Look at the sentences below. Each one has a grammar mistake.
Find and correct the mistake.

Explain why the correction is necessary.

 Sentences:

This financial model is more accurate than the old one.

We are going to analyze the reports tomorrow.

The company where we work with is expanding internationally.

Our new system is slightly more effective than the previous version.

The auditor will present the report next week.

1. Future Audit Plans

♦ Audit Department Plans for 2025

"Our audit department is going to implement a new risk assessment process next quarter. The team, which specializes in financial audits, will introduce updated guidelines. By the end of the year, we will have completed a comprehensive training program. We believe the new system will be far more efficient than the current one. In addition, the new guidelines, which we developed last year, will ensure greater accuracy in reports."

Underline all examples of:

Future tenses (is going to, will, will have completed)

Relative clauses (which specializes in financial audits, which we developed last year)

Advanced comparisons (far more efficient than)

Follow-up Discussion:

What differences do you see between is going to and will?

Why do we use is going to instead of will complete?

2. Future Tenses, Comparisons, and Relative Clauses

1 Advanced Comparisons:

Structure:

♦ Far/considerably/slightly + comparative adjective + than (far better than, slightly more accurate than, considerably stronger than)

- ◆ Not as + adjective + as (not as efficient as, not as reliable as)

Example Sentences:

This system is far more reliable than the previous version.

The new process is not as complicated as the old one.

 2 Future Tenses Review:

Will (decisions made now): We will start the audit next week.

Going to (planned actions): We are going to review the findings tomorrow.

Present Continuous for fixed arrangements: The auditor is meeting with the finance team at 3 PM.

Future Perfect (will have + past participle): By next quarter, we will have completed all evaluations.

 3 Relative Clauses:

Go-went-gone

Eat ate eaten

Read-read-read

Find-Found-Found

Who/which/that/whose/where

The consultant who works with us is very experienced.

The new policy, which/that we introduced last year, is now effective.

This is the department where we conduct internal audits.

 Mini-Task:

Rewrite the sentences with more advanced comparisons, future tenses, or relative clauses.

- ◆ Our system is more effective than the previous one. → **Our system is far more effective than the previous one. Our system, which is more effective than the previous one..**

- ◆ We will start the project next year. → By next year, we will have started the project. **We are going to start the project next year.**

- ♦ The auditor works with us. → The auditor who works with us is very experienced. The auditor who works with us is far more experienced than the previous one.

3. Audit Report Discussion

Look at the audit report key points:

The new financial system is 50% faster than the old one.

A compliance review is planned for Q3.

The fraud detection algorithm was tested last year and is now live.

The new audit guidelines are not as strict as the previous ones.

Role-play a conversation with the teacher where:

You present the audit findings using comparisons and future tenses.

You respond to the Consultant's questions using relative clauses.

 Example Dialogue:

 You: The new financial system is considerably faster than the previous one, improving efficiency by 50%.

 Consultant: When will the compliance review take place?

 You: It is going to be conducted in Q3.

 Consultant: What can you tell me about the fraud detection algorithm?

 You: The algorithm, which was tested last year, is now fully operational.

Do you know some negotiation strategies?

1. Compromise Strategy

- **What it means:** Both sides **give up** a little to reach an agreement.
 - **Example:** "I want \$100, but you can pay \$80. Let's agree on \$90."
 - **Key Phrase:** "Let's meet in the middle."
-

2. Win-Win Strategy

- **What it means:** Both sides try to get something good out of the deal.
 - **Example:** "If you help me finish this project, I will help you with your task next week."
 - **Key Phrase:** "How can we both get what we need?"
-

3. Trade-Off Strategy

- **What it means:** You offer something the other person wants in exchange for what you want.
 - **Example:** "I will give you extra time if you lower the price."
 - **Key Phrase:** "If I do this, can you do that?"
-

4. Walk-Away Strategy

- **What it means:** If the offer is not good, you say no and leave the negotiation.
 - **Example:** "This price is too high for me, so I can't agree."
 - **Key Phrase:** "I'm sorry, I can't accept this."
-

5. Problem-Solving Strategy

- **What it means:** Focus on solving the problem, not fighting.
- **Example:** "You want this done fast, but I need more help. Can we ask for extra support?"

- Key Phrase: "How can we fix this?"

Negotiation skills

1. Discuss what the below negotiation skills mean in your opinion.

- rapport-building
- active listening
- mirroring
- emotional objectivity
- ability to walk away
- creativity

1) Rapport-building

If you form a human connection with the other party, they're less likely to view you as the enemy. You'll have an easier time reaching an agreement that makes you both satisfied. They'll also be more receptive to your initial offer.

Quick tips:

- Show up with coffee and/or snacks to share.
- Spend a few minutes beforehand on lighter topics.
- Sit on the same side of the table as the other negotiator(s).

2) Active listening

The quickest way to lose a deal? Monopolize the conversation and ignore the other person every time they do get a spare word in. Even the most eager-to-sign prospects will be **turned off** by your aggressive behavior. In contrast, listening closely will show respect and give you valuable insight into their priorities.

Quick tips:

- Listen just as much -- if not more than - you speak.
- Pause before responding. You might think the person has finished their thought, but they may just be taking a breath.

3) Mirroring

Imitating the words, gestures, and expressions the other person is using will make you appear more trustworthy. It takes some skill to **pull this off** without them noticing.

Quick tips:

- Pay attention to the phrases they repeatedly use and use them, too.
- After they change position, wait 5 to 10 seconds and then match them.

4) Emotional objectivity

As soon as you demonstrate emotion during a negotiation -- whether it's excitement, frustration, anxiety, or impatience -- you reveal your **vulnerabilities**. Also, getting flustered hinders your decision-making skills. **Strive** to stay calm and unemotional.

Quick tips:

- If you can sense you're **losing your grip**, request a five-minute break to get something to drink or visit the bathroom.
- Take a few deep breaths.
- Pause before speaking so you don't accidentally **say anything rash**.

5) Ability to walk away

Any agreement isn't always better than no agreement. In other words, you need to recognize when you're compromising so much the deal is no longer worth it. Come knowing your minimum acceptable offer -- and be prepared to walk away if the other party won't meet that.

Quick tips:

- Make sure you don't **succumb** to the pressure of the moment by writing down the lowest price or deal you'll accept on a piece of paper.
- Practice politely saying, "*Unfortunately, I can't go below X. Let me know if that's not **feasible** for you.*"

6) Creativity

Successfully crafting a win-win agreement usually requires getting creative. Try to think outside-the-box so you're not limited to standard price **haggling**.

Quick tips:

- Ask the other party, "*What's important to you besides cost?*" Brainstorm non-monetary **concessions**, like extended support, early access to new features, tickets to exclusive events, free consultations, check-ins with a member of your executive team, and so on.

Tell me about yourself – A job interview elevator pitch

1. Read the text and answer the questions below.

What is an elevator pitch?

This speech is all about you: who you are, what you do, and what you want to do (if you're job hunting). Your elevator pitch is a way to share your expertise and credentials quickly and effectively with people who don't

know you. Your elevator pitch can be used during job interviews, especially when you're asked about yourself. Interviewers often begin with the question, "Tell me about yourself" — think of your elevator pitch as a super condensed version of your response to that request. It's named for the time it takes to ride an elevator from bottom to top of a building (roughly 30 seconds or 75 words).

- In your opinion, in what situations other than a job interview might you use an elevator pitch?
- Have you ever prepared an elevator pitch?

2. Complete these elevator pitches with correct prepositions.

Imagine you are in an elevator with a senior executive. You have 30 seconds to introduce yourself and explain what you do. What would you say?

For example:

My name is Alex, and I work as an Audit Director. I specialize in improving internal processes.

Let's brainstorm: What's important to include?

1. Discovering

Read the two elevator pitch examples below and answer the questions:

Example 1:

Hi, I'm Sarah. I am an Audit Director with 10 years of experience. I have successfully improved compliance by 25% in my current role and streamlined financial reporting processes.

Example 2:

Hello, my name is John. As an Audit Director, I specialize in accurately identifying risks and efficiently implementing solutions. Last year, I led a project that significantly reduced audit time by 30%.

Questions:

Which pitch is more impactful? Why?

What achievements or key qualities do they mention?

What adverbs make the pitch more dynamic?

2. Grammar

When we want to be concise and impactful, we can use adverbs to qualify our achievements. Here's how:

Examples:

I have successfully improved compliance by 25%.

I have significantly reduced audit time by 30%.
I efficiently implemented new reporting standards.

Structure:

Subject +

Successfully
Efficiently
Significantly
Effectively
Accurately

Productively
Seamlessly

Write 3 achievements you had the last year using the previous adverbs:

3. Practicing

Write your own elevator pitch. Include your name, role, and two key achievements using adverbs.

Example:

Hi, my name is Jane. I am an Audit Director with 8 years of experience. I specialize in efficiently identifying risks. I have successfully improved compliance by 20% and significantly streamlined financial audits. Once you've written your pitch, practice saying it aloud with intonation.
