How to add the SFS air quality monitor to your phone home screen (Korean Android instructions below)

- 1. Open Safari on your iPhone and visit ws.sfs.or.kr/aqi
- 2. Click the Share button at the bottom of the screen
- 3. Scroll down and choose "Add to Home Screen"

'M2.5:5.40 / PM10:6.50

Android phones use a slightly different method. To see instructions in Korean for Android phones please click here.
