

SPECIMEN'S NAME: LYNÆUS LYN

DATE OF CREATION: FEB/8/XXXX

SPECIES: NON-HUMAN PRONOUNS: HE/THEY

DNA SAMPLES TAKE FROM: VULPES
VULPES, HOMO SAPIENS, CORVUS CORAX
AND SAMPLE EXTRACTION FROM ~~XXXXXXXXXX~~

HEIGHT: 6 FT I'M ACTUALLY 6'5" NOW

APPEARANCE: PALE COMPLEXION.
NOTICEABLE FRECKLES UNDER EYES AND
BRIDGE OF THE NOSE. AS WELL SOME
DARKER FACE MARKINGS LIKELY DUE TO
VULPES GENES. HAIR WAS LIGHTER IN THE
BEGINNING STAGES BUT DARKENED A LITTLE BIT TO A MORE
LAVENDER COLOR WITH DARKER UNDERTONES. VULPES LIKE EARS
AND DENTAL. AN ABNORMAL SHADE OF RED EYES. HANDS AND FEET
APPEAR A MUCH DARKER SHADE. AT CREATION WE NOTICED A
SLIGHT TAIL AND BACK BONE JOINTS BUT THOSE STOPPED
GROWING ONCE THE SPECIMEN MATURED.

Huh? I HAVE A TAIL?

TEMPERAMENT: WE HAVE NOTICED QUITE THE CURIOUS BEHAVIOR
FROM THE SPECIMEN. IT ALSO EXUDED SIMILAR BEHAVIORS TO THAT
OF ITS MAIN DNA MAKE UP, VULPES VULPES. HOWEVER WE
WEREN'T EXPECTING ITS LEVEL OF INTELLIGENCE TO RIVAL THAT OF
A NATURAL CORVUS CORAX. WE HAD ONLY ADDED A SMALL BIT OF
THAT DNA BUT IT'S SHOWN GREAT PROMISE WITH ITS THINKING
SKILLS.

DIET: THE SPECIMEN SEEMS TO HAVE QUITE THE CARNIVOROUS
APPETITE. BUT OUTSIDE OF THAT IT WILL ONLY EAT BERRIES AND
NOTHING ELSE NON-PROTEIN BASED.

OK WELL I'VE BEEN TRYING NEW THINGS NOW... KINDA

TESTS DONE: WE HAVE DONE MULTIPLE BLOOD TESTS, ENDURANCE TESTS, AND MENTAL TESTS TO SEE IF THIS SPECIMEN WILL BE RESISTANT TO THE VIRUS. No. You put me through hell.

FINDINGS: UNFORTUNATELY THIS SPECIMEN HAS TURNED OUT TO BE A FAILURE AS WE HAVE FOUND OUT THAT WHILE THE INFECTION DOES NOT CHANGE THE SPECIMEN, IT DOES NOT PRODUCE A CURE FOR HUMANITY LIKE WE HAD HOPED. IF ANYTHING IT SEEMS TO ABSORB THE VIRUS AND ADAPT ITS OWN BLOOD TO THE INFECTION. BUT WHEN TESTING THE SPECIMENS BLOOD ON OTHER SUBJECTS, ONLY AMPLIFIED THE VIRUS IN THEM OR INFECTED THE CLEAN ONES. WE HAVE REASON TO BELIEVE DUE TO THE ~~XXXXX~~ DNA SAMPLE THIS IS WHY THE SPECIMEN'S BLOOD IS REACTING LIKE THAT. WE WILL HAVE TO START AGAIN UNFORTUNATELY.

ADDITIONAL NOTES: FOR NOW WE WILL HIBERNATE AND WATCH OVER THE SPECIMEN'S STATE OF BEING. WE DO NOT KNOW IF ITS BLOOD COULD EVOLVE, OR MAKE USE OF ITS BLOOD FURTHER DOWN THE ROAD. IT IS UNFORTUNATE AS IT SHOWED SUCH GREAT INTELLECT AND PROMISE.

YEAH.. GREAT PROMISE HUH. IF I SHOWED SUCH GREAT PROMISE WHY WAS I STILL A FAILURE THEN...
