Digital Assessment with Google Forms (5pts)

General Description: Assessment via Google Forms provides a digital platform for dynamic formative assessment opportunities involving immediate data and feedback for students and teachers.

(Must Complete Both Levels)

Level 1	Use Google Form Assessments to formatively assess student understanding. Use the corresponding Google Sheets and Response Information (graphs & charts) to analyze student progress and inform instruction.
Level 2	Use the Google Form Graded Quiz Feature to provide immediate grades and feedback to students. (Graded Quiz Feature works only for multiple choice, drop-down and checkboxes) Encourage students to assess their growth towards learning targets using this information. The matching Google Sheets and Response Information (graphs & charts) can be used to analyze student progress and inform instruction.
