

Privacy Policy

Last Updated: [March 2025]

The **Amazon Review Extractor** Chrome Extension does not collect, store, or share any personal user data.

Information We Collect

This extension may collect basic anonymous usage statistics using Google Analytics (GA4) to improve performance and understand usage patterns.

- Events like "Extract reviews started", "Extension opened", and settings toggled (e.g., image download enabled)
- Anonymous device ID (a randomly generated UUID stored locally)
- Amazon product review page URL (for context only, not stored or shared)

All data collected is non-personal, anonymized, and used solely for improving the extension.

Permissions

The extension requests access to:

- **Amazon.com pages** – to read product reviews for extraction
- **Downloads** – to save reviews and images as CSV/JSON or ZIP files
- **Storage** – to store preferences and analytics client ID locally

Data Sharing

We do not share or sell any user data with third parties. Google Analytics events are sent securely to Google's servers.
