

Impact: Small-Group Discussion On Articles About Harm from Algorithms
[one handout per minigroup, not turned in]

Please discuss these questions – these are big topics, so it's okay if you discuss some more in depth and don't get to others

1. What 1 or 2 algorithms most impact your day-to-day lives?
 - What impacts are positive?
 - What impacts are negative?
2. Suppose an algorithm made most people's lives better but some people's lives much worse.
 - Is that okay?
3. Who should be in charge of what algorithms are allowed to be used for?
 - What qualifications should they have?
 - What qualifications shouldn't they have?
4. Can you identify something you are opposed to using algorithms for?
 - Does it already exist?
