

CLUB NAME ENGINEERING CLUB AND BOTBALL TEAM
LOCATION (RM #) ROOM 156
ADVISOR NAME L. LOVETT

MEETING DAY TUESDAYS

MEETING TIME 2:30-3:30

CLUB DESCRIPTION:

The Engineering club gives members a chance to study, experiment and design in a variety of Engineering topics. Members can work on projects beyond those done in classes, or extend their class projects using the extra time.

Some members can choose to compete in Botball, a robotics program/competition that Wellesley HS has participated in for over 20 years with a great deal of success. Botball focuses on totally autonomous robots completing a number of challenges on an 8 foot by 8 foot field of play.
