Notes: The list has been relatively quiet. However, per 10/15 email it appears the committee is working on a new/better way to track and disseminate platform amendments, of which there are plenty that have been alluded to.

Notes: Emailed the ARC list after digging through the discord. The discord is set up to handle official business, and I expressed that we all share the frustration of listserv overload, that business needed to be on-list. I did, however, add that if they had any suggestions that the party could adopt to fix the list issue, I'm sure many of us would be happy to entertain the proposal.
