**Why should you trust me?**

You are probably wondering why on earth you should trust me to give you the solution to your problem.

It is a fair question that I will answer

My name is Terry and 365 days ago I was a broke college student who couldn't see himself doing anything in life.

My life was pretty much just getting up, going to college, coming back to play games and eat junk food. Repeat.

This went on and on until one day i woke up and knew things had to change, and in order for my life to change I knew my mind had to change first.

So I studied money for hours a day for weeks on end until I discovered the answer.

The solution to my problems, the cure to my illness.

I sat down and worked. Cut out all distractions and bad habits and went into a 3 month long "deep work" mode.

All it took was 3 months of pure hard work and dedication for me to change the entire course of my life.

Fast forward to today, I am a 7-figure earning entrepreneur who makes MILLIONS doing the most simple thing possible.

It takes up a small fraction of my day and allows me to be anywhere, do anything and live however I want for the rest of the day.

I decided that instead of gatekeeping these generational secrets, I should share them with the deserving so they can live their life to the fullest and break free from the trap of the rat race.

Did that answer your question?

Now you have the same opportunity as I did to change the course of your life.

Are you one of the deserving?

## Why you are still BROKE

The reason you are still broke is simple.

You've been trying the wrong things to get rich

Dumb things like quick cash selling, ali-express dropshipping, getting grades at school for a decent job etc. The list goes on for ages of things you may have tried, but none work.

But it's nothing to worry about even though you've wasted time because at the time it was what you thought was the best option and you only knew so much about money making.

You could go to school, learn everything inside, revise, get straight 9's and a scholarship to Cambridge,

But the person who didn't fail school but was focused on money acquisition rather than the traditional corporate route is infinitely more likely to become massively rich and successful.

This is the hard truth of reality, most people have no idea what to do.

But I do and I am prepared to share this life changing information with a select few who are TRULY ready to take on and apply this information to real life.

If you are genuinely one of the select few, then you know what must be done.

The best time for this was when I released this information, but the second best time is NOW
