

The Devouring Deep - A Childe Centric Zine

What is a zine?

A zine is a collection of fanwork, featuring art, writing, photography, and poetry! They are often physically printed, but sometimes are digital. Fanzines frequently feature merch as well. Contributors submit applications, get chosen, and create original pieces specifically for the zine.

Is this zine for profit or charity?

This zine will be for charity! The charity we have chosen is Save the Whales, due to Childe's connection with the ocean, and the creature he summons during the fight. You can check their website out [here](#)!

Is this zine physical or digital?

This zine will have both physical and digital options, as well as physical and digital merch.

Will this zine feature ships?

While the focus of the zine will be Childe himself, there may be some ship content included, if that's what an artist or writer wants to contribute! The main zine itself will be SFW, so all ship content will be SFW.

Will this zine be NSFW?

The zine will be SFW on the sexual side, but, with the nature of Childe's occupation and based on what we have seen of him in game, there may be violence and slight gore(blood, wounds, etc). There will be no sexual NSFW content in the zine.

Will this zine feature spoilers?

Yes! This zine will feature spoilers from in game, and possibly the manga as well. It will heavily feature Childe's backstory, as well as the in game events from Chapter One.

Who are the mods?

You can find the mod list on our carrd(childezine.carrd.co)! As of right now, we only have the two head mods up, but will have the other mods up shortly!

Will you turn contributors away based on their ships?

Absolutely not! We will not turn anyone away based solely on what they ship. Every artist will be judged fairly based on their skills.

There will be more info on this to come!
