This time's discussion/action items:

- [Bug 1378939](#) - Fine-grained image animation API
 - Current bug open to disable animations
https://bugzilla.mozilla.org/show_bug.cgi?id=1364972
 - Approve 1364872; not enough use case for 1378939.
 - Would need to see other demand for this to approve
 - [Bug 1371737](#) - Implement runtime.sendMessageExternal(), deprecate runtime.sendMessage() to other extensions
 - Unsure if this would impede compatibility with Chrome
 - [soft no] Andy to comment
 - [Bug 1370499](#) - Consider support for bookmark context menus
 - Need to ask Jonathan about which bookmarks he's talking about
 - Bob to update the bug
 - [on hold for more information]
 - As long as it's pretty straight forward, should be approved
 - [Bug 1368700](#) - Not able to specify when to enforce chrome_url_overrides and chrome_settings_overrides after installation of WebExtension addon
 - Optional permission after installation?
 - Proposal needs to be fleshed out a bit more and some details need to be figured out
 - [approved] - P5
 - [Bug 1372297](#) - API Request: contextMenus: add new hover events
 - Related: https://bugzilla.mozilla.org/show_bug.cgi?id=1379608
 - Not a strong case for hover events
 - There's an open bug to remove items
 - [rejected]
 - Shane to update the bug
 - [Bug 1373504](#) - Feature Request - WebExtensions: Allow for horizontal panels distinct from DevTools
 - Related bug: https://bugzilla.mozilla.org/show_bug.cgi?id=1344573
 - This needs to be reviewed by other people - namely, UX and front-end devs for Firefox
 - [on hold]
 - Andy to update the bug
 - [Bug 1379608](#)
 - [denied]
-

Last time's discussion/action items:

- **WebExtensions APIs**
 - [Bug 1362741](#) - Allow setting a browseraction label different from its title
 - Approved; P5

- Caitlin to update the bug
- [Bug 1364401](#) - Create a Custom Menu API
 - Luca had a suggestion to investigate a feature; if it's not re-usable, we can re-discuss this feature
 - Pending
- [Bug 1364404](#) - Create a Floating Panel API
 - Approved; P5
 - Luca created an experiment that does mostly the same thing
 - Caitlin to update the bug
- [Bug 1353790](#) - Add ability to inject synonyms information for the find bar (in-page search)
 - Approved; P5
- [Bug 1359182](#) - Master password API for WebExtensions
 - Need feedback from security or from password team
 - On hold until we get feedback from security
 - Not sure that this is something we want to extend
- [Bug 1371801](#) - Detect if a page can be viewed in reader mode
 - Approved; P5
- **Experiments:**
 - [Bug 1332447](#) - WebExtension API to hide the tabstrip
 - [Experiment details](#)
 - High demand
 - Action for Andy: file the blockers to this experiment, and once those are solved, see how this works
 - Events
 - Showing tab whether I want to or not
 - Permissions
 - Testing to see what works and what breaks
- **Discussion Items**
 - Cancelling meetings on the 27 and on July 4
 - Next meeting to be July 11
