condi

This is totally normal. This happens all the time.

Grizzly

What's the check for tying something up?

Condi

I'm not really-

Grizzly

Survival check?

Condi

Tie up, I guess, as a grapple.

Grizzly

I guess it would...

Condi

Ah, yes.

Grizzly

I guess. I guess it would just roll against your...

Condi

My-

Grizzly

Strength.

Condi

My strength, which is really awesome in a negative one. So and I rolled a natural one.

Charlie

Oh, my God.

Grizzly

It rolled a natural 20.

Charlie

I'm kicking you in the face the whole time.

Grizzly

His muscles bulge and swell as it's eating Gillion.

Gillion

Help me, Jay. Help me Jay. Ah!

Grizzly

And absorbing his power. Yeah, yeah, yeah.

Condi

I accidentally push Gillion a little bit further in.

Charlie

Wait, did you say the goblin is absorbing my power? Because that's the funniest thing.

Grizzly

Because it rolled a natural 20 for strength.

Charlie

The goblin's eyes start to light up with...that's so fucking funny, dude.

Grizzly

All right, so next, Jay, unless you want to try and attack again. But no, you used that. That was your action, so you can't attack.

Condi

That was my action.

Grizzly

Do you have bonus action or anything?

Condi

Uhhh...

Grizzly

You start swimming to the surface, what's going on?

Condi

Yeah, I don't really got a bonus action. I can use magic stone and enchant some stones, but from there, I can't really throw them. I'm just going to have some magic stones in my pocket. Fuck it.

Grizzly

Got you. All right.

Condi

Today's episode was sponsored by Honey. You guys ever shop online? Maybe buy a little thing here or there on Amazon. I do all the time. I'm actually terrible about it. I'm an impulse spender. I suck. Well, you know what saves me from spending too much money? Honey. The free shopping tool that scours the internet for promo codes and applies the best when it finds to your car. It supports over 30,000 stores online, ranging from tech and gaming projects. The popular fashion brands that even food delivery, like Uber Eats. Frick, I order that too much, too. So check it out. All you got to do is go and put something in your car, whatever you want. Let's say you want to buy a new tablet for drawing. Cool. Then you'll see that Honey is scouring the internet trying to find coupon codes to save you money. It's awesome. I've saved tons of money using Honey, and you can, too. If you don't already have Honey, you could just straight up be missing out. It's free and it installs in just a few seconds. And by getting it, you'll be doing yourself a solid and supporting the podcast. So you can get it for free at joinhoney.com/jrwi. That was joinhoney.com/jrwi. Thank you again to Honey for sponsoring this episode, and I hope you guys enjoy the rest of it.

Grizzly

Chip, you're up next.

Bizly

Yeah. How far down does it seem like I am right now?

Grizzly

You're like 30 feet below the surface level.

Bizly

Oh, okay. So it would take me two turns to get up?

Grizzly

Yeah.

Bizly

I got some time. I'm going to beat the shit out of this fucking goblin.

Jonah

Nice.

Charlie

Yes.

Grizzly

Roll at disadvantage underneath the water.

Bizly

Okay. I swim over to it. I'm swimming slow but steady, and I pull out my sword, and I go to hit it at disadvantage. The first roll is a three, so it's not good, but that ends up, it's a ten total on the sword. Doesn't hit, but the 13 with the butter knife.

Grizzly

Yeah, it just hits.

Bizly

[flails excitedly] Oh, my god.

Charlie

Dude, you might have to keep it, to be totally honest with you. You might have to fucking keep it.

Bizly

This is everything I've ever wanted in my entire life. Okay, this tiny little bitch goblin, this little fucking thing takes 24 points of butter knife.

Jonah

Again, that was the third 24 you've had in a row.

Condi

Yeah.

Grizzly

All right, Chip. How do you want to-

Jonah

Hell, yeah. Fuck this thing up with a butter knife.

Grizzly

How do you want to do this, my friend?

Bizly

I want to I want to walk up. I want to swim up to this little thing and try and pull at Gillion, and I can't get him out, so I swim up to the goblin. I grab its stupid little head and look it in the eyes, and the last thing it sees when I take it. [mimes stabbing the goblin] I take this butter knife and I shank the shit out of it. God, I shank it so hard.

Grizzly

Gillion you're free, no dice. Okay, go ahead, don't worry it's over. You don't need a climactic ending for that one. He fucking shanks it with a butter knife.

Charlie

I like the idea that I'm still stuck in it and you just see me drifting down, legs out in the goblin still, just to the bottom.

Grizzly

Do you want to say something, Jonah?

Jonah

I was going to say, are those chest still floating to the bottom at any point? The metal ones?

Grizzly

You can roll a perception check.

Jonah

Yes, I'm actually good at that. For once in my D&D career, I'm good at it.

Charlie

Yes.

Condi

Oh my god.

Jonah

He said with an 11.

Bizly

That's exactly the number you said that with earlier, too.

Grizzly

With an 11, you can see it sinking rapidly. It'll take another check to get to it before you get to them.

Jonah

How heavy is it underwater? God, so much physics, right? So much math.

Grizzly

It's not heavy enough to where you can't swim it back up, if that's what you mean. It's not big enough to be that heavy.

Jonah

I instead cast catapult on it and shoot it up through the water to the surface.

Bizly

Imagine if we were that smart.

Grizzly

Sure, sure. Go for it.

Bizly

We would rule the world or something.

Jonah

I cast a level one catapult on it [whoosh] and just it shoots up to the surface.

Grizzly

How far does catapult send it?

Jonah

120 feet.

Grizzly

Jesus Christ. It'll be in the air.

Jonah

Okay, cool.

Grizzly

When you guys get to the surface.

Charlie

Holy shit.

Grizzly

Unless you guys say otherwise, you all swim back to the surface. Your head breaks the water as you take that deep inhale. You look around, there's some of this, there's planks floating around you as if there's been a ship wreckage. Some crates, some barrels, things that float in the water.

Jay

Is that what happened to your ship? Was it a mimic?

Ichabod

I don't think so. Whatever that thing was, was some otherworldly, but we seem to be taking care of it. [coughs] I hope.

Chip

My bones hurt.

Ichabod

Yeah, my bones hurt, too, son.

Chip

My ligaments.

Jonah

I go grab the chest and hold it steady so it doesn't sink.

Grizzly

Oh, yeah. After a brief pause of silence, like a minute, [kachoo] it just lands in the water.

Ichabod

Oh, there it is.

Grizzly

It's not a huge chest. It's about like a rectangular, almost big enough to hold a dagger. I'm not saying that's what it is. It's just the size of it.

Jonah

Okay, cool. Yeah, I grab it.

Charlie

I come up right as it comes down and immediately get clocked in the head.

Grizzly

You guys also notice that your ship is...maybe he's 90 feet-

Jonah

Oh, shit.

Grizzly

In the distance.

Jonah

All right. I grab the chest and paddle with my legs towards it.

Chip

Hey, Gill, can you swim us there? I don't feel like I can move.

Gillion

Sure I can.

Charlie

All right. While Ichabod is doing that, I'm going to grab Jay in one hand, grab Chip in the other, and just start butterflying with both of them, like waving them around in the air.

[Condi and Bizly together] Glob, glob, glob.

Chip

Gillion stop. Please.

Gillion

Breathe above the water. Breathe when you're above. Worm-like motions.

Jonah

Oh my god.

Bizly

Just drowning on the way.

Grizzly

After a moment, a bit of travel, a bit of swimming, you all make it back to your ship now exhausted from the encounter and just being in water, almost drowning. You're very full, like when you swallow too much water.

Jonah

Oh, okay.

Grizzly

But you make it back to the deck of your ship.

Charlie

That sucks.

Grizzly

As soon as you get back, Ollie screams out,

Ollie

Why'd you leave us?

Chip

Hey Ollie.

Gillion

Free gold.

Ollie

Did you get free gold?

Chip

Free gold.

Jay

Free gold.

Jonah

I mean, we paid with some of our flesh.

Bizly

Crawling towards him.

Chip

We didn't get any gold, actually.

Grizzly

Gryffon-

Gillion

Are you going to swallow me, Ollie?

Chip

Ollie, how many eyes do you have?

Charlie

I stab our boat.

Jonah

Just to be sure.

Grizzly

Easy enough.

Charlie

Can you fucking imagine?

Grizzly

So roll initiative. I'm just kidding.

Jonah

Scared me.

Charlie

The long con.

Jonah

Is this chest locked?

Grizzly

Dude!

[laughter]

Grizzly

Yeah, it appears to be locked.

Jonah

Okay.

Grizzly

Like a simple key.

Jonah

Oh, shit. We must have let the key sink. I'm not good at lock picking. Does anybody...

Gillion

No, me neither.

Chip

I can do that.

Charlie

I'm going to hit it with my sword.

Chip

No, please, my one purpose.

Jonah

[dink]

Charlie

You're so right. All right, I start coming down on it in incredibly slow motion Chip has time.

Ichabod

Did you say something son?

Chip

[hoarse] I can do it.

Bizly

I have four HP. I'm on the verge of death.

Ichabod

Quick, give him an egg.

Charlie

I reach down and I pull out.

Gillion

It's broken! It's spilled!

Chip

How?

Bizly

I crawl towards it very slowly.

Jonah

I hold it in front of you.

Bizly

And it looks sad. I hold it up weakly and I go to open it up.

Grizzly

It's so sad.

Bizly

I have to roll at disadvantage, right? It's sleight of hand.

Grizzly

Yeah, if you have exhaustion.

Charlie

It is your it is your destiny.

Grizzly

So it's...yeah.

Charlie

Get that 1d4.

Bizly

I still got an 18 plus three.

Jonah

That's not terrible.

Bizly

Twenty-one.

Bizly

That's good.

Grizzly

Twenty-one is-

Bizly

It looks really sad.

Jonah

Yeah, it's weak.

Grizzly

Yeah, it's enough to unlock it as you hear that click after rummaging with the thieves tools and it's able to be opened.

Jonah

Oh, nice.

Grizzly

Just the small silver, metal ornate box.

Jonah

I guess we open it up.

Bizly

I'm so weak I can't even do it.

Jonah

We're huddled around it, curiously.

Grizzly

It opens up and inside is what looks to be a vanity mirror. A small handheld vanity mirror. Golden with bejeweled or like ornate decoration around its frame.

Jonah

Does it appear-

Charlie

We should reflect on this.

Jonah

Reflect in this. Does it appear magical?

Grizzly

Do you have detect magic?

Jonah

I do not have detect magic, but I have a plus three arcana. If that means anything.

Grizzly

It feels magical.

Jonah

Okay.

Charlie

I can try to put it in my mouth.

Condi

Let me see that.

Charlie

What?

Condi

I have identify.

Jonah

Oh, all right. That'll work.

Charlie

Well, don't jump to it.

Jay

We could have done this on the stick. Remember the stick that...

Gillion

I dream every night of a stick.

Chip

Really? I dream every night of horrors.

Jay

It's because you gave that stick away.

Chip

It's because you shut the fuck up. I'm dying.

Condi

I cast identify. It takes about a minute. I sit there and I focus on it.

Gillion

Ope just laid another one.

Charlie

I put an egg in his mouth and he gets restored 25 HP.

Bizly

In my mouth? Nice.

Jonah

Nice. Delicious.

Jay

No, but for real, this is a mirror of life-trapping? No big deal.

Chip

A mirror of what?

Ichabod

What does that mean?

Gillion

Of what?

Chip

Does this mirror-

Condi

Okay, I see. Okay, so what I understand is you press this button and you look into it and-

Jonah

Go on.

Charlie

And then what?

Condi

Can I roll?

Charlie

Are we about to watch our crewmate get stuck in a fucking mirror?

Jonah

Oh, shit.

Condi

I rolled the 15.

Bizly

DM, have I seen this mirror?

Grizzly

It's not a button. It's a command word.

Condi

Oh, a command. What's the command word? Did you send it to me?

Grizzly

You said it when you...

Jonah

Baba booeey.

Grizzly

You don't attune to it. You just said it. With Identify, I'll just say that you can choose.

Charlie

You should choose one. That's funny, if you want.

Bizly

Bazinga.

Charlie

Don't.

[laughter]

Charlie

You know the precedent that sets. You know we're going to be the final boss fight. We're going to show them the mirror and say bazinga and that's how it all ends.

Bizly

That's why I said it. That's why I said it. That's why I said it. That's why I said it. That's why I said it. It's got to be bazinga.

Condi

I wanted it to be something innocuous like look.

Jonah

Oh, that's good. Yeah, look.

Condi

It's going to be look.

Charlie

That's fucked up.

Grizzly

Dude, you can do it.

Condi

Look into it and...

Charlie

Okay.

Grizzly

Or perceive.

Jonah

Perceive. That's a good one.

Jonah

Perceive is great.

Charlie

I think look is great cause everyone's going to accidentally say look.

Grizzly

Witness the sins. Yeah, you can do look.

Jonah

Oh, my god.

Charlie

Oh, look. [slurping sound]

Grizzly

So go ahead and roll your charisma saving throw.

Condi

I rolled a 15.

Grizzly

Okay, so nothing happens.

Jay

That's weird. It's supposed to do something. Gillion you try.

Gillion

Oh, maybe you didn't look at it right.

[laughter]

Grizzly

You have to be holding it to use the command word.

Charlie

Oh, yeah. Sorry.

Grizzly

You grab it.

Charlie

I take it from her and say that.

Jay

Gillion, you take a look, man.

Grizzly

Okay.

Charlie

Yeah, let me give it a look.

Grizzly

Roll a charisma save. This is so cool.

Charlie

Twenty-two.

Grizzly

You pass. All right.

Bizly

I grab it and I say,

Chip

Hey, I want to look.

Gillion

No, I don't see anything.

Grizzly

All right, roll, a charisma save.

Bizly

It's going to be me.

Condi

It's going to be you.

Bizly

Nope.

Ichabod

Let me take a look at that.

[laughter]

Jonah

Guys, I have a minus one charisma. Let's do this.

Condi

Yeah!

Jonah

Twelve.

Grizzly

Yes! Yes! Yes! Ichabod. Ichabod, you're getting sucked into the mirror.

Jonah

Fuck yeah!

Condi

Yeah, wooo!

Grizzly

You are trapped and you guys can see.

Charlie

Wooo! We did it, guys. We lost.

Grizzly

In Luigi's mansion fashion, where they're inside the paintings, this is what Ichabod looks like now. His reflection is trapped. He's inside this mirror and can't get out.

Jonah

Can I talk?

Bizly

Can he speak?

Jay

Okay, that was awesome. How do I How do I get him out?

Gillion

Jay how do I get him out of here? He's just looking at me.

Grizzly

So you can actually...you guys can see him, but I don't think he can see you. Wait, no. No, I don't think he can see you.

Charlie

Are you just in hell?

Jonah

It's a pocket dimension?

Grizzly

No, I would say that you can see out of that one circular window, but it's very small.

Ichabod

Guys.

Grizzly

Yeah, you're good.

Condi

Is it like in-

Grizzly

You're trapped in a dimension.

Grizzly

An extra...extra dimensional? Extradimensional. You're in an extradimensional cell.

Gillion

Can you hear me? He's looking at me. I think he can see me.

Jonah

Oh, god. Are we all going to fucking get trapped in this fucking thing? That's why there's nobody on the goddamn ship. They all...

Chip

Wait, what is he looking at?

Charlie

We're just asking for it man.

Jonah

Is there a save to get out or am I just here?

Condi

No.

Grizzly

Unfortunately, when you're trapped, you're trapped.

Condi

How it works is I look in the mirror. Shit.

Jonah

Do you now? You what? You wanna run the one by me again?

Charlie

Roll it, roll it, roll it. Every time from now on, I think any time any of us say, 'look', we have to roll it, that'll be the funniest fucking way to do it.

Condi

I got a 19.

Jonah

God, you guys are so charismatic and charming.

Grizzly

Here's the thing. Jay would know this with identify. It can trap one person at a time.

Charlie

Oh, okay.

Grizzly

Because it's a handheld. One person at a time.

Jonah

It's like a Pokeball.

Grizzly

So even if you make the saves, you won't get sucked in or trapped. You won't switch places. You can hold one person in the cell at a time or creature.

Jay

I think it works like this.

Condi

I stare at it and I say,

Jay

Ichabod, release?

Grizzly

Whenever you say look, I think it was like, look is the command where you set. That's how you activate and deactivate

Bizly

Are you telling me that if we have a bad guy in the mirror and then we say, Hey, look, boom!

Condi

No, no, no. The way it works is you have to say the name of the creature, too. In this case, I say,

Jay

Ichabod, look.

Condi

Does he coming out? Please tell me to call him out.

Charlie

Dude, this is going to be the funniest. This is the most gimmicky shit ever.

Jonah

It's a good tool, though.

Charlie

It is. Oh, it is.

Bizly

Yeah, we're going to use it for reasons.

Charlie

We're going to abuse it, yeah.

Grizzly

Ichabod, you come spilling out.

Ichabod

Woah. Now we know how that works. You should probably put that thing face down somewhere.

Gillion

Yeah, I agree.

Ollie

Let me look, let me look!

Charlie

I take it and look at it in the bathroom.

Ollie

Let me look!

Condi

Uh oh.

Chip

No!

Gillion

What?

Jonah

You keep the child in there.

Grizzly

Natural 20, Ollie is too crazy.

Jonah

You're all so charismatic.

Bizly

I grab it away and go,

Chip

No, Ollie, you can't look.

Condi

God dammit.

Jonah

This is a fucking Abbott and Costello bit.

Bizly

Twenty.

Charlie

All right.

Bizly

Twenty.

Grizzly

You're good. You're good. You're good. You're good.

Jay

Hey, guys, no more perceiving.

Grizzly

Move on.

Gillion

Oh nice.

Jay

We had to use fucking...

Grizzly

So that's awesome.

Jay

Synonyms now.

Grizzly

Is there anything else that you guys would like to do for the rest of this day?

Charlie

I guess I'll just look-

Charlie

Or to pass time. Roll it.

Jonah

Roll it. Keep rolling, rolling, rolling.

Grizzly

I don't even care if you're holding it at this point. Just roll it.

Charlie

Dude, my charisma save is so good. I don't even know if I can.

Grizzly

You'll never get trapped.

Charlie

It's plus twelve.

Grizzly

Yeah, all right. You're good.

Charlie

I'll never know what it's like. I'll just be staring at it in the late night saying, Look at it.

Jonah

Look. Look. Look.

Grizzly

You guys...you guys...

Bizly

Yes, I want to put it somewhere. We're done with it. I wanted to go up to...

Grizzly

It can go in the bag or the briefcase of holding as well.

Bizly

Okay. Yeah, let's put it there.

Charlie

Do you know what we should do? We should commission someone to make a bunch of mirrors exactly like this. Hang them everywhere on the ship-

Jonah

Why?

Charlie

And then switch where the magic one is every day.

Jonah

Oh, my god. It's like Russian roulette, but with a non-offensive trap.

Grizzly

You have to make sea travel less boring.

Bizly

Okay. I did want to go up to Ichabod and just,

Chip

Hey, that was pretty cool.

Ichabod

What?

Chip

Thanks. Well you kind of like, blew up the ship in half. It was cool.

Ichabod

Thanks. It did take a little bit of everything I had, but I needed to help you guys. You're the ones piloting this ship. Your interests are mine.

Chip

No, yeah.

Ichabod

It's not like I like you or anything.

Chip

I just appreciate it.

Ichabod

But you're welcome.

Chip

No. Yeah, we'll make sure you get where you're trying to go.

Ichabod

Thanks. I'll make sure you all get there in one piece.

Gillion

One piece.

Charlie

I don't know why I did that.

[laughter]

Grizzly

All right. Roll a d20, by the way, Ichabod, for your weapon as you expended all the charges.

Jonah

Right.

Grizzly

No, you had one charge left.

Jonah

No, I used both of those. I just didn't mark them off.

Grizzly

No worries, go ahead and roll.

Jonah

Let me run this. Three.

Grizzly

So close. You're good. It doesn't damage.

Jonah

Sweet. Excellent.

Grizzly

Everyone else, is there anything that you needed to do?

Gillion

Well, Ichabod, you know you're always welcome back on the ship after that. If you want to take the oath and become a Riptide Pirate. We're always looking for openings.

Ichabod

There's an oath?

Gillion

Even though we do currently have a homelessness crisis on our own ship.

Jonah

Could I be an ally to The Riptide Pirates?

Gillion

Yeah.

Chip

Yeah.

Jay

Yeah.

Gillion

Please.

Jay

Absolutely. Yeah.

Ichabod

I'd love to. I have a fairly high position back in Horsea. If you all need any help back there, I'm sure I could call in a few favors. If you help me get to where I'm going and I'm able to deliver my item, then I'm sure, without a doubt, I need to repay you somehow. More so than keeping y'all alive.

Gillion

We'll have to go out for squirties after this.

Ichabod

What the hell is that?

Chip

You don't want to do it. Apparently, it means you're married.

Jonah

He holds up his hand, and in a Christian fashion, there is a ring on his finger.

Ichabod

I believe I'm spoken for, but thank you.

Gillion

Gods bless your partnership.

Ichabod

Thank you.

Chip

Okay. Well, if he's going to be an ally, he's got to take the oath.

Chip

Chip where's your ring? Where's your ring, Chip?

Chip

You got to take the oath right now. Gillion, we'll get right back to that.

Ichabod

I mean, sure. If there's some procedure, I need to go with I mean,

Jonah

He gestures broadly at the open ocean.

Ichabod

We got nothing but time.

Chip

Okay, hang on.

Ichabod

Is there a ceremony?

Chip

We got an oath. We got an oath.

Ichabod

Some red carpet or a cup I drink from.

Jay

Yeah it's...

Chip

Okay. It's really simple. All you got to is repeat after me. I, Ichabod.

Ichabod

I, Ichabod.

Chip

Do solemnly swear.

Ichabod

Do solemnly swear.

Chip

To fuck shit up.

Chip

To fuck shit up.

Chip

Yeah. To help those in need.

Ichabod

To help those in need.

Chip

And to be the best goddamn pirate anyone has ever seen.

Ichabod

And to be the best goddamn pirate anyone has ever seen.

Chip

He's a fucking Riptide Pirate.

Gillion

Yeah, welcome to the crew!

Ichabod

All right.

Chip

Now, you got to do a keg stand for ten minutes.

Ichabod

Oh. I can hold my breath for uh, three.

Chip

We'll make it work.

Bizly

I go grab a keg.

Gillion

You just need to survive.

Grizzly

The little half-elven boy, Ollie, the little 12-year-old comes in, he runs between your legs, and he lifts you up off the ground, Ichabod, with some unnatural strength. He goes,

Ollie

Whoo!

Ichabod

Yeah.

Ollie

All right, I'm hungry.

Ichabod

Well, let's go eat. We worked up ourselves quite an appetite, I'd imagine.

Gillion

I have just the thing. Egg time.

Jay

No more special eggs, please.

Chip

No more eggs, man.

Grizzly

The time passes and eventually nightfall comes. On this night, as you guys are hanging and lingering around the ship, you notice this beautiful, almost cinematic display of something none of you have ever seen before, this display of aurora borealis, the dancing waves of colorful lights, lasers of magenta, bright green, and turquoise streaking through the sky, reflecting in the now soothing calm waves of the night. And unless there's anything else you guys want to do, you go to sleep.

Jonah

I guess I go to sleep. It's quite a day.

Condi

Sleep time.

Charlie

I think there's something weirdly homely to Gillion about the aurora borealis, so I think he stays up and just watches it.

Grizzly

Yeah, it's a...you would gather the more north, you're traveling. Because of the unpredictable ability of the Northern Sea, the Viridis Sea, it's definitely a rare sight, but it's beautiful to watch.

Bizly

I'll stay up with Gillion, actually.

Jonah

I'll go find Jay on the ship somewhere.

Condi

I was probably just getting ready for bed.

Jonah

Oh, okay.

Grizzly

I imagine you're trying to replicate the black sand already.

Condi

Or I'll just be up chilling with everybody else. It's what I'll do at this point. I'd enjoy the sites. Why not?

Grizzly

You can find Jay.

Jonah

If you're chilling by the rail, I just come up and post up next to you.

Condi

Yeah, I'd just be leaned up, looking up towards the sky.

Ichabod

You seem to have quite a knack for mechanical things.

Jonah

He gestures lightly to his sword on his back.

Jay

Yeah, you could say that. It's something I really enjoyed doing as a child, just playing seeing what does what with this and that. Dad didn't really like it though.

Ichabod

We out in Horsea are short on engineers. It's one of the reasons we're offering ourselves a bit of peace to the people of Liquidis. I'm sure we could use you in some capacity. If you ever need work, if you ever need friends, you ever need a place to use your mind. I'm sure the people on land would be thrilled to welcome you into their ranks. As a matter of fact,

Jonah

He takes his horn of black sand.

Ichabod

Where I come from, this stuff flows like water and I figured you could use some.

Condi

Jay's eyes light up.

Ichabod

Take it.

Jay

You sure? I thought you had to give this to the...

Ichabod

Oh. No, not this.

Jay

Oh, okay.

Ichabod

The revolver itself is...

Jay

Yeah.

Condi

I grab it.

Ichabod

Sure, yeah.

Jay

Yeah, that's great. I would be absolutely honored to have the chance to be among your people and see how they do things. I mean, that sword, it's incredible.

Ichabod

Black sand technology is dangerous.

Jay

If could learn how it works.

Ichabod

But quite effective in combat, mining operations, seafaring, skyfaring. We got all kinds of opportunities for you on land.

Jay

Well, we see a lot of danger, so I'm sure any little bit will help.

Ichabod

It seems you know how to look after yourself, which is half the battle.

Jay

Yeah, we know how to look after ourselves.

Ichabod

Well, feel free to run some experiments on it and see what you can find out. I'm sure you'll be able to find something that even I had no idea could be done with black sand.

Jay

Absolutely.

Condi

I look in and I smell it. I give a little sniff.

Jay

I've got ideas.

Ichabod

I'm sure.

Gillion

Me too.

Charlie

And I lick it.

[laughter]

Jay

Thank you. It really means a lot.

Ichabod

You're very welcome. It means a lot that you all saved my life. I could have been in a drift for days, weeks, and never been found.

Jay

I mean, to be fair, we wouldn't have killed that big ship without you. I mean, this black sand is incredible.

Ichabod

It is. It's very dangerous. Be careful with it. As many possibilities as there are, there are just as many tribulations that you could find yourself in if it falls into the wrong hands.

Jay

I'll keep that in mind.

Ichabod

You do right, too.

Jonah

I kind of smack her on the back and look out at the aurora borealis.

Ichabod

At this time of day. Borealis is entirely over this ship?

Jay

It's crazy.

Gillion

Hey, guys, I made ham sandwiches.

Ichabod

Oh, delicious. Where did you get the ham?

Jay

Oh, some smoked ham.

Ichabod

Oh, steamed ham.

Jay

Steamed ham.

Gillion

That's what they call them in the undersea.

Ichabod

Delicious. Steamed clams.

Bizly

Is there any point where Gillion is off on his own?

Charlie

Yeah, I think after this conversation happens, he would probably...as people started to go to bed and be quiet and just take it in, I think he would probably start to maybe go off on his own and just watch.

Bizly

Yeah, I want to just walk up and jump over the rail and sit on it and just look over to him.

Chip

Gillion.

Gillion

Chip.

Chip

What's going on?

Gillion

Oh, nothing. It's just we don't have anything like this, but something about the colors, the way it moves, just reminds me of home.

Chip

Yeah, it's pretty. We're headed to that...what was it? Like the Drip Palace? Drip Castle?

Gillion

Liquidus.

Chip

God, how do I even fuck that up?

Charlie

I don't know.

Chip

It's like Drip Castle. That's your people, right?

Gillion

I don't know. The undersea is a vast place full of many people, many different societies, some even fragmented off. But I hope. I hope that there will be someone or something there that makes sense.

Chip

Yeah, no. I mean, other than your sister, you haven't seen a lot of home. I don't know. I just...that'll be cool, right?

Gillion

It will. I think the reason I just drifted away and started watching was because I felt like it was a reminder of what home was. The first in a long time.

Chip

You think they'll be cool with you just showing up? I don't know how the banishment thing works.

Gillion

It doesn't really happen too much, so me neither.

Chip

I guess we'll find out.

Gillion

Yeah, we will. Whatever destiny wills, right?

Chip

Whatever destiny wills.

Gillion

Pretty fucked up that goblin tried to eat me, huh?

Chip

Oh, really fucked up. Yeah, that was messed up.

Gillion

I was fully in there. He was draining my power, too, or something.

Chip

He was smaller than you.

Gillion

It was weird.

Chip

But somehow swallowing you whole.

Gillion

He got all of me in.

Chip

Unhinged the jaw.

Gillion

I don't know how.

Chip

Never seen anything like it.

Chip

By the way, have you tried this?

Chip

Tried what?

Condi

Uh oh.

Charlie

I eat black sand.

Bizly

We eat some black sand and we get sick.

Charlie

We watch her, we look at aurora borealis, and we eat sand together.

Jonah

Wow.

Bizly

We're friends.

Jonah

Before Jay goes to bed, Ichabod has the one more thing, shoulder tap on Jay's shoulder.

Condi

Yeah, she turns around a little confused.

Jay

Yeah, what's up?

Ichabod

I feel like I can trust you with this information, but you cannot tell a soul.

Jonah

Insight check. See if I can actually trust Jay.

Charlie

Jay's great at keeping secrets.

Condi

Wait, what do you mean I'm great at keeping secrets.

Jonah

Seventeen.

Bizly

She's awesome at keeping secrets. No...

Condi

Oh, yeah, that's right. I did have this whole backstab.

Grizzly

No he means it.

Jonah

Okay.

Charlie

Yeah, I'm not joking.

Condi

Yeah, this is real.

Jonah

Okay, cool.

Ichabod

We are seeking allies to...

Jonah

And he looks at the aurora borealis.

Ichabod

Long story short, Horseans want to go to space.

Condi

[laughter]

Jay

Want to go to space?

Ichabod

Up there is a whole nother realm that nobody on this Earth has even touched. Resources, perhaps peoples, creatures, environments, you and I have never even dreamed of. Even your crazy friend who sees eyeballs in that.

Jay

I mean, if I helped with this, would I be...could I bring them to space with me if I went, too?

Ichabod

I'm sure if they prove themselves to the powers it be, just like you prove yourselves to me, fighting a giant mimic ship, I'm sure they'd be able to come along.

Jay

Oh my god.

Ichabod

However, this is of international, intercontinental, intersocietal importance that you keep this secret.

Jay

Yeah, my mouth is sealed, but also space. [points up] Up there?

Ichabod

Miles in the sky. Stars could be ours.

Jay

Oh my god. Yeah, I'm in. I'm in all the way.

Ichabod

We just need the help of people from the Hydropolis. They seem to harness energy through the creation of water flow. Maybe we can pick their minds about this. Maybe you can help. If you see anyone on your ventures that is of like mind to you, and you trust them...

Jay

So am I allowed to tell those people?

Ichabod

And you trust them.

Jay

Okay.

Ichabod

You can tell them.

Jay

Okay. Your secret is safe-

Ichabod

It's not just my secret, Jay.

Jay

And I will. Horsea's secret is safe with me. And I will find the people you need to go to space because that is so fucking awesome.

Ichabod

Well, good on you. All right, I don't know about you, but I think it's time that we retired for the night.

Jay

Yeah.

Ichabod

As pretty as the sky is, I think the inside of my eyelids are going to be plenty prettier.

Grizzly

With that, unless you guys say otherwise.

Condi

I look upstairs and check on Gill and Chip,

Jonah

Who are whacked out of their mind on black sand.

Charlie

Eating sand, fully destroyed.

Bizly

We off the goop.

Charlie

Dude, in no world-

Jay

Can you want to carry these guys in?

Charlie

In no world was Ichabod is part of NASA on my fucking bingo card. That is so cool.

Condi

That's awesome.

Grizzly

Jay, you would just hear them groaning for a moment. By the time you go and check on them, they're probably either passed out from the agonizing intestinal damage.

Charlie

I have lesser restoration that cures poison, so I'm going to cast it as many times as I can so we can eat as much as possible.

Jonah

Oh, my god.

Condi

Oh, my god. What is wrong with you?

Jonah

You're going to be a walking bomb.

Bizly

We get a lot of it down. There's a lot of sand in my gut.

Jay

Ichabod, can you help me bring these guys down?

Ichabod

I can try.

Grizzly

Eventually, you all go to bed.

[laughter]

Grizzly

You're absolutely deranged-

Jonah

After loss of consciousness.

Grizzly

Deranged decision making. The next morning comes. However, Chip, you don't have a nightmare.

Bizly

Yes, yes, yes!

Grizzly

You're able to sleep and get your long rest. And on the next day, you're all woken again by more of Ollie screaming as is very common on the ship. And you hear,

Ollie

Captains. Big fish, big fish.

Jonah

Uh oh.

Charlie

I jump up,

Gillion

You called?

Grizzly

Does everybody get up?

Jonah

Yeah, get up and check out see what's going on.

Condi

Yeah.

Grizzly

All right. Basically, you see this flat, almost colossal stingray just floating with the wave at the surface level right next to the Albatross, and on its upside or it's-

Jonah

Dorsal.

Grizzly

Yeah, dorsal side. You see just a weird googly-eyed face.

Jonah

[laughs] Okay.

Gillion

Hello.

Stingray

Hello.

Jonah

Oh, it talks.

Gillion

It speaks to us. What knowledge do you have to impart to us, you beautiful creature?

Stingray

Rocks.

Ichabod

Rocks? Did it say rocks?

Gillion

Wow. Rocks?

Condi

Wait, I go to the-

Jonah

The bow?

Condi

What is it? The stem? The ship, the front, the bow? The bow, yeah.

Grizzly

You look out and you don't anything immediately.

Condi

Okay.

Jonah

I give him rocks.

Grizzly

You run back.

Jonah

I give him rocks.

Grizzly

You throw out some rocks. I mean, it falls into its mouth. It starts chewing.

Stingray

[chewing sounds]

Chip

I knew it. He wanted rocks.

Jay

I have so many of those in my pocket.

Goblin

Me too.

Charlie

I throw a handful of gold.

[laughter]

Grizzly

How much gold have you thrown out by now?

Charlie

I'm not. Dude, I've had zero gold on my sheet for as long as I can remember. This is fully coming from the fun.

Grizzly

I'm just deducting it from whatever amount you got from Grimm's.

Stingray

Clouds.

Ichabod

I don't know if we can feed them clouds.

Chip

We can't get those. Those are really high up.

Gillion

Too high up.

Chip

More rocks?

Jay

I thought it said clowns.

Charlie

I look up at the clouds. Is it just clouds?

Grizzly

It's just clouds.

Gillion

What do you mean?

Jonah

It's intelligent so we can speak.

Gillion

Boat.

Stingray

Cereal.

Charlie

Huddle up.

Ichabod

Cereal?

Jay

Did it say cereal?

Gillion

What should we hit him back with after that? Cereal is good. Any ideas?

Chip

Uh, chair.

Gillion

Okay, Ichabod give it a shot. Give it a shot.

Ichabod

Chair.

Stingray

Egg.

Ichabod

Egg! We have one of those.

Gillion

[screams]

[laughter]

Jonah

It just fucking vibrates.

Charlie

I'm fucking devolved, dude.

Grizzly

Before we speak, I forgot to mention, this is technically your third morning of travel. Your second day was very uneventful.

Jonah

Okay.

Grizzly

I just skipped over it.

Charlie

I throw an egg in its mouth. I throw an egg in its mouth.

Grizzly

Again, [chewing sounds] it just chews it up. It's very sloshy. Then it says,

Stingray

Danger.

Jay

Danger?

Gillion

Manger?

Chip

No, danger. Are we in danger?

Ichabod

Boat.

Stingray

Boat.

Gillion

Boat.

Chip

Danger Boat.

Gillion

Danger. Oh, we're-are we danger boat?

Ichabod

I hope not.

Chip

I don't think so. That's That's a cool name for a boat, though, or a band.

Gillion

Danger Boat.

Jay

Oh, I like a band.

Chip

Can we rebrand?

Jonah

How big is this stingray?

Jay

Rebrand to Danger Boat?

Grizzly

Huge.

Jonah

Huge, okay.

Grizzly

It's wingspan from tip to tip.

Charlie

Danger boat. I look around for a danger boat.

Bizly

We break out into song and sing a song about danger boat.

Grizzly

15 feet?

Jonah

Wow.

Grizzly

What's the longest wingspan. Yeah, it's very big.

Charlie

That's a...I almost said that's a long bird. That's not a bird.

Grizzly

What do you do as it says danger?

Charlie

I look around to see if there is any danger, if the stingray is in danger, what it means.

Grizzly

Okay. Everybody else?

Jonah

Yeah, I'll do the same. I'll take a different position on the ship and do a perception check.

Grizzly

Yeah, I'll assume everybody either roll. Everybody can roll perception just for fun.

Charlie

Quick, let's take a-

Grizzly

I like everyone roll.

Charlie

Glance around.

Jonah

Yeah, careful.

Condi

Thirteen.

Grizzly

Thirteen?

Bizly

What are you guys looking at?

Charlie

Nine.

Grizzly

Proper perception.

Charlie

Ope, okay. Bye, Chip.

Condi

Looking at the water.

Grizzly

So, Ichabod and Gillion, the direction you choose to look, you don't see anything. But, Chip and Jay, as you look towards the front of the ship once again, you notice something that you didn't notice when you looked the first time.

Condi

Uh oh.

Grizzly

And it seems to be a cliff, like a waterfall, like a long horizon line spanning cliff.

Bizly

We're in the...

Grizzly

In the middle of the ocean.

Charlie

That it. I knew it. They thought it was round. We knew it Ichabod.

Grizzly

Does anybody rush back to the stingray?

Condi

Yes.

Charlie

Yeah.

Bizly

I run over.

Chip

Help.

Grizzly

You run over Chip, you see the stingray has something wooden-

Jay

Waterfall!

Grizzly

In its mouth as it is just chewing.

Jonah

Is it eating our boat?

Gillion

Give, give.

Charlie

Can I jump onto the stingray and see what it has in its mouth?

Chip

Spit it out.

Stingray

[groans]

Jay

Spit, bad.

Chip

Drop it.

Grizzly

As you jump onto it, it starts to sink a little bit, but you're able to grab whatever it was eating. It looks like part of... It's hard to say. It's been a little damaged.

Charlie

Uh oh.

Grizzly

It looks like part of the rudder to the boat. Whatever makes it turn.

Charlie

Our boat?

Bizly

Our boat?

Grizzly

Yeah.

Charlie

Whatever makes it turn?

Ichabod

Drop the anchor.

Charlie

I hold it up and I say,

Gillion

Ha ha, what's this for?

Bizly

I'll try to drop the anchor and try and stop the direct Alphonze to stop the sails.

Condi

The anchor is just going to fucking roll off.

Jonah

Furl the sails and drop the anchor.

Grizzly

The mechanism that you use to drop the anchor, like the spinning wheel that's near the front or the back of the ship where the wheel is, is completely jammed and the current Gillion is unimaginably strong.

Jonah

Shit.

Grizzly

As it is now pulling your boat towards the edge.

Gillion

Guys, we are going over.

Jonah

Can we see what's down? Is there a valley or something down there? Or is it a crevice?

Grizzly

It's impossible to see without before you go over.

Jonah

Shit. All right, hold on, boys.

Bizly

I put my hands up.

Grizzly

Yeah, I'll give you guys a second to prepare for the dip.

Condi

Everyone, hold on to something.

Grizzly

Unless you can think of something else. You put your hands up?

Jonah

I don't know the thing is jammed-

Bizly

We're going down. It's like a roller coaster.

Jonah

I take the rope that I have and tie myself to the mast.

Gillion

The best way to land is with forward momentum, not down.

Charlie

I'm going to pull out my sword, light it up, and I'm going to cast tidal wave behind us.

Jonah

Okay.

Grizzly

Okay.

Charlie

I want to push us further in so we don't go straight down into rocks at the bottom of the waterfall, if that makes sense.

Grizzly

Right.

Charlie

Because that's the most dangerous part of this thing, is always the bottom because that's where it churns. I'm going to make a tidal wave that we are fully going to fucking ride.

Jonah

Right, hold on.

Charlie

Out of this thing.

Grizzly

Sure. You know what? I love it. I love the visual. I just say it happens. Everybody on the ship who isn't tied to it. Everybody make a dexterity saving throw unless you anchor yourself to the ship, which will make it with advantage.

Jonah

Dex save with advantage.

Condi

I trust myself to not anchor.

Charlie

Everyone gets a plus four because we're going to be close together.

Jonah

Sixteen.

Charlie

I'm fucking stupid, so I just stabbed my sword in.

Condi

Nineteen.

Bizly

I got a 24. I still have my hands up.

Grizzly

All right.

Bizly

I just brace with my arm.

Charlie

Who am I kidding?

Grizzly

Jay 19, Chip 24, Ichabod 16.

Condi

Gillion, dead.

Charlie

I got a six.

Grizzly

So everybody gets to ride the ship surf, except for Gillion, who gets knocked off the ship.

Jonah

Oh, god.

Grizzly

On the way down.

Jonah

With his own tidal wave.

Grizzly

And your ship, everybody is screaming as for some reason, you are just going over what looks like the edge of the ocean, this long wall of waterfall, and just you go flashing over the side. And Gillion, your feet leave the ship as it starts to dip, but the tidal wave carries it forward as it wraps around the waterfall. But you just [woop] as the ship leaves you. And you're free-falling at this point.

Gillion

Tuck and roll, tuck and roll.

Condi

Yes. Can I cast Featherfall on a boat?

Jonah

On a boat?

Condi

On Gillion, on a boat, maybe. Actually, boat work.

Jonah

Is it humanoids?

Condi

Can I cast featherfall of a boat?

Grizzly

Let me read featherfall.

Condi

It says creatures.

Charlie

It should work because they're both moving.

Grizzly

The boat is not a mimic or a creature.

Charlie

Nooo.

Grizzly

You can cast it on Gillion. I'll say you can do that pre-fall.

Condi

Okay, yeah. I'll cast it on Gillion, and I guess just to be safe, the rest of us too.

Grizzly

Whoever is not holding on to the ship when you get featherfall, you start the ship's descending faster than you are.

Gillion

Come back!

Jonah

How long does featherfall last and how fucking high is this waterfall?

Grizzly

You begin to fall for what feels like-

Gillion

The light is taking me.

Grizzly

You fall for three seconds, and then five, and then ten, and then twenty, and you're falling for what feels like forever. But Jay, you cast featherfall on everyone. You're still going with that?

Condi

Yes, everybody.

Grizzly

Okay, but Ichabod is tied to the ship-

Jonah

I'm tied to the mast, yeah.

Condi

We're all falling no matter what.

Charlie

It's everyone, and then it's Gillion 30 seconds later.

Condi

You still fall at 60 feet per...ten feet per second, give or take.

Grizzly

And then Chip wasn't holding on. Jay, are you holding on to the ship?

Condi

I was holding on, yes.

Bizly

Is Ollie in sight?

Grizzly

Yeah. But I mean, he's holding on to the ship.

Bizly

Okay.

Bizly

Featherfall can hit everyone?

Bizly

Maybe I try to hold on to a part of the ship.

Condi

It can hit everybody.

Grizzly

Five fallen creatures. Okay. So you guys are one, two, three, four.

Condi

I would hit Ollie with it, too.

Grizzly

So Ollie, Jay, Chip, Gillion, you said, and Ichabod?

Condi

Ollie Jay, Chip, Gillion, Ichabod, yup.

Grizzly

So Alphonze, Drey, and Gryffon don't have featherfall.

Condi

They're all big men. They can deal with it.

Grizzly

They are all big men. With that, though, after it feels like at least...it feels like forever, but it's probably more like a minute or less of falling. Your ship plunges into water, again, below as you feel [swishhhh] this large splash, almost like an upside down mushroom cloud when a building collapses, except it's just water instead of smoke. And it coats everything. You can hear a bit of the ship take damage from the impact on the water, but not as much, thanks to the tidal wave offsetting that it's not falling on flat water. It is cutting through it. And then after-

Bizly

Is the ship intact?

Grizzly

Yeah, the ship is still intact.

Gillion

[screaming in distance that slowly gets louder]

Grizzly

Yeah, there you go.

Ichabod

Holy shit.

Grizzly

It's like another at least three minutes. Gillion eventually joins you guys and just falls right into the ship.

Charlie

I drift down like a sheet of paper from Looney Toons.

Grizzly

Luckily, featherfall. And all of you, once it settles and you regain your composure and your balance, your ship is now on this very almost...there's no waves other than what you've just landed. It's a very calm water. And all around you, as you look, you're surrounded by waterfall walls, being inside of a bowl as if the ocean was just scooped up at one part, and this is that crater. Does anybody look around?

Jonah

Yeah. I'm tied to his mast man.

Charlie

Yeah, for sure.

Jonah

I have no choice but to look forward.

Grizzly

As you're looking forward and the water settles and everybody gets back up, you see all of those waterfall walls. And then in the center, there's this beautiful stone structure that's big enough to be its own island, but resembles a large city with numerous waterways, passages, all made of water, and buildings and homes flanking each one of those. Very similar to Venice or parts of Paris. But instead of being flat, it builds up into different sections and levels, like a big kingdom. A lot of the city, as you approach in this crater in the ocean, is very slightly obscured by steam. Similar to what you'd see from dry ice or liquid hydrogen. And by descriptions of what you've been told, Ichabod, this is Liquidis.

Jonah

Yeah, I unlash myself from the mast and run towards the bow.

Ichabod

We made it.

Grizzly

And you hear off the side of the ship.

Stingray

Yummy.

Ichabod

Thank you, Manta Ray, friend. Thank you.

Chip

This is the Drip Castle. Nice.

Ichabod

We made it to Liquidis, gang.

Jonah

Is there a nearest port or something we can glide into?

Charlie

Well, we can't turn the ship, so guess we'll find out.

Chip

Hey, you guys all right?

Bizly

I just yell out to the group.

Ichabod

Yeah, we're good.

Grizzly

Everybody's fine. But you're able to glide in very slowly now straight ahead. And luckily, there is a point. If you have big paddles, you can direct the ship or with Gillion, he can help.

Jonah

Oh, yeah, for sure.

Charlie

Yeah, I can use shape water at the bow and then like...

Grizzly

You're able to dock at one of the ports on the perimeter of the city.

Bizly

Can we see any of the people?

Grizzly

Yeah, I It's a heavy foot traffic kind of place. There are people at the docks. There's multiple ships. There aren't any pirate ships.

Jonah

Oh, okay.

Grizzly

If you're looking for those specifically, but there are trading ships and the like.

Bizly

But do the people look like me or do they look like Gillion?

Grizzly

Um...

Gillion

Fish.

Grizzly

Make a perception check.

Bizly

Fish. I want to know. I want to meet the fish folk. A 12.

Grizzly

There-

Bizly

I got eyes for sure.

Grizzly

Don't seem to be numerous tritons, like Gillion.

Bizly

I do see stuff sometimes.

Grizzly

But you do see the occasional water genesai or a genasi. You see little frog people as well that walk around. There's a lot of frog people around the docks helping with the ships coming and going. But there's just mostly more less aquatic races. There's a very dominant amount of elves and dragonborn as well.

Jonah

Oh, wow.

Ichabod

This seems like the place, gang.

Jonah

I'm actively putting my things back together and getting all of my belongings.

Gillion

Do you need any help bringing anything there?

Ichabod

No, I lost most of what I had on the Nubachudnezzar in the accident.

Chip

Well, hey, you're a Riptide pirate now, so whenever you need us, just...well, I don't know how you can contact us, but just hope we'll show up, and then maybe we will.

Ollie

Can I have your hat?

Ichabod

You know what? Come here.

Ollie

Wooo!

Jonah

So I take the feather out of my hat that is now sufficiently dry and fluffy, almost like some yellow peacock feather, almost like a chocobo, I guess. Then I pluck it and put it in his hair, behind his ear.

Grizzly

He lights up. The biggest pog face you've ever seen. Right on this twelve-year-old half-elf, and he just runs back up to the ship. He's screaming.

Ichabod

All right, guys. I have a meeting with the parliament and the nobles at the castle.

Gillion

You might be a little late.

Ichabod

Just a little bit.

Gillion

Good luck in there. Just a little bit. It's been an honor meeting you and fighting by your side.
Splash me up.

Charlie

I hold out my hand.

Jonah

Give him a little fist bump.

Charlie

Totally wet. It's really gross. It's awful.

Ichabod

Jay.

Jonah

And I tip my hat and give him a wink or give her a wink.

Condi

I do the same back.

Ichabod

Chip.

Condi

Then I look up to the sky a little excited.

Bizly

I run up to him and I give him a hug, just unprompted.

Ichabod

Chip, you're a hell of a fighter.

Chip

I'm going to miss you, man.

Ichabod

Hey, there are all sorts-

Chip

Whose gonna blow up ships with us?

Ichabod

All sorts of amenities here on Liquidis. You guys, I'm sure, would be keen to try a few. There's a wonderful bar, several restaurants. It's run by the elves for the most part. They do good work, but I don't know when I'm going to see you next.

Jay

Well, if our paths do cross again, I surely look forward to it. It's not often you meet somebody as capable as you.

Ichabod

You saw me at my best, just wait until I have to talk to politicians.

Chip

You know what, you'll be fine.

Ichabod

Thanks for the confidence.

Chip

But here.

Bizly

I hold up my butter knife.

Chip

I want you to have this.

Ichabod

Chip.

Condi

No.

Charlie

No.

Ichabod

You care for serious.

Charlie

No way.

Grizzly

Oh, my god.

Chip

You earned it.

Jonah

I take it and I put it where the feather was.

[laughter]

Grizzly

Lovely.

Charlie

Oh, that's awesome.

Jonah

I look out at the dock workers who were lowering the gangplanks and things like that.

Dock workers

Hello.

Jonah

I tip my hat to the crew.

Dock workers

Hello. Hello.

Bizly

We watch them walk away slowly.

Jonah

Yeah.

Gillion

Stay safe out there, Riptide pirate.

Jonah

I turn around and wave as I'm walking down the pier. Give him a fist.

Chip

I'm going to miss that, butter knife.

Jonah

And then I disappear into the crowd.

Jay

You'll be all right. Especially with the butter.

Grizzly

Ichabod makes his exit. You guys are left there on the dock, and that's where we end the session.

Chip

How do we get the ship out of here?

Charlie

Why would they fucking build this place like this?

Grizzly

All right.

Jonah

You can follow me on Twitter at ImMrTransistor. I stream on Twitch almost every day, twitch.tv/jonascoot [now alphaaniki]. Yeah, look out for the shows and games and stuff that I am in. If you follow me on Twitter, you will know about every single one. Thank you.
