6		<ul style="list-style-type: none"> a psychology student getting her doctorate degree accuses a professor of meddling in her personal life a cosmetologist colors a rich client's hair the wrong color 	
7		<ul style="list-style-type: none"> an agricultural researcher learns that he'll be gone for two weeks – right when his wife is to have a baby an advertising agent is upset that her teammates switched out the sketches w/out telling her & the meeting where they pitch ideas is about to start 	CMS south think tank
	extra ideas	<ul style="list-style-type: none"> a robotics representative selling new device to hospital for surgeries encounters two doctors who approach medicine in very different ways a kindergarten teacher is frustrated with a doting parent who interrupts class with snacks on a regular basis 	
	some involved with BLOOD DRIVE on day done during class OR If doing this individually...	<ul style="list-style-type: none"> student on phone with a professor trying to convince them of their excuse for missing the final exam customer calling to say their cell phone was left in dressing room of clothing store <u>or</u> adapt any topic above that was not assigned and make it a telephone conversation 	How do you do this alone? Make it sound like a phone call. We only hear your side of the conversation but can assume what the other person is saying.

tips & reminders

1	these topic ideas were given so time would not be wasted in bickering about a topic choice
2	you pick ONE TOPIC idea & write a dialogue; if you have a better idea, that's fine
3	you perform that dialogue THREE TIMES
4	the first two times are videotaped w/ speakers being off-camera
5	the third time you are to be on camera
7	film it in three separate videos, and after uploading to GDrive community folder; remember to title each video for clear understanding (dialogue 1_Melodie & Chris: dialogue 2_Melodie & Chris, and dialogue 3 Melodie & Chris)
8	practice numerous times before recording it (this will help avoid retakes)
