Nearpod Lessons for Virtual Learning

We know schools are temporarily closed or are in the process of closing, and we want to help you keep students engaged, connected, and learning. These Nearpod lessons can be downloaded and shared to students for independent work or for live virtual teaching. Simply add the Nearpod lesson to your library, then share out to students with the Nearpod CODE, or through your LMS or Google Classroom.

Click below to search for resources that are great for at-home learning. Each grade level has lessons for independent learning, practice and review, and activities designed for reducing stress and staying up-to-date and informed.

Have a favorite Nearpod resource and want to know how to quickly adapt it for virtual learning? Click here for 3 easy steps!

Kindergarten

Stay Informed & Healthy: Support students in understanding COVID-19 and provide resources for managing stress during this time.

Name	Description	Adapt for Virtual Learning
Germs & Staying Healthy	Teach students what germs are and how they can prevent the spread of germs through healthy habits	Delete Think-Pair-Share, Class Discussion *General Tips for Adapting for Virtual Learning*
Los gérmenes y la salud	Lesson in Spanish: teach students what germs are and how they can prevent the spread of germs through healthy habits.	Ready to use for virtual learning!
Wash Your Hands (K-1)	Use this mini-video lesson to teach your students how to properly wash their hands.	Ready to use for virtual learning!
SEL Moments: Using Mantras	Strengthen students' understanding of how they can use mantras to relieve stress	Delete Think-Pair-Share *General Tips for Adapting for Virtual Learning*
SEL Moments: How is My Body Feeling?	Strengthen students' understanding of noticing how their body feels	Delete Think-Pair-Share *General Tips for Adapting for Virtual Learning*
Nearpod Compass: Stress	Students explore what stress is and steps they can take to handle stress in a healthy way	Ready to use for virtual learning!
Nearpod Compass: Estrés	Lesson in Spanish where students explore what stress is and steps they can take to handle stress in a healthy way	Ready to use for virtual learning!

Student-paced Resources: These lessons, which can be completed by students independently, are ready-to-go for at-home learning!

Name	Subject	Description
Matching Pairs	Math, Science, ELA, Social Studies	Collection of lessons that allow students to review and practice key concepts using matching pairs
Time to Climb	Math, Science, Social Studies	Collection of gamified learning activities that provide a fun way for students to review key concepts
Cricket Media	ELA	Collection of lessons to improve students' reading comprehension skills with Lexile-leveled texts
Nearpod 3D	Science, Math	Collection of lessons that provide opportunities to explore topics using 3D models
Typesy	Keyboarding	Collection of unlocked keyboarding lessons to help students improve their WPM and accuracy

Additional Resources for Exploration, Practice & Review: These extra resources are great for live learning, or can be quickly adapted for student-paced at-home learning.			
Name	Subject	Description	Adapt for Virtual Learning
PhET	Science	Collection of lessons that integrate inquiry-based PhET simulations into virtual labs	Delete Think-Pair-Share *General Tips for Adapting for Virtual Learning*
VR Explorations: States and Territories	Social Studies	Collection of lessons that leverage VR to help students explore what makes each state and territory unique	Delete directions for partner activities *General Tips for Adapting for Virtual Learning*
ReadWorks Mini-lessons	ELA	Collection of mini-lessons that include Lexile-leveled passages to help students build reading comprehension skills	Delete directions for partner activities *General Tips for Adapting for Virtual Learning*

[Education.com Skill Builders](#)	ELA, Math, Science, Social Studies	Collection of mini-lessons that provide opportunities for practice of key topics across subject areas	Delete Class Discussion *General Tips for Adapting for Virtual Learning*
[MaxScholar](#)	ELA	Collection of lessons to improve student reading skills using multi-sensory, effective research-based strategies and Fountas & Pinnell-leveled texts	Delete Think-Pair-Share *General Tips for Adapting for Virtual Learning*
[Big Word Club](#)	ELA	Collection of lessons that strengthen vocabulary skills through phonetic, visual, auditory, and tactile practice	Delete Class Discussion *General Tips for Adapting for Virtual Learning*

[VR Explorations: Geometry](#)	Math	Collection of lessons that leverage VR to help students explore and analyze real-world examples of geometry	Delete Think-Pair-Share *General Tips for Adapting for Virtual Learning*
[VR Explorations: Traits and Genes](#)	Science	Collection of lessons that leverage VR to help students explore and analyze the impact that traits and genes have on the development of species on Earth.	Delete Think-Pair-Share *General Tips for Adapting for Virtual Learning*
[VR Exploration: Poetry](#)	ELA	Collection of lessons that leverage VR to help students explore the power of poetry as a writing medium	Delete Think-Pair-Share *General Tips for Adapting for Virtual Learning*
[VR Exploration: Ancient Empires](#)	Social Studies	Collection of lessons that leverage VR to help students compare the experiences of life across ancient empires	Delete Think-Pair-Share *General Tips for Adapting for Virtual Learning*
[ReadWorks Mini-lessons](#)	ELA	Collection of mini-lessons that include Lexile-leveled passages to help students build reading comprehension skills.	Delete directions for partner activities *General Tips for Adapting for Virtual Learning*
[Education.com Skill Builders](#)	ELA, Math, Science, Social Studies	Collection of mini-lessons that provide opportunities for practice of key topics across subject areas	Delete Class Discussions *General Tips for Adapting for Virtual Learning*
[iCivics](#)	Social Studies	Collection of lessons that leverage	Delete Class Discussion, Think-Pair-Share

		rigorous texts and experiential activities to give students the tools to learn about and participate in civic life.	*General Tips for Adapting for Virtual Learning*

8th Grade

Stay Informed & Healthy: Support students in understanding COVID-19 and provide resources for managing stress during this time.		
Name	**Description**	**Adapt for Virtual Learning**
2019-2020 Coronavirus Outbreak	Share information about the current outbreak of coronavirus	Delete Think-Pair-Share *General Tips for Adapting for Virtual Learning*
2019-2020: Pandemia de coronavirus	Lesson in Spanish: share information about the current coronavirus pandemic.	Delete "Reflexiona y comparte" *General Tips for Adapting for Virtual Learning*
Germs & Staying Healthy	Teach students what germs are and how they can prevent the spread of germs through healthy habits	Delete Think-Pair-Share, Class Discussion *General Tips for Adapting for Virtual Learning*
VR Explorations: Awareness & Communication	Collection of lessons that leverage VR to help students learn about and reflect on the importance of social-emotional skills	Delete Think-Pair-Share *General Tips for Adapting for Virtual Learning*
SEL Moments: Relaxation Thermometer	Students practice self-management by learning to identify the intensity of their emotions.	Delete Think-Pair-Share *General Tips for Adapting for Virtual Learning*
Nearpod Compass: How to Address Stress	Students explore what stress is and learn steps they can take to handle stress in a healthy way	Ready to use for virtual learning!

[Nearpod Compass: Cómo Enfrentar El Estrés](#)	Lesson in Spanish where students explore what stress is and steps they can take to handle stress in a healthy way	Ready to use for virtual learning!
[What is COVID-19?](#)	In this mini video lesson, students watch an original Nearpod video about the COVID-19 pandemic and answer questions.	Ready to use for virtual learning!
[Bacteria & Viruses](#)	In this mini video lesson, students watch an original Nearpod video about bacteria and viruses and answer questions.	Ready to use for virtual learning!

Student-paced Resources: These lessons, which can be completed by students independently, are ready-to-go for at-home learning!		
Name	**Subject**	**Description**
[Matching Pairs](#)	Math, Science, ELA, Social Studies	Collection of lessons that allow students to review and practice key concepts using matching pairs
[Time to Climb](#)	Math, Science, ELA, Social Studies	Collection of gamified learning activities that provide a fun way for students to review key concepts
[Quill](#)	ELA	Collection of lessons to help students improve their writing and grammar skills
[Vocabulary Cartoons](#)	ELA	Collection of lessons that use mnemonic-based learning strategies to teach critical SAT/ACT vocabulary
[Desmos](#)	Math	Collection of lessons that use Desmos simulations and inquiry based math experiences to help students understand fundamental math concepts

[Nearpod 3D](#)	Science, Math	Collection of lessons that provide opportunities to explore topics using 3D models
[Typesy](#)	Keyboarding	Collection of unlocked keyboarding lessons to help students improve their WPM and accuracy

Additional Resources for Exploration, Practice & Review: These extra resources are great for live learning, or can be quickly adapted for student-paced at-home learning.			
Name	**Subject**	**Description**	**Adapt for Virtual Learning**
[PhET](#)	Science	Collection of lessons that integrate inquiry-based PhET simulations into virtual labs	Delete Think-Pair-Share *General Tips for Adapting for Virtual Learning*
[Lifeliqe](#)	Science	Collection of lessons that integrate moving 3D models to support student learning through exploration and rigorous thought	Delete Think-Pair-Share *General Tips for Adapting for Virtual Learning*
[VR Explorations: Geometry](#)	Math	Collection of lessons that leverage VR to help students explore and analyze real-world examples of geometry	Delete Think-Pair-Share *General Tips for Adapting for Virtual Learning*
[VR Explorations: Traits and Genes](#)	Science	Collection of lessons that leverage VR to help students explore and analyze the impact that traits and genes have on the development of species on Earth.	Delete Think-Pair-Share *General Tips for Adapting for Virtual Learning*
[VR Exploration: Poetry](#)	ELA	Collection of lessons that leverage VR to help students explore the power of poetry as a writing medium	Delete Think-Pair-Share *General Tips for Adapting for Virtual Learning*

[VR Exploration: Ancient Empires](#)	Social Studies	Collection of lessons that leverage VR to help students compare the experiences of life across ancient empires	Delete Think-Pair-Share *General Tips for Adapting for Virtual Learning*
[ReadWorks Mini-lessons](#)	ELA	Collection of mini-lessons that include Lexile-leveled passages to help students build reading comprehension skills.	Delete directions for partner activities *General Tips for Adapting for Virtual Learning*
[Education.com Skill Builders](#)	ELA, Math, Science, Social Studies	Collection of mini-lessons that provide opportunities for practice of key topics across subject areas	Delete Class Discussions *General Tips for Adapting for Virtual Learning*
[iCivics](#)	Social Studies	Collection of lessons that leverage rigorous texts and experiential activities to give students the tools to learn about and participate in civic life.	Delete Class Discussion, Think-Pair-Share *General Tips for Adapting for Virtual Learning*
