## V. SPC Report Card 2025

11:35am – 11:45am

Yeni Palomino, Vice President, Community Health & Engagement

- Every year the SPC produces a report that card that is come to the community and last year it was all about data
- Feedback: make the report shorter, Andy made the suggestion there has to be more change to keep the media engaged. The Rates don't change too much year after year, but we can fish out some key highlights to point out. It is themes that makes it big .
  - o Another suggestion from Charles is we still narrative and there's too much data for people to want to ready the document. The narrative is also what helps the residents of SD county connect.

## VI. Youth Risk Assessment Report and Survey Update

11:45am – 11:55am

Yeni Palomino, Vice President, Community Health & Engagement

- YP wanted to thank everyone for providing Finput and feedback. We went beyond the risk assessment and screening tools and initially it was intended to see what risk assessments were like and what was happening. However, we knew SDCOE does a lot of this work so we cross collaborated and we have finished the report and now is with county for review.
- The report really highlighted what we already knew, Majority f professionals are using the Columbia risk assessment tool and there is
- Small org feel they could use more structure around
