

Hey Nikki,

I was scrolling through youtube looking for some smaller YouTubers talking about ways to make money. Youtubers that have yet to hit those triple-digit numbers like yourself, tend to make amazing videos that need to be appreciated more!

Like your “Let's Catch Up And Cash Up! 💰 Making Money with Nikki Connected Live” video. You’re telling us about these ways to make money and explaining it well. Especially since a lot of people have yet to learn about print-on-demand, despite this, it only got 308 views.

There’s honestly one reason for that. You’re only missing something that’ll attract people to your page instead of someone else’s. That something can vary a lot of the time. Under this ill attach something you can post on your social media that would get more people on your page and raise your marketing course sales.

Let me know what you think of it and any feedback!
