Subject: Managers Meeting

From: larryb706@juno.com

Hi all, want to let you know that we had a managers meeting today, April; 20. Attending were Joan S, Dick W, Duane W and I. We had a discussion on whether to hold a Spring meeting and it was decided that we would get together at a later date, if necessary, to discuss the construction situation once we get some useful information from Summerwinds. And in light of the coming (we hope) construction this winter we will hold off some spending on things that could be affected by the construction (such as the small patio door blind). There is to be a vote at the general meeting Sunday on whether to have the patio door swing inward, and I will e-mail Dale that we prefer the door to swing inward. The financial status is in fine shape. After some discussion on the schedule Dick will review the rational for the use of the current 7 week swing form year to year as there is some concern about it.

Concerning not holding a meeting at this time, after my previous e-mail it seemed that there were many travel plans for all of us and it would have been impossible to conduct any votes with a quorum present. We agreed that it was a poor precedent to miss getting the group together but seemed appropriate this time around.

Larry
