

Apps Privacy Policy

This privacy policy statement describes information gathering and dissemination practices by accessing and/or using our versatile mobile applications/games. We know you care about how your data is utilized and we consider your security important. Please read the following to learn more about how we use your information. What type of information and for which purpose.

Collection of User data for our Apps and Games

Personally Identifiable Information

As a general rule we don't collect any personal information for our use. If you send us your personal email or any other data with your consent we only use it for the enhanced gaming experience we are providing.

Non-Personally identifiable information:

Accumulation and utilization of information also includes our third parties. This information collection is about you and your device such as your device area location (to provide support and to convey focused publicizing and advancements for your better involvement), device information (type of device, capability, status, operating system). IDFA advertiser ID or different kinds of promoting identifier for in game exercises, network connection and access, web signals quality and strength identifying with Wifi, application, device version and all comparable specialized information about your device which excludes your personal data to customize your experience and enhance client administrations.

Analytics

We utilize Google Analytics to automatically get and store certain kinds of data whenever you collaborate with our games. It includes how frequently you play games, to what extent you play and what things you've unlocked. This sort of information is used to understand your interactivity with Apps / Games and enhance experience for the upcoming updates. What amount did you have and enthusiasm for your game playing. The majority of this data comes to us as crude information with no close to personal data appended to it. You can find out about Google Analytics Privacy Policy here <https://policies.google.com/privacy?hl=en-US>

Advertisement

We acknowledge ads from third parties as well. These third parties advertising commercials might be shown in our Apps. We select ad networks mindfully to keep up consistency with appropriate privacy security laws. Advertisers may utilize cookies and other web-following information to gather non-individual data about your device (as portrayed in Collection and utilization of information in Mobile Apps and Games), in case client taps on any of these ads. Besides, we may advertise our different Apps inside the Apps for promotion purposes, as you can avoid these ads by utilizing OPT-OUT as portrayed previously. You can find out about our advertising partners protection approaches here.

Information related to children

Data identified with a kid's privacy policy appointment is to give the legitimate guardian of a child younger than 13 years with direction in regards to our privacy policy that concerns gathering, utilizing and uncovering individual data of children under 13.

Parents and legal guardians of children under 13 have certain rights under the Children's Online Privacy Protection Act of 1998 (COPPA, <http://www.coppa.org/coppa.htm>), and we recognize those rights.

We don't purposely and directly gather and store on its servers any close to personal data from children under the age 13 as that would be an infringement of COPPA. Some data might be gathered by outsider suppliers of administrations (promoting systems, and so forth.) or certain products.

Legal

All characters, designs and games assets are prepared in house by our team. Apps and Games are developed with unique concepts and ideas.
