

Daisha Harris

My name is Daisha Harris, I am 21 years old and I am pregnant with my first child. I was born here in New Mexico and have lived here most of my life. But I have also lived in California and Arizona for short periods of time.

I am the childcare provider here at BTHNM. I love children and am so happy to help parents with just the little time they are taking for themselves and working on their health goals. Children bring me so much joy. Just looking and their cute little faces is such a blessing.
