Provide Greater Access to STEM Education to All Students

Cody Z.

Tutor
San Antonio Math Include

Cody is in the class of 2026 in Clements High School. He has always loved mathematics from a young age. He has attended lots of competitions and has achieved high scores on them such as getting 6th place in National Mathleague in 4th grade, getting a perfect score on AMC8 in 6th grade and qualifying for State Mathcounts and AIME in 7th grade, as well as achieving the Honor Roll in AMC10. He has also helped tutor for other AMC10 classes, and he likes to read and play violin. He is excited to learn from this camp and have fun teaching other students that have interest in math.
