

Artificial Lawn in Dubai, Abu Dhabi and Al Ain - What are the Versatile uses of Artificial Lawn?

The installations below use unusual combinations of materials, colors and live plants to compliment the once tabooed [artificial lawn](#). They are so magazine worthy that neighbors will surely turn green with envy. Remember that you do not have to install a full lawn as artificial grass can easily be used between pavers, in side yards and other smaller applications. It is also used in the interiors of your home. If you need it for the playgrounds then we can fulfill your order.

Soft foot-friendly textures

If the kids toss sand out of the sandbox, getting it back in is much more comfortable with artificial turf surrounding the play area than real grass. Provided it did not just rain, sweep or blow the sand back in without it sticking to potentially wet soil. Let them play ball games like tetherball, pictured at the end of the [artificial lawn Abu Dhabi](#) in soccer, catch and more. The textures of these grasses are very soft which do not prickle in the foot.

The hygienic setup for your lawn

These grasses are very shiny and lush green which provide great look to them. Choosing these grasses will make you free water sprinkling, mowing and worry of sunlight. These grasses do lead to the any kind of mosquito reproduction due to the fact that they are very tidy and clean. As these grasses are very user friendly and soft beneath the foot so you will not need to worry about any kind of damages related to it.

High quality with amazing durability against colors fading

[Artificial lawn installation](#) is not always short like it is on a putting green. The lush grass between the concrete pavers in this provide a soft cushion under post pool bare feet. These artificial grasses are made with high quality base materials which provide very high resistant against the corrosion and damages.
