*If you open this document in **Safari** browser on your phone the models may be blurry. I don't know why, it's a Safari thing. If you open it with Google Chrome on your phone it should be fine. If you are on mobile I recommend you download the **Google Docs app** and when you click the link from my website it will just auto open it in the Google Docs app and the images will appear fine.

MEMO

-11:32am

MLB model had a bad day yesterday. Model has been cold the last couple of days but just like before we will bounce back. Patience and Discipline when wagering and it will come back our way like it did a couple weeks ago.

I will have K props today waiting for umpers to be announced

No NBA today. Would lean Denver -4.5. I like Minnesota in the series but they won't sweep Denver and today will be the hardest game for them to steal on the road. So I would lean on the home team in Game 1.

NHL I am going with Toronto today. Model likes the Leafs and I personally like the Leafs so I will take a stab at Toronto +118 to steal this series.

The Kentucky Derby is today and I will have coverage of that. All horse racing wagers will be posted in my telegram channel for FREE. So if you want to bet some ponies today I recommend you join that using this link.

Lance Lynn 7+ (+240)

Honorable Mentions:

So plays under the model are my official plays. I will post honorable mentions as well. Honorable mentions will not be graded and I personally won't be on them but I'll add them here. Variety of reasons I may not play them are: Pitcher projection looks good but I don't love the price, or pitcher projection is close and I like the price, etc.

Like I said, I won't be grading the honorable mentions but I will provide them in case you want to use them in some way or even play a K Prop Parlay (which are fun). However you want to use the info is up to you.
