

# High Quality, Durability, Guaranteed!

Superled is a pioneer in the LED market since 2012, assembling, refurbishing, and customising to customers needs.

## Why Choose Us?

We source high-quality LED components from China and assemble them right here in Lebanon.

If you have your own Lighting that blends in well with your design, no worries we got you covered. We are able to refurbish any type of lighting to LED, with the highest quality guaranteed.

We only source products that have accessories here in Lebanon for fast

In the Lebanese market for over 14 years, we understand all the challenges faced, including drops and surges in electrical supply voltage, weather conditions, temperature variations, moisture, and any possible scenario you can think of. Solve the micro problems before they even happen.

We have complete flexibility, customising everything from colour temperature, angles, CRI, and lumen to both the interior and exterior design... .

## Brands We Use:

Our own Superled Drivers, high power factor, 6000v on lightning and instead of flickering it shuts down customly made to survive any spikes or damps in voltage (85 to 265)

The famous Cree LED Chips, renowned for their quality and durability. Lumen,

We trust both of these brands for their high specs that's why we give our own TWO YEARS Guarantee .

There are a lot of cases where high or low Color Rendering Index (CRI) is needed, that's where we would up our brands and warranty margin.
