Title of Competition

Summary and Objective

Describe the proposed competition, its scope, what it is meant to evaluate, what types and number of teams and robots are intended to participate, and what the procedure will be, including how much time each team will take to compete in the competition.

List of Competition Tasks and Performance Metrics

Provide a list of the components of the competition, including the competition tasks, any apparatuses and other equipment used to conduct the tests, and the metrics of performance by which the teams will be evaluated.

Team Recruitment and Selection Plan

Provide a plan for advertising the competition, soliciting participants, and selecting the participating teams.

Include a list of already interested teams, if available.

List of Organizers

Provide complete name, affiliation, e-mail.

Please identify the primary contact person.

Required Resources

Please provide a list and explanation of the resources needed to run the competition. This includes how much space in a room within the conference venue, what equipment is needed including tables and AV equipment, any additional volunteers to run the competition, and any other support.

Notes & Requests

Provide a list of additional notes or particular requests for your competition.
