#### About the Authors

Ric and Liz Thompson we going through a traumatic phase of their life when they set upon discovering what in the quantum realm could help them.

The Quantum Realm is where unseen dominant forces exist. These energies that are in and around us all the time. They deliver both good and bad events for us.

Their finances were in shambles and this was starting to take a toll on their marriage, inner peace and physical health. It could have been a downward spiral from there.

Fortunately, because of their strong levels of intention, sincerity, positivity, and love for one another, they were able to attract enlightened souls who opened their eyes to the three guardian angels, and how to communicate with them.

An old lady, who helped them discover these three angels, told them them how ancient humans were taking their help to live a joyous and meaningful life, no matter what luck throws their way.

The old lady gave them a list of prayers and invocations. Ric and Liz then used it themselves to reconnect with their angels and overcome their financial debt.

Amazed at the results, they tested this secret knowledge with several other people they know who were also suffering for no fault of theirs. What they found is that prayers worked only if we use the right methods to connect with our angels.

During their research of over a decade in a dozen countries in 4 continents – conversing with seers, sages, and clairvoyants, they discovered many other metaphysical assets that worked splendidly for them. They consider themselves truly lucky to have been on that journey and now feel they have an immense responsibility to serve and share with humanity.

This is the story behind Guardian <u>Angel Personalized System</u>, and the motivations of Ric and Liz.

The only purpose of this program is to help deserving and worthy human beings to connect with their angels.
