Post 5 - Bit of a sneak dis on baker's delight...

Ever opened up that 'fresh' loaf of bread from your local Woolies or Baker's Delight, and helped to find it dry and like it's been in the packaging for the past week?

This has never been the case at Theo's bakery.

There's one simple reason for this.

It's due to our bakery making each pastry the night before. So you can get the soft, fluffy and overly inviting cuisine of mouth-watering snacks, from bread that turns right back into doe (if you squeeze it hard enough) to croissants that melt away inside your mouth.

With unbeatable pies from a quality family-owned business, you will be greeted by a heart-opening smile each time you walk through our doors.

See it for yourself, it's more than just delightful.
