

Terra Reflection

1. I would kick them out because we were there for one year .but they can help us on our jobs but if they refused and there boat sunk i would give half of the island.

2. I enjoyed choosing the jobs because i got to be a carpenter when Terence was leader i was a climber and liked the last activity it was the war we were fighting with Ms.White's class we were role-playing the fight we foughted for live 1 minute

3. I learned how to role-playing because i got better being a carpenter. I just walk and imagine that we were building and my partner is Gregory.

4. I think my participation was ok because all i did was walk around and made imaginary house's

5. Day 8 we had to share the island and we played basketball then a helicopter past us and we got rescued and went home safely .
