질문: Tell me the difference between where you live now and where you lived in the past.

답변: I think I live in the past in suwon you know. I think 22 years and now I live in Seoul because I'm the university student of the you know chungang University so my university in Seoul so I moved to seoul dongjakgu, to suwon to seoul. I think the difference is exactly in Suwon, I have many friends or my family, my relatives, we lived in all in the Suwon but nowadays I live in Seoul. So in Seoul, I don't have much more friends or family but it's okay because I have the university friends in Seoul and Seoul is so fantastic because there is so many good place to play. Yeah. So that's the end.

수정한 답변: Oh, that's a good question.

I've lived in Suwon my whole life — from when I was born until I turned 21.

My family, friends, and relatives all live there, so I always felt safe and comfortable.

But recently, I moved to Seoul because I started attending a university here.

You know Chung-Ang University, right?

Of course, I sometimes feel a bit lonely since I don't have as many people around me as I did in Suwon.

But it's still okay because I've made a lot of friends at school.

Plus, I really like Seoul. There are so many fun places to go, and there are always a lot of people around.

Honestly, both Suwon and Seoul are great places to live.

질문: Technology has changed the world, and many people have their own devices such as tablet pc, phones to watch video clips. I would like to know about various ways of watching visual content people use. How has it changed over the last few years?

답변: Hmm, Yes I think so the technology has changed the world but many people have you know their own devices smartphone or ipads and I didn't think about laptop yeah. And they watch video clips like YouTube you know or Instagram Leels or YouTube shots in Netflix. So I think it's, it is very different before the last few years because I think the most different thing is the age. umm, a few years ago, I think the adults used the, you know, the devices like Tablet PC, you know, the Smartphone and they used that devices to watch the video. But nowadays, I'm really surprised this situation. It's really, really, really surprised but very younger persons use the devices smartphones or, but it's really surprise because their age is like 7 years old, 6 years old they used their devices. So I think this situation is a little bit concerned but it's okay because they used the devices so they are really good at their devices. But I guess, in conclusion, the last few years the most different thing is the age of using their devices. But I think this is a little bit concerned but it's okay because they used the devices so useful. I think that's it.

수정 한 답변: Yeah, I also think technology has really advanced.

These days, people use all kinds of smart devices.

The biggest difference compared to a few years ago, in my opinion, is the age of the users.

In the past, it was mostly adults who used these devices to watch videos and things like that.

But nowadays, even really young kids are good at using them.

I'm a bit worried that they might get addicted or something like that.

At the same time, I think it's kind of good that they're becoming tech-savvy from an early age.

All in all, a lot has changed over time, and the age of the users is the biggest change, I think.

| 최수인 | 질문이 흥미롭다고 하며 시작하는게 좋았어요 지역명 앞에 the 를 사용하는 것이 어색하게 들릴 수 있을 것 같아요. knowed = knew 감정이 실린 대답 it's okay 처음에 비해 훨씬 자연스럽게 편안하게 말씀하시는 것 같아요 intonation, stress 사용이 매우 좋은 것 같아요!! listing 를 적극적으로 사용하시는 점이 좋습니다. 돌발질문을 자신의 주제로 가져오는게 정말 흥미롭고, 또 많은 이야기를 할 수 있고, 기승전결도 있어서 좋은 것 같아요. 앞으로도 '자신의 경험'을 답변으로 최대한 가져오려고 하면 말을 많이 하실 수 있을 거 같아요!! |
| 홍명현 | 필러를 시작하자마자 사용해서 informal 하게 들려서 좋았습니다! 수원과 서울의 얘기를 하기 때문에 서울과 가까운 곳이다는 식의 설명하는 내용을 책에서 본 것 같습니다. 개인적인 얘기를 많이 가져오시는 쪽으로 내용을 끌어가시면 내용이 훨씬 풍성할 것 같습니다! |
| 김기린 | that's so interesting question! 이라고 시작하는게 좋은 것 같아요 수원이 어딘지 설명해주는 것도 좋을 것 같아요! 뭔가 문장이 중간에 안이어지는 부분도 있는 것 같긴한데 처음보단 훨씬 편안해지신것 같아요! 돌발질문에 거의 바로 대답하시면서 본인의 이야기로 끌어와서 대답이 풍성해지신 것 같아요! |
